		MONTH
	Accomplishment Report	2023
		YEAR

PROGRAM/PROJECT/ ACTIVITIES	BRIEF DESCRIPTION	ACCOMPLISHMENT																																																				
I. RICE DEVELOPMENT PROGRAM AND SERVICES																																																						
a. Seed Assistance Program																																																						
a.1 Seed Production	DA-PLGU Collaborative Project. Commitment of individual accredited seed growers to provide certified seeds for buffer seed and stocking	<p>As of July 2023, for Wet Season (DS) crop 2023 a total of 242 Local Seed Growers (SG) planted an area of 1578.36hectares for Registered to Certified Inbred seed production and 13 hectares for foundation to registered seeds with 6 seed growers. Varieties Planted in the Seed Production for Wet Season 2023 were as follows:</p> <table><tr><th>Province</th><th>Variety</th><th colspan="2">SEED CLASS PLANTED (ha)</th></tr><tr><td></td><td></td><td>F</td><td>R</td></tr><tr><td>Isabela</td><td>NSIC Rc 160</td><td></td><td>3</td></tr><tr><td></td><td>NSIC Rc 216</td><td>1</td><td>7.7</td></tr><tr><td></td><td>NSIC Rc 218</td><td></td><td>9.3</td></tr><tr><td></td><td>NSIC Rc 222</td><td>9</td><td>744.18</td></tr><tr><td></td><td>NSIC RC 436</td><td></td><td>233.5875</td></tr><tr><td></td><td>NSIC Rc 480</td><td></td><td>120.85</td></tr><tr><td></td><td>NSIC Rc 508</td><td></td><td>182.77</td></tr><tr><td></td><td>NSIC Rc 512</td><td>3</td><td>251.07</td></tr><tr><td></td><td>NSIC Rc 514</td><td></td><td>11.3</td></tr><tr><td></td><td>PSB Rc 18</td><td></td><td>14.6</td></tr><tr><td>Total-----</td><td></td><td>13</td><td>1578.358</td></tr></table>	Province	Variety	SEED CLASS PLANTED (ha)				F	R	Isabela	NSIC Rc 160		3		NSIC Rc 216	1	7.7		NSIC Rc 218		9.3		NSIC Rc 222	9	744.18		NSIC RC 436		233.5875		NSIC Rc 480		120.85		NSIC Rc 508		182.77		NSIC Rc 512	3	251.07		NSIC Rc 514		11.3		PSB Rc 18		14.6	Total-----		13	1578.358

b.Technology Demonstration	PLGU Funded. Initiated project of PLGU in collaboration with MLGU Support to Rice Production with goal of "Masaganang Ani Mataas na Kita"	<p>The team conducted regular monitoring of the established techno demo at the two FFS sites at Barangay Pabil, Ramon and Malalinta, San Manuel, Isabela. As of this moment, the crops are under maximum tillering to Panicle Initiation (PI) with good crop condition. The first to third application of fertilizers based on the results of soil analysis were done.</p> <div></div>																																																				

b.1. Technology Demonstration on Rice Production through Farm Mechanization

b.1.1. Season-Long Farmers' Field School

Establishment of Technology Demonstration showcasing Direct Seeded Rice with the use of drum seeder and also serve as the learning field.

PLGU Funded. Initiated project of PLGU in collaboration with MLGU combination of lectures and hands-on training for farmer-participants to enhance their capacity and farming practices

The OPA team formally started the Season Long-training/Farmers Field School (FFS) just after the launching program of the two sites at Barangay Pabil, Ramon and Malalinta, San Manuel, Isabela. The FFS was scheduled every wednesday in Pabil, Ramon and thursday in Malalinta, San Manuel. During the FFS session, the following activities/topics were done to wit: Overview of the PalayCheck System, Methods and Principles of Agro Ecosystem Analysis (AESA), Insect Pest and Disease Management and Conduct of the first and Second AESA Monitoring. The participants actively participated in the activities particularly on the field monitoring and discussion. Both sites had a total of 25 active participants.

