

	ENVIRONMENT AND NATURAL RESOURCES		August	
			MONTH	
	Accomplishment Report		2023	
			YEAR	
PROGRAM/PROJECT/ACTIVITY	PROJECT DESCRIPTION	STATUS/REMARKS/ ACCOMPLISHMENT		
I. FOREST MANAGEMENT AND CONSERVATION DIVISION				
A. Forest Resources Development Activities:				
1. Nursery Operations & Maintenance Works				
a. Production/Propagation and Disposition of seedlings	Production, propagation and procurement of seedling stock and disposition of seedlings	<p>Beginning balance: 32,379 seedlings to include Agoho, Anchoan Dilaw, African Tulip, Balitbitan, Chest Nut, Golden Shower, Earpod, Ipil, Kamagong, Mahogany, Molave, Narra, Rubber Tree, Talisay, Tindalo, Tuai, Atis, Anonas, Antipolo, Bignai, Cacao, Calamansi, Citrus/Mandarin, Chico, Duhat, Guyatis, Langka, Lansones, American Lemon, Lemon, Mangga, Mangosteen, Passion Fruit, Pomelo, Rambutan, Tamarind, Santol, Satsuma, Verba, Bamboo, Beetle Nut, and Tokyang Palm; and 293 saplings to include Fire tree, Banaba, Acacia, Golden Shower, Coconut and Talisay;</p> <p>Number of seedlings produced: 1,500 Forest Trees Seedlings;</p> <p>Number of seedlings and saplings procured: 14,889 consisting of 120 Saplings and 14,779 Seedlings;</p> <p>Number of seedlings released: A total of 17,033 assorted seedlings and 35 assorted saplings were disposed to various requesting constituents;</p> <p>Mortality rate at 1.39% equivalent to 670 seedlings was incurred.</p> <p>As per record, 37 out of 39 seedling requests were disposed and distributed to different public and private entities. On the other hand, the remaining 2 requests are ready for pick-up.</p> <p>Stock balance: 30,445 seedlings and 378 saplings as of August 31, 2023.</p>		
b.Maintenance works	Maintenance of Provincial Nursery; Operation of Clonal Nursery; Brushing, ring weeding and greening of two nurseries; arrangement, and sorting of seedlings for hardening; seed and collection and propagation; and other activities that may be assigned to be accomplished during the period	Supervised and led by ENRO personnel assigned, 5 contractual laborers ensures the conduct of regular maintenance and operations of the nursery. Activities include improvement of seedling beds, potting for soil media, seeds and wildlings collection, watering, transplanting and sorting of seedlings.		

