

Republic of the Philippines  
**PROVINCE OF ISABELA**  
City of Ilagan

*Office of the Governor*

**MEMORANDUM NO. 38**  
**Series of 2020**

DATE : March 7, 2020  
TO : All COHs/IPHO

FROM :  **Hon. RODOLFO T. ALBANO III**  
RE : As Stated  
cc : RD DOH/PDs of DILG and PNP/File

-----  
In view of declaration made by the DOH that there is now a possibility of local transmission of COVID-19, effective immediately, you are to designate in your respective hospitals an area/room/s which shall serve as quarantine area for suspected COVID-19 patients and/or those categorized as PUI.

The IPHO is directed to commence with the strict implementation of the approved COVID 19 Plan of Action including the distribution of personal protective equipment (PPE) and other medical gears to the District and Community hospital owned and operated by the province and to coordinate with the DOH RO2 for updates and other actions to be taken.

Dra. Guillermo and Dra. Manlongat are hereto designated to act as in charge of the Evacuation Center Infirmary which is now temporarily converted as Quarantine Center for the province in case of increase in number of affected Isabeleño. Authority is given to prepare the center, designate personnel, (at least 4 nurses from GFNDMH and 2 from IPHO in the meantime), to man the center, request for the medical needs for its operation and ensure that its becomes the Command Center for COVID-19 operations.

The PDRRMO is directed to lend one ambulance to the center to be used solely to ferry and transport PUIs. The PNP is requested to assist in this endeavour.

For strict compliance.