Conduct of AESA (Field Monitoring, Processing and Presentation of Outputs) and Lectures

b.1.2 Provincial Rice Technology Forum (PRTF)

PLGU Funded. Initiated project of PLGU in collaboration with DA-RFO, MLGU and Private Seed Companies
A technology showcase in cluster farms of the different hybrid rice varieties and technologies

The OPA Rice team successfully conducted the launching program of the Provincial Rice Technology Forum (PRTF) Hybrid Rice Derby Technology Demonstration. This program was initiated by the Provincial Government of Isabela (PGI) through the Office of the Provincial Agriculturist in collaboration with DA, NIA, ATI, PCIC, NFA, PhilRice, PhilMech, LGU-Mallig, Seeds and Fertilizer Companies and other stakeholders. This project aims to showcase hybrid rice production to promote farmers' adoption of new technology and enhance the knowledge, attitude and skills (KAS) of rice farmers in producing high quality produce through capability building.

The launching program was attended and graced by the Municipal Mayor-Hon. Jose Philip F. Calderon, Provincial Agriculturist: Marites E. Frogoso, CVRC Manager: Engr. Rolando D. Pedro, DA-APCO Coordinator-Engr. William Contillio, Municipal Agriculturist-Mr. Edwin D. Domingo, PhilMech Representative-Engr. Jarrel S. Oting, PCIC representative-Mr. Joy lugo, Representative of different partner seed companies and other stakeholders.

		<p>A total of 150 participants attended in the said program and it was composed of individual farmers, officials and members of Farmers Cooperatives/Associations (FCAs) of the entire barangays of Mallig, Isabela. Prior to the program, the guests and participants visited the different hybrid rice varieties showcased in the 27-hectare techno demo field with 27 hybrid rice varieties.</p> <p>Just after the launching program the team facilitated the conduct of weekly technical briefing for the farmer cooperators in the PRTF Techno Demo. The following topics were discussed during the session, to wit: Nutrient Management, Insect pest and their management and Overview of the Rice Competitiveness and Enhancement Fund (RCEF). With regards to the status of the techno demo field, the crops are under maximum tillering to booting stage with good condition.</p>  <p>Actual conduct of the PRTF-Techno Demo Launching</p>
c. Good Agricultural Practices (GAP)	<p>PLGU Funded. Initiated project of PLGU in collaboration with MLGU Training on Good Agricultural Practices (GAP) on Rice</p>	<p>The OPA Rice Staff with the MLGU, assisted the group of DA Region 02 in the validation of the applicants for the GAP Certification. The group advised and guided each applicant for the improvement of their facilities in accordance with the guidelines /protocols in preparation for the national evaluation. A total of 11 rice farmers from Tumauini, Isabela were validated.</p>

II. INTERVENING
ACTIVITIES

a. Attendance and participation to Meetings/ Symposium

To keep abreast of the programs/projects

One rice staff attended in the two-week RCEP Refresher Course for rice specialist held at PhilRice Central Experiment Station (CES) at Maligaya, Science City of Muñoz, Nueva, Ecija.

The OPA Rice Team hosted and assisted in the Participatory mapping workshop conducted by the Philippine Rice Research Institute (PhilRice) regarding on “Climate-Smart Maps for Strengthening the Adaption Plans of Farming Communities” held at OPA Conference Room. A total of 23 participants from the six districts of Isabela composed of Municipal Agriculturists, AEWs and farmers attended in the said activities. Complex of activities such as Identification of flood prone areas, drought prone areas, cropping calendar, government and lending institutions situated per municipality and others were done during the workshop.