<p>2. Climate Change Mitigation/ Adaptation and DRRM Initiatives</p>	<p>Implementation of forest rehabilitation and other greening efforts such as but not limited to watershed rehabilitation, agro-forestry, riparian rehabilitation & development, mangrove & beach forests rehabilitation and urban greening with the aim to reduce the causes of global warming and its effect to biodiversity; and protect communities from risks of hazards caused by natural calamities.</p>	<p>ENR Office Personnel together with ISEP-TF Operatives conducted site preparation activities relative to the upcoming tree planting activity at IDRRIP, Sitio Disipon, Sindun Bayabo, City of Ilagan, Isabela on August 15-18, 2023.</p> <p>Also, this Office thru its Personnel conducted inspection of planted seedlings awarded to different beneficiaries at Tumauni and Cabagan, Isabela on August 24, 2023.</p> <p>The following were the results of the seedling inspection, to wit:</p> <p>Lanna National High School - The school was given a total of one hundred (100) pieces assorted forest trees and fruit bearing tree seedlings. The tree planting activity was conducted on July 27, 2022. An estimated survival rate is more or less 65% and with a mortality rate of more or less 30-40% consisting of fruit bearing trees.</p> <p>Brgy. San Juan, Cabagan - Engr. Jolan Sy, a private farm owner was given a total of one hundred (100) pieces assorted forest trees and fruit bearing tree seedlings. An estimated survival rate is more or less 75% and mortality rate of more or less 25% of the seedlings planted. According to Engr. Sy, one of his best practices was the application of urea, a nitrogen fertilizer every six months to the fruit bearing trees such as mango, avocado and calamansi.</p> <p>Brgy. Anao, Cabagan - Fifty (50) pieces of assorted seedlings were given to the Barangay which was planted on their barangay nursery. Also, some of the seedlings was distributed to 4P's beneficiaries. An estimated survival rate is of the planted seedlings is more or less 50% and mortality rate of 45%.</p> <p>Brgy. Catabayungan, Cabagan - On year 2021, Brgy. Captain Marieta Ramos requested for seedlings to be planted at Brgy. Catabayungan, Cabagan, Isabela. A total of fifty (50) pieces seedlings were given to the barangay and as per observation, an estimated survival rate is more or less 50% of the planted seedlings.</p> <p>College of Agricultural Science and Technology-ISU Cabagan Campus - The requested seedlings such as calamansi, rambutan, guyabano and molave were planted at the vacant part of the poultry farm. An estimated survival rate is more or less 50%.</p> <p>Recommendations:</p> <ol style="list-style-type: none">1. Planted seedlings should be in proper spacing.2. Tree species with wide branches should not be planted near the school buildings.3. Regular maintenance of seedlings such as weeding, cultivating and application of organic fertilizer/vermi-compost is needed.4. Mulching is highly recommended due to excessive heat during summer season that helps in suppressing weed growth, retaining soil moisture and improves soil fertility.5. Seedlings must be provided with tree guards for protection from strong winds and stray animals.6. There must be a pre-inspection for technical assistance prior to the tree planting activity.
--	---	--

		<p>Distributed seedlings for the following restoration projects:</p> <p>1. Riparian Rehabilitation Project – 1,600 bamboo propagules and 225 assorted fruit-tree seedlings for MLGU Echague; 500 bamboo propagules for City LGU of Ilagan; 3,300 bamboo propagules and 15 bags fertilizer for MLGU Tumauni; 500 bamboo propagules for MLGU Reina Mercedes; 1,500 bamboo propagules, 225 assorted seedlings and 10 bags of fertilizer for MLGU San Pablo</p> <p>2. Watershed Rehabilitation Project – 1,985 assorted forest tree seedlings, 355 assorted fruit-tree seedlings and 20 bags of fertilizer for MLGU Delfin Albano; 1,985 assorted forest tree seedlings, 350 assorted fruit tree seedlings and 20 bags of fertilizer for MLGU Cordon</p> <p>3. Agroforestry Project – 420 assorted forest tree seedlings, 390 assorted fruit-tree seedlings and 10 bags fertilizer for MLGU Burgos; 815 assorted forest tree seedlings, 715 assorted fruit-tree seedlings and 10 bags of fertilizer for MLGU San Guillermo</p> <p>4. Watershed and Agroforestry Project – 1,250 assorted forest tree seedlings, 530 assorted fruit tree seedlings and 20 bags of fertilizer for MGLU Cabagan</p> <p>Also, the ENRO Personnel had a coordination meeting with the MENR Officer at his office in the morning and he regret to inform us that the tree planting was rescheduled for the following week due to conflict of schedule with other activities of the MLGU Tumauni. He then informed the team that site preparation activities and construction of tree guards are continuously being conducted by Cash for Work beneficiaries and hopes that the planting activity will push through next week.</p> <p>Further, the ENR Office thru its personnel also went to Delfin Albano, Isabela to document the initial preparations for watershed rehabilitation project at Brgy. Carmencita currently being conducted by Cash for Work beneficiaries such as brushing and ring weeding activities. The proposed planting activities were also scheduled on the following week.</p>
B. Forest Protection and Law Enforcement Activities:		
1. Manning of Checkpoints		
a. Foot/mobile Patrolling and Surveillance	Foot/mobile patrolling and surveillance of illegal cutting and transporting of forest products.	<p>ENRO and ISEP-TF personnel conducted surveillance and mobile patrolling in the following areas:</p> <p>-Alinguigan 3rd, Alinguigan 2nd, Malalam, Fuyo, San Ignacio, San Juan, San Lorenzo, Bintacan, Cabisera 8, Cabisera 14-15, Cabisera 22, Sitio Lagis, Sindon Bayabo, and other forest barangays of City of Ilagan, Isabela;</p> <p>-Magassi, Masipi East, and Masipi West, Cabagan, Isabela;</p> <p>-Antagan 1st, Antagan 2nd and Dy-Abra, Tumauni, Isabela;</p> <p>-Benito Soliven and San Mariano areas;</p>

