

PAIWI NI BRO –
CHICKS DISPERSAL FOR BRO-LUSOG

Paiwi ni Bro is a livelihood program for small farmers through the dispersal of chicks, piglets or goat which will serve as initial stocks to start an Animal Production Project.

Among the recipients of the Chicks Dispersal Program or Paiwi ng Manok are the families of small farmers with malnourished children enrolled under the BRO-LUSOG. The chicks given them will be grown to provide income for the family and nutrition to their children in order to improve their health condition.