b. Program/Project Coordination and validation	<p>For smooth implementation of program/ project</p> <p>Supervised and assisted the municipalities in the distribution of fertilizers donated by the People's Republic of China. As of this month, out of the 67, 500 bags allocated for the province of Isabela, a total of 43,374 bags with 21,539 farmers beneficiaries were distributed.</p> <div></div> <div></div> <div></div> <p>Actual validation of the crops' damages reported.</p> <p>The OPA and CVRC group joint force in the conduct of actual validation of the crops' damages reported by the municipalities/cities due to typhoon Egay. The groups were divided into four in order to monitor all the municipalities/cities with submitted damages. Based on the assessment, corn crops recorded having the biggest damages among other crops. This was due to flood and strong wind particularly in the first district of Isabela wherein they experienced heavy rainfall and high intensity of wind. Details of the summary of results of Validation were shown in the table below</p> <table><tr><th rowspan="2">Crops/Commo- dity</th><th rowspan="2">No. of Farmer affected</th><th colspan="2">Area Affected (ha)</th><th rowspan="2">No. of Municip alities</th></tr><tr><th>Partially</th><th>Totally</th></tr><tr><td>Rice</td><td>3287</td><td>3939.84</td><td>136.48</td><td>19</td></tr><tr><td>Corn</td><td>8224</td><td>10624.75</td><td>1464</td><td>27</td></tr><tr><td>HVCC (Veg)</td><td>213</td><td>66.40</td><td>0.90</td><td>9</td></tr><tr><td>HVCC (Banana)</td><td>290</td><td>265.9</td><td></td><td>8</td></tr><tr><td>Fisheries</td><td>63</td><td>0.45</td><td></td><td>4</td></tr></table>	Crops/Commo- dity	No. of Farmer affected	Area Affected (ha)		No. of Municip alities	Partially	Totally	Rice	3287	3939.84	136.48	19	Corn	8224	10624.75	1464	27	HVCC (Veg)	213	66.40	0.90	9	HVCC (Banana)	290	265.9		8	Fisheries	63	0.45		4

<p>4. Sustainable Corn Production in Sloping Areas (SCOPSA) cum Farmers Field School (FFS) Season 1,Wet Cropping Season 2023</p>	<p>Technology Demonstration for the control of soil erosion in hilly/sloping areas cultivated to corn with the Seasonlong on-site Farmers’ Field School (FFS) involving 30 farmer participants.</p>	<p>Technology Demonstration on Sustainable Corn Production in Sloping Areas or SCoPSA cum Seasonlong on-site Farmers’ Field School (FFS) in Brgy. Dallao, Cordon is one among the 3 Demo sites project initiatives of the Provincial Government of Isabela through the Office of the Provincial Agriculturist – Corn Program. Said project has been launched on July 13, 2023 at Demo Site 1 Brgy. Dallao, Cordon, Isabela aimed to educate farmers to fully utilize their sloping land areas for corn production and to enhance their knowledge on best farming practices making hilly land slope cultivated to corn sustainably productive.</p>

	<p>The official opening was graced by the Acting Mayor Hon. Vice Mayor Abbie Sable, SB Committee on Agriculture, Hon. Efren Malupeng, MAFC Chairperson-Mr. Romeo Samiling, Host Brgy. Captain-Hon. Walter P. Cuenca and 2 other Brgy. Captains of Brgys Laurel & Talikik in the municipality.</p> <p>Said program also were attended by Mr. Dong Lucas and Roger Tolentino of Syngenta Phils, Ms. Mnidaflor Aquino, DA-RCPC Chief, City of Ilagan, DA-LGU staff of Cordon, OPA Corn Team headed by ADH Mr. Sergio T. Galamgam and 119 farmers coming from Brgys. Dallao, Laurel and Taliktik, Cordon, Isabela.</p> <p>The program was highlighted on the message of acting Mayor Sable who expressed her gratefulness that SCoPSA will be implemented in her municipality. She encouraged the corn farmers to not squander the opportunity of applying what they are going to learn about the project. Further she is hoping that the farmers will appreciate SCoPSA and see the difference compared the existing practice of planting in sloping areas.</p>  <p>SCoPSA cum FFS PROJECT PROFILE/STATUS</p> <table><tr><td>DISTRICT</td><td>: District IV</td></tr><tr><td>LOCATION</td><td>: Brgy. 6. **Corn Production Enhancement Project (CPEP) under Corn Program of the Department of Agriculture**

CPEP program shall cover yellow corn and starts on the first cropping of CY 2023 in priority corn production areas in Isabela province. It is a cluster organization (FCA) approach where cluster members are to be the beneficiaries of corn seeds and inorganic fertilizers.

Coordination meeting with Municipal Agriculturist Ms. Herminia Atal, Project Focal Ms. Maryjane Mirasol, Brgy. Captain and HIT Demo Cooperator Mr. Jhonny Vinarao regarding the project concept and its launching schedule in the barangay.