		<p>-Forest region at Jones and San Agustin, Isabela; -Ilagan-Divilacan Road Rehabilitation Project (IDRRIP)</p> <p>Also, assisted in the monitoring of Sand and Gravel Extraction Activities.</p>
b. Apprehension/Confiscation	Apprehension/confiscation of illegally cut and transported forest products	<p>For this month, apprehended/confiscated forest products during the conduct of forest protection activities were the following:</p> <p>August 8, 2023 - 22 pieces (689.58 bd. ft.) Narra Flitches at Cabisera 3, City of Ilagan August 15, 2023 - 30 pieces (1,224 bd. ft.) Common Hardwood at Km. 36, IDDRIP, City of Ilagan August 24, 2023 - 65 pieces (1,058.66 bd. ft.) Common Hardwood at Km. 24, IDDRIP, City of Ilagan August 27, 2023 - 91 pieces (1,310 bd. ft.) Common Hardwood at Bintacan, City of Ilagan</p>
2. Donation/Utilization of Forest Products	Granting of request for wood materials	No donation/utilization of forest products was recorded for this month.
3. Other Activities	Seedlings Production	<p>Seeds and wildlings collection were continuously conducted and potted.</p> <p>For this month, operative members detailed at Forest Protection Monitoring Checkpoints propagated seedlings of different forest tree seedlings, to wit:</p> <p>Abuan Checkpoint-2,000 pieces Disipon Checkpoint-1,533 pieces Marana Checkpoint-1,500 pieces</p> <p>Seedlings produced shall be utilized for future tree growing activities of the Provincial Government.</p>
C. Activities Undertaken in Support of IDDRIP	Patrol works and monitoring activities and maintenance of reforestation areas	ISEP-TF and ENRO personnel regularly conducted monitoring activities at IDRRIP reforestation areas.
D. Other Related Activities		
1. Isabela Provincial Ecopark		Clearing activities within the pathways of the Isabela Provincial Eco-Park (IPEP) and beautification and maintenance activities in the IPEC Building is continuously and regularly conducted by the assigned Job Order service providers.

II. ENVIRONMENTAL MANAGEMENT DIVISION

A. Vermicomposting Facility	Production of Organic Fertilizer thru Vermicomposting	<p>For this month, a total of 850 kgs. were produced and 1,050 kgs. were disposed/released to three (3) ENRO checkpoints (Marana, Abuan, City of Ilagan, and Jones) which were utilized for the production of seedlings while one (1) private entity request was also approved, with a remaining stock balance of 28,251 kgs. as of August 31, 2023.</p> <p>Continuous collection of organic materials was also implemented.</p>
B. Production of Green Charcoal	Production of charcoal briquettes out of paper waste to minimize the impact of paper waste	For the month of August, 2023, the Environmental Management Division was able to produced a total of 10 kilograms of Charcoal briquettes.
C. Maintenance of Organic Vegetable/Herbal Garden and Ecological Center	Maintenance of OrganicVegetable Garden, Materials Recovery Facility,Provincial Ecology Center and ENR Office premises.	<p>Supervise by a Technical Personnel, Job Order service providers were hired to conduct maintenance of Provincial Ecology Center.</p> <p>Activities include brushing, cleaning, planting of vegetables and maintainance organic vegetable garden. They were also able to assist in maintaining the cleanliness of the ENR Office premisses.</p>
D. Monitoring of Waste Disposal Facilities (SLF and RCA)	Pursuant to the provisions of the Local Government Code (RA No. 7160) and Ecological Solid Waste Management (ESWM) Act of 2000 (RA 9003), LGUs are mandated as the primary responsible bodies for the implementation and enforcement of ecological solid waste management system within their respective jurisdiction.	<p>The Provincial Government of Isabela thru the Environment and Natural Resources Office conducts monitoring and inspection of the final waste disposal facility of all municipalities/cities in the province</p> <p>The following sites were monitored, to wit:</p>

