**RE** : IRR for Ordinance No. 005, s. 2014  
**CC** : PLO/File

Few years after the enactment of Provincial Ordinance No. 005 series of 2014, we have not yet perfected the implementation of the same in regulating the extraction, disposition, utilization and processing of quarry resources within the jurisdiction of the province more particularly the imposition of taxes and fees thereof. The varying processes and unwritten systems we have adopted to implement said ordinance sometimes results to confusion among implementing departments as well as overlapping of jurisdiction with some component LGUs. Invariably, this results to us not hitting our target collection for quarry.

In this regard, may I request that your department spearhead the drafting of Implementing Rules and Regulations for Ordinance No. 005 specifying and detailing inter-alia the processes involved for the application of a permit, system of collection, the limitations to component LGUs action/s in this regard, and other implementing guidelines for the appropriate implementation of the provisions of said Ordinance. The PLO is directed to assist in the drafting of said IRR.

For your immediate compliance.