Distribution of CPEP farm inputs to farmer-recipient in various cities and municipalities of Isabela province were already done, although some copies of masterlist of beneficiaries for corn hybrid seeds, inorganic fertilizers and bio-N distributed by LGUs under the CPEP project are still at the MA offices in which corn monitors of DA-CVRC/RFO2 are retrieving those copies.

Received/collected hard copies of masterlist from MLGUs will be submitted to OPA Office for OPA signature.

<p>7. Attending the Capacity Enhancement and Organizational Immersion to Outstanding RBOs for New RBO Coordinators held in ATI-RTC2 San Mateo, Isabela on July 26-28, 2023</p>	<p>The activity aims to enhance the participants' awareness, appreciation and skills on RBO and management for them to be more effective and efficient in the delivery of extension services for the RBOs.</p>	<p>At least 35 4H Provincial and Municipal Coordinators attended the training from the different cities and municipalities regionwide. The activity composed of different topics discussed and visits Outstanding RBOs for the two provinces as follows;</p> <ul style="list-style-type: none">• Importance of Team Building• Work Effectiveness• The Rural Based Organization Overview and Development• Visited Outstanding RBOs of Nueva Viscaya• Visited Outstanding RBOs of Isabela <div></div>

C. Meetings/ Trainings, Workshops and other activities attended/ conducted		<div>- The HVCC team together with the staff of different respective C/MLGUs spearheaded area validation for the DILG's Halina't Magtanim ng Prutas at Gulay (HAPAG) sa Barangay project which is in support to the program aims to strengthen the capacities of the barangays toward sustainable agriculture initiatives by encouraging households and communities to produce fresh, healthy and affordable fruits and vegetables from their backyards and spaces through the establishment of community gardens in barangays' vacant areas. Validated/identified barangay will be awarded assorted vegetable seeds and seedlings.</div>																																																																																																																																						

San Pablo, Isabela

San Mariano, Isabela

Sta. Maria, Isabela

City of Ilagan, Isabela

Benito Soliven and Reina Mercedes, Isabela

Quezon and Mallig, Isabela

Roxas, Isabela

Alicia, Isabela

- OPA - HVCC staff together with the City/Municipal Agriculturists and staff of different C/MLGUs conducted the awarding of assorted vegetable seeds and seedlings to different barangays with their respective representatives. The HAPAG Project is a joint undertaking of the Provincial Government of Isabela and LGUs in support to the DILGs' aim to strengthen the capacities of barangays towards sustainable agriculture initiatives. Through intensification and fostering of agricultural activities such as barangay community gardening, wherein households and communities will be encouraged to produce

fresh, healthy and affordable fruits and vegetables from their backyards and spaces, through the establishment of community gardens in barangays with vacant areas.

City/ Municipality	Date of Awarding	Barangay beneficiaries	No. of seedlings (tray)	Seeds (kg)