		<p>1. Delfin Albano Sanitary Landfill Facility and Material Recovery Facility</p> <p>Personnel from this office had a courtesy call with MENRO Niel P. Gamino of LGU-Delfin Albano on August 9, 2023. MENRO Staff, Ms. Marijoy D. Albano accompanied the team to the SLF which was located at Brgy. Carmencita, Delfin Albano. The construction of the SLF was completed on September 2, 2019 and started its operation in the last quarter of the same year. According to Ms. Albano, the LGU only collects residual and special wastes. Based on monitoring the following were observed, to wit:</p> <ul style="list-style-type: none">•There are three (3) units of leachate pond with 3 ladder rungs, inlet, and outfall for each leachate but no treatment;•One (1) unit guard house but not functional;•The area has no access to electricity;•Fences are not yet constructed;•There are five (5) waste collectors and five (5) Bantay Kalikasan assigned in the SLF;•MRF is not labeled;•The garbage collected was placed in sacks to avoid blowing of wastes;•One (1) unit backhoe and two (2) garbage trucks; and•They sprayed AGITA to control flies around the SLF. <p>After the monitoring of SLF, the team proceeded to the Centralized Material Recovery Facility (MRF) of the municipality located at Barangay San Antonio, where the composter and multi-purpose shredder were placed and set. The centralized MRF serves as the final sorting of wastes. The area doesn't have a composting facility since the bio-degradable waste was managed individually at source. Also, there is a production of bricks made out of crushed bottles which were donated to barangays.</p>
		<p>2. Sto. Tomas Residual Containment Area</p> <p>ENR personnel visited Sto. Tomas RCA located at So. Gapa, Brgy. Bubug on August 9, 2023. According to Mr. Jademar Bulusan, MENRO Staff, the LGU does not have any garbage collection system. Some households managed their own garbage by digging their own compost pit while most of the households burned their waste. The team observed that the wastes inside the RCA were recyclables and not residual. The RCA is also not properly labelled, and is abandoned.</p> <p>The LGU constructed the Municipal Material Recovery Facility located at Brgy. Poblacion last 2017. The MRF is divided into 3 chambers used for the recyclable wastes within the municipal hall premises.</p>

		Recommendations: <ul style="list-style-type: none">•Strict implementation and enforcement of Municipal/Barangay ordinances/policies on RA 9003 also known as Ecological Solid Waste Management Act of 2000;•There should be an Information and Education Campaign to be conducted at the barangay level;•The LGU must have an alternative plan for the collection of wastes; and•Priority allocation of funds for the vehicles (garbage trucks) needed in the collection of wastes
E. Healthcare Waste Management	<p>Pursuant to the provisions of the Local Government Code (RA No. 7160) and the Ecological Solid Waste Management (ESWM) Act of 2000 (RA 9003), LGUs are mandated as the primary responsible bodies for the implementation and enforcement of ecological solid waste management system within their respective jurisdictions.</p>	<p>Gov. Faustino N. Dy Sr. Memorial Hospital</p> <p>The hospital was monitored on August 28, 2023 and the results of the observations were as follows:</p> <ul style="list-style-type: none">•Daily collection of solid waste which was disposed at Brgy. Sta. Catalina, City of Ilagan, Isabela;•Healthcare wastes were collected by Private Transporter;•They have septic vault for pathological wastes like placenta and blood;•Lack of garbage bins both for solid and hazardous/infectious wastes;•Waste inside the MRF were mixed; and•The hazardous wastes like vials, syringes, needles, and expired medicine were placed in their MRF. <p>Recommendations:</p> <ul style="list-style-type: none">•Additional trash bins inside and outside the hospital with color-coded and should be properly labeled.•Residual and infectious/hazardous waste inside the MRF needs to be removed. <p>The team also visited the newly installed container van donated by the DENR-EMB Central Office for healthcare waste. The container van is approximately 2.5 meter in width and 6 meter in length. According to Engr. Noriega, the van will start its operation once the MOA with the DENR is approved.</p>
E. Other Related Activies		
1. Wastes collection and segregation	<p>Weighing of various recyclable, special/hazardous and residual wastes collected from the different offices within Capitol premises, brought to the ENRO Material Recovery Facility for final segregation and recovery of wastes with potential for diversion.</p>	<p>Wastes were segregated and compiled according to waste composition in kilograms, to wit: Residual-858.5 kgs.;Biodegradable-95.5 kgs.; Plastic Bottles-38.5 kgs.; Paper-61kgs.; Carton-27 kgs; Food Wastes-8 kgs; Bote-7.5 kgs; Hazardous waste-0.5 kgs. and Lata-7.4 kgs. with a total of 1,103.90 kilograms.</p>

III. MINERAL RESOURCES MANAGEMENT DIVISION		
A. Processing and Issuance of Permits	<p>The ENR Office as the implementing arm of the Provincial Government of Isabela in ENR concerns, is tasked to approve applications for small-scale mining, sand and gravel, quarry, guano, gemstone gathering and gratuitous permits and for industrial sand and gravel permits not exceeding five (5) hectares, under RA 7942 otherwise known as the Philippine Mining Act of 1995.</p>	<p>For the month of August, no Commercial Sand and Gravel (CSAG) Permit Application was received.</p>
B. Accreditation of Haulers	<p>All haulers, traders, dealers and retailers of mineral/mineral products/by-products are required to be accredited by the Provincial Government through a Memorandum of Agreement with the Mines & Geo-sciences Bureau Region 02</p>	<p>For this month, this office received and processed applications of, and issued Accreditation Permit, to Four (4) haulers/ dealers/traders and retailers trading mineral products and by-products. Correspondingly, Twenty-seven (27) accreditation stickers were issued for the conveyances and equipment registered.</p> <p>A total of Php 15,480.00 accreditation fees were remitted to PTO representing the permit application fees amounting to Php 10,080.00 and Php 5,400.00 for the stickers.</p>
C. Site Verification and Inspection of Mining/Quarry Sites	<p>The ENR Office is responsible in field verification and evaluation of quarry areas to determine compliance of permit holders and/or operators to environmental laws, rules and regulations. It is a part of the process prior to the endorsement of the application to PMRB for deliberation.</p>	<p>For this Month, no site verification and inspection of applied areas was conducted.</p>
D. Field Monitoring of Quarry Areas		
1. Regular field inspection and monitoring		<p>For this month, continued site inspection, monitoring of compliances to necessary permits and supervision of personnel assigned to various quarry areas were implemented.</p> <p>Compliance to extraction measures such as extraction in the main river bed, no screening of materials in the main river bed policy and pre-payment of quarry taxes and fees were checked at the Municipalities of Mallig, Roxas, Dinapigue, Sta. Maria, San Pablo, Tumauini, Cabagan, and Delfin Albano. At the same time, checking of Accreditation Permit of haulers and transporters of sand and gravel materials through random inspection of vehicles hauling and transporting sand and gravel materials. Operators with monitored extraction without pre-payments were notified for post-payment. All personnel assigned at their respective areas were present, while those with no operation reported to the Office and assisted in the activities at the Provincial Nursery.</p>