PROGRAM/ PROJECT/ ACTIVITY	PROJECT DESCRIPTION	STATUS/REMARKS/ACCOMPLISHMENT
IV. FISHERIES DEVELOPMENT PROGRAM AND SERVICES A. Volume of Provincial Fish Production 1. Production Support Services 1.1. Fisheries production and dispersal at San Pablo Freshwater Fish Farm, San Pablo, Isabela	Consolidation of fish production report from various fishery resources (freshwater and marine) Operation and management of existing fishery facilities to support the province's requirements for fish stocks	<div> <div> Summary: Fishpond – 471.429 MT Fishcage – 12.767 MT CBWs – 160.015 MT SWIP – 30.325 MT </div> <div> Municipal – 160.02 MT Aquaculture – <u>514.52 MT</u> TOTAL – 674.54 MT </div> </div> <p>Maintenance of 3,000 pieces female breeders and 2,000 male breeders Conducted routinary farm activities such as;</p> <ul style="list-style-type: none"> - Collection and conditioning of tilapia fingerlings - Collection and conditioning of tilapia Breeders - Water refilling of ponds and concrete tanks - Stocking of breeders in hapa - Feeding of stocks - Draining of ponds for pond preparation Backyard Fishpond - Fingerling dispersed - 75,000 pcs. - Fisherfolk served - 3 - Area of FP - 0.7 ha. - Municipalities served - 3 (Tumauini, Cabagan, San Pablo, Isa.) <p>Communal Bodies of Water</p> <ul style="list-style-type: none"> - Fingerlings stocked - 40,000 - CBW's stocked - 2 - Municipalities served - 1 (San Pablo, Isa.) <div>     </div>
2. Pond Based Technology Demonstration Project cum Fisherfolk Field School	A season long activity showcasing semi-intensive polyculture technology demonstration project which aims to increase production and income of fisherfolk	<p>Conducted and facilitated in the weekly activities of the Season-Long Pond Based Semi-Intensive Polyculture Technology Demonstration Project cum Fisherfolk Field School (FFS) with the following activities:</p> <p>➤ July 07, 2023 - Lectures and discussions on the Grow-out Management of Tilapia from Pond Preparation to Harvesting. The activity was highlighted on the Feeding Management of fish stocks. Daily Feed Ration (DFR) was computed to determine the amount of feed to be fed for the fish as follows;</p> $DFR = ABW \times \text{Stocking Density} \times \text{Feeding Rate} \times \text{Survival Rate}$ $DFR = 0.333 \text{ grams} \times 1,750 \text{ pcs} \times 10\% \times 100\%$ $DFR = 58.275 \text{ grams feed ration}$ <p>Ration per feeding - 14.5 Feeding frequency - 4x a day</p> <p>Feeding guide was presented for the participants to learn the proper feeding to be employed in the operation of their project.</p> <div>   </div>

B. Support to other Agri-Fishery Programs and Projects

- 1. Attendance to Season Long Training on Red Tilapia Breeding and Hatchery Management

The training aims to educate Fisheries Technician in breeding and grow-out culture and management of Red Tilapia in freshwater ponds.

- July 14, 2023 - Continuation on the Feeding Management for the Pond Based Semi-Intensive Polyculture Technology Demonstration Project. Feeds constitute approximately 60-70% of the production cost and critical to aquaculture enterprise and must be properly manage to attain optimum growth, optimum yield, minimum waste, reasonable cost and maximum profit. Feed Conversion Ratio was taken up to demonstrate how much feed was consumed in a kilo of fish and feed efficiency in the production of fish stock.

- July 24, 2023 - Discussion on Organic Aquaculture which aims to encourage polyculture production system

- Conducted stock sampling to adjust daily feeding of the stocks. An average body of weight of 20g/pc of fish was obtain during the sampling.

Fisheries Technical Staff had attended the Season Long Activity to capacitate technical staff in various technologies in fishery.

2. Validation of fishpond project affected by drought/fish kill/ fish mortality	To determine extent of damage caused by natural calamities	<p>No. of fisherfolk visited - 8 Municipalities covered - 2</p> <p>Based on the evaluation and validation conducted, the fish kill and fish mortality caused by sudden change in temperature due to overturn/upwelling in which colder water fell on the surface of the pond in a hot weather brought by heavy rainfall.</p> <div></div>

A total of more or less 200 delegates participated in the 4H Regional Youth Summit. It was composed of 4H members, 4H City/ Municipal Coordinators, Provincial 4H Coordinators, ATI Staff and Volunteer Leaders Association of the Philippines (VLAP) officers who came from the four provinces of Region 02 namely: Cagayan, Nueva Vizcaya, Quirino and Isabela, respectively.</p> <p>On the second day, tree planting activity in Brgy. Baligatan, General Aguinaldo, Ramon, Isabela.</p> <p>One interesting part of the activity was the candle lighting ceremony which symbolizes hope for a better future of children and our children's. That the candle stands for gratitude to all who are supporting the 4H- Clubs and also those who are responsible in making the 4H club vibrant. The Provincial Agriculturist of Isabela Dr. Marites E. Frogoso was the guest of honor during the ceremony.</p> <p>Team Building was undertaken in the morning with the objective of the activity to foster camaraderie, teamwork, and leadership skills among the participants.</p> <p>The Highlights of the summit was a simultaneous challenging competition with different categories wherein the contestant will compete for their province. The winner from each category in the major contest will represent the region in the National level and hereunder were the result of the contested activities.</p>