2. Monitoring of extraction activities	<p>This activity is in line with the implementation of Provincial Ordinance No. 5, series of 2014, to effectively regulate the utilization and monitor extraction activities, ensuring all necessary environmental measures are implemented in the quarry areas.</p> <p>Also, monitoring reports on extraction of sand and gravel and other quarry resources shall serve as basis for the collection of taxes and other related fees by the Provincial Treasurer's Office.</p>	<p>For the month of August, a total of 46,544.00 cu.m. were monitored to have been extracted from the different quarry areas in the province. This represents 900.00 Ordinary Earth, 43,089.00 Mixed, 12.00 G1/S1 and 2,543.00 Boulders; and with gross value amounting to Php 1,675,520.00 fees and taxes.</p> <p>Reports on extractions were accompanied by daily field monitoring reports and delivery receipts.</p> <p>Also, based on record, a total of Php 620,209.20 gross value of fees and taxes was remitted to PTO this month as prepayment to 17,523.12 cu.m. of Boulders, G1/S1, Ordinary Earth and Mixed gravel materials.</p>
3.Investigation/Settlement of Quarry and Mining Related Complaints		<p>August 01, 2023 - In response to letter endorsed to this Office relative to an alleged illegal quarrying of a certain Mr. Jaime Guillermo of Barangay Simimbaan, Roxas, Isabela, personnel of this office conducted investigation on the complaint. Findings and observations were as follows:</p> <ul style="list-style-type: none"> - the alleged activity is not quarrying, but it was a treasure hunting activity, as per inspection and documents presented by Mr. Guillermo; - since the requirements for treasure hunting was not complied by the proponent, he opted to construct a deep-well which the complainants assumes that it causes the disruption in their water supply; - considering that the activity is outside the jurisdiction of the office, advice was given to settle the matter at the Barangay-level and endorse unsettled matters to concerned agencies if necessary; - further, that the proponent must secure the necessary permit from the concerned agencies prior to the conduct of his activity to avoid disinformation and complaints.
E. Other Related Activities		
1. Attendance to Meetings as Member of Governing Bodies Related to Mineral Resources Management		<p>August 3, 2023 - As member,the PGI thru the ENR Officer attended the 3rd Quarter Regional Mine Rehabilitation Fund Committee (MRFC) meeting held at Zen Hotel, Santiago City.</p> <p>August 22-26, 2023 - As member,the PGI thru the ENR Officer attended the 2023 3rd Quarter monitoring of the Multi-Partite Monitoring Team (MMT) of Dinapigue Mining Corporation (DMC).</p>

IV. OTHER PROGRAM/PROJECT/ACTIVITY		
1. 14th Philippine League of Local Environment and Natural Resources Officers (PLLENRO) National Convention		<p>This Office thru its personnel attended the 14th Philippine League of Local Environment and Natural Resources Officers (PLLENRO) National Convention at Royce Hotel, Clark, Pampanga on August 16-18, 2023. With this year's theme "Local ENRO: Key to Championing LGUs Environmental Governance", said convention highlighted the discussions of LGUs responsibilities on environmental management particularly those embodied in the Department of Interior Local Government (DILG) - Seal of Good Local Governance (SGLG) compliance indicator.</p>
2. Benchmarking Activity of SSF Rattan Processing Center		<p>ENRO personnel together with the representatives from PGSO, PTO, PPDO, PEO, DTI and skilled private rattan furniture makers proceeded to San Fernando, Pampanga to conduct benchmarking activity for Shared Service Facility (SSF) Rattan Processing Center.</p> <p>The team coordinated first with Mr. Joseph Pineda focal person of DTI Regional office Pampanga and informed him on the purpose of visit which is to benchmark the best practices of Pampanga rattan and bamboo industry in order to ensure smooth operations and maximum utilizations of the SSF Rattan Processing Facility of the Provincial Government of Isabela (PGI) and served as basis in the preparation of the Rattan Processing Facility Operations Manual. After which, the team visited their show rooms showcasing sampled bamboo designs and products inside the DTI building. Afterwards, the team proceeded to Lubao Bamboo Hub and Eco-park wherein the bamboo processing and manufacturing facility was located.</p> <p>Finally, the team visited the Calfurn Manufacturing and Furniture, one of the biggest rattan industry in Pampanga. Calfurn industry President, Mrs. Julieta B. Sarmento, immediately conducted brief orientation relative to the rattan industry. She also imparted the success story of their company from small firm until it became a huge rattan manufacturing industry in Pampanga. After the orientation, the team together with Mrs. Sarmento was able to visit their processing and manufacturing facilities. Based on our observations the operational period of manufacturing process from raw materials until finish product was done almost instantly since every worker has their own individual tasks. In order to gather ideas and additional informations regarding the rattan processing and manufacturing, some members of the team conducted dialogues with some of the workers/manufacturers.</p>

		<p>In conclusion, the team was able to learn new informations that will be essential in the crafting of the Rattan Processing Facility Operations Manual that will serve as guide during its operation by the PGI. Based on observations at the Calfurn manufacturing and furniture compared to the SSF Rattan Processing Facility of the PGI, there were still many other items/materials that are needed for the PGI Rattan Processing Facility to operate and progress smoothly such as Blue torch with tank, fabricated manual rattan cutting combination of half scissors and knife, rattan wicker blades, 5 set fabricated rattan skin remover, 5 gas stove heavy duty with LPG for steaming, water system fittings, 5 set coupling and hose for nail gun and spray gun, nails, lubricants for sewing machine, 20 chairs for sewing machines, garments, threads, sewing machine heavy duty, scissors, tailors chalk, measuring tape, meter stick, electric fans/cooler, trash bins, 6 set of first aid kit, 20 pieces hard hats, office sets for 2 rooms, tool set for machines, apron, safety glasses, gloves, paint, varnish, welders helmet and goggles, welding rods, earplug, metals for frame, rattan raw materials, kitchen utensils, bathroom toiletries, signages and directories.</p>
2. Meetings, Seminars, Trainings and Workshops Attended		<p>August 10, 2023 - Attended Provincial Awards Committee Meeting via Zoom</p> <p>August 15, 2023 - Attended Initial Review of Budget Proposals of Annual Budget FY 2024 at Balai Capitol, City of Ilagan, Isabela</p> <p>August 16, 2023- Public consultation on Draft DENR-DOE-DOST Joint Administrative Order (JAO) Governing Waste-To-Energy Facilities Utilizing Combustion Technology for Municipal Solid Waste in collaboration with Department of Energy (DOE) and Department of Science and Technology (DOST).</p> <p>August 15-18, 2023 - Personnel of this Office attended the Basic Course on Regulatory Impact Assessment conducted virtually by the Development Academy of the Philippines (DAP). Said training is the first of a series of capacity-building activities extended by DAP to potential beneficiary of their project entitled "2023 Capability Development on Regulatory Impact Assessment (RIA) for Local Government Units (LGUs)" which aims to develop the capability of LGUs in conducting RIA toward improving the quality and coherence of regulations.</p> <p>August 18, 22-25, 2023 - Attended Provincial Awards Committee (PAC) on Local Legislative Award (LLA) at Cabagan, Deldin Albano, San Mariano, Naguilian, Ramon, San Manuel, San Isidro, Cauayan City and City of Ilagan, Isabela</p>

		<p>August 24, 2023 - Personnel of this Office attended the virtual Orientation-Workshop for the Formulation of the Local Energy Efficiency and Conservation Plan (LEECP) conducted by USAID ESP Activity. The Provincial Government of Isabela was one of the LGU-receipient of USAID ESP Activity provided with technical assistance relative to its compliance to RA 11285 or the Energy Efficiency and Conservation Act of 2019.</p> <p>August 24, 2023 - Attended MMT-TRMP Meeting at Tumauni, Isabela</p>
<p>Consolidated by:</p> <div><div><p>(SGD.) <u>JESSA C. RIVERO</u> Community Development Assistant II</p></div><div><p>(SGD.) <u>IVY M. GATAN</u> Administrative Assistant I</p></div></div>		
<p>Certified Correct:</p> <div><p>(SGD.) <u>GERONIMO P. CABACCAN, JR.</u> Environment and Natural Resources Officer</p></div>
