

Republic of the Philippines
PROVINCE OF ISABELA

INTEGRATED PROVINCIAL HEALTH OFFICE – FIELD HEALTH SERVICES

**VITAL HEALTH INDICES
FY 2024 (3rd Quarter)**

(A) Ten (10) Leading Causes of Mortality - All Ages/100,000 Population

Causes	Male	Female	Total	Rate
Cardiovascular Diseases	633	466	1,099	69.84
Cancer (All Kinds)	355	275	630	40.03
Hypertension	291	210	501	31.84
Pneumonia	204	197	401	25.48
Accident (All Kinds)	274	66	340	21.61
Respiratory Failure	148	115	263	16.71
Cerebrovascular Accident	139	108	247	15.70
Chronic Obstructive Pulmonary Diseases	133	57	190	12.07
Diabetes Mellitus	67	93	160	10.17
Kidney Diseases	68	82	150	9.53

Table 1 shows the ten (10) leading causes of death, with cardiovascular diseases topping the list province-wide.

(B) Ten (10) Leading Causes of Morbidity - All Ages/100,000 Population

Causes	Male	Female	Total	Rate
Acute (Upper and Lower) Respiratory Infection	37, 833	45, 044	82, 877	5, 266.53
Hypertension	8, 245	11, 015	19, 260	1, 223.90
Influenza	6, 608	7, 304	13, 642	866.90
Animal Bites	6, 190	6, 914	13, 104	832.71
Urinary Tract Infection	4, 073	8, 152	12, 225	776.85
Skin Diseases	4, 887	5, 442	10, 329	656.37
Wounds/Injuries/Accidents	6, 016	3, 646	9, 662	613.98
Pneumonia	4, 293	4, 714	9, 007	572.36
Diabetes Mellitus	2, 304	3, 399	5, 703	362.4
Vertigo	1, 886	3, 357	5, 243	333.17

Table 2 shows the ten (10) leading causes of illness recorded where acute respiratory infections remain at the top among other diseases province-wide.

(C) Ten (10) Leading Causes of Infant Mortality/1,000 Livebirths

Causes	Male	Female	Total	Rate
Septicemia	6	9	15	1.60
Heart Diseases	4	4	8	0.86
Pneumonia	4	2	6	0.64
Prematurity	3	1	4	0.43
Hydrocephalus	0	3	3	0.32
Respiratory Failure	0	2	2	0.21
Respiratory Distress Syndrome	1	1	2	0.21
Dehydration	1	1	2	0.21
Congenital Anomaly	2	0	2	0.21
Aspiration	2	0	2	0.21

(D) Ten (10) Leading Causes of Infant Morbidity/1,000 Livebirths

Causes	Male	Female	Total	Rate
Acute (Upper and Lower) Respiratory Infection	3, 804	3, 728	7, 532	805.65
Pneumonia	421	405	826	88.35
Skin Diseases	380	345	725	77.55
Influenza	261	275	536	57.33
Acute Gastroenteritis (AGE)	234	207	441	47.17
Allergies	128	145	273	29.20
Diarrheal Diseases	109	88	197	21.07
Bronchitis	108	86	194	20.75
Urinary Tract Infection	41	56	97	10.38
Wounds/Injuries/Accidents	36	35	71	7.59

(E) Percentage of Cases among Under-Five Children

Cases Under-Five Children	2021	2022	2023	2024 (Partial)
Acute Respiratory Infection	32.5%	31.31%	34.26%	29.40%
Pneumonia	30.2%	36.93%	36.69%	29.97%
Bronchitis	16.36%	25.77%	18.26%	16.59%
Acute Gastroenteritis	32.43%	56.74%	30.13%	33.67%

**ANNUAL ACCOMPLISHMENT REPORT
FY 2024**

PROJECTS, PLANS AND ACTIVITIES (PPAs)	DESCRIPTION AND OBJECTIVE/S OF THE PPAs	IMPACT OF THE ACTIVITY/IES
HEALTH SERVICE DELIVERY		
<p><u>COVID – 19 Prevention, Detection, Isolation, Treatment, and Reintegration (PDITR)</u></p> <p>One Isabela COVID-19 Command Center (OICCC)</p>	<p>The One Isabela COVID-19 Command Center aims to harmonize the admission and management of COVID-19 patients at the appropriate level of health facilities. In addition, ensuring the prioritization of decking and admission among COVID-19 confirmed, suspect, and probable cases. Also, to provide a proper and prompt referral to the Provincial Department of Health Office (PDOHO) for severe and critical cases requires admission to identified COVID-19 referral hospitals, namely SIMC and CVMC.</p>	<p>Total number of calls/referrals received by the OICCC from January 1, 2024 to December 31, 2024 : <u>1</u></p> <p>Successful (<i>Patient Admitted</i>) – 1</p> <p>Ongoing (<i>Patient referred with decking number</i>) – 0</p> <p>Cancelled (<i>Patient recovered, expired, or opted to stay in the TTMFs</i>) – 0</p> <p><u>No. of patients referred per COVID Classification: 1</u></p> <p>Suspect – 1 Probable – 0 Confirmed – 0</p> <p><u>No. of patients referred per COVID Category: 1</u></p> <p>Asymptomatic – 0 Mild – 1 Moderate – 0 Severe – 0 Critical – 0</p>

FAMILY HEALTH CLUSTER

<p><u>Family Planning Program</u></p> <p>Conducted the Family Planning Month Caravan</p>	<p>The objective of the activity is to provide universal access to FP information and services whenever and wherever they are needed and to link FP information-giving to service provision like counselling, provision of chosen FP commodities, and referrals for long-acting permanent methods (LAPM) and long-acting reversible contraceptives. This is in line with the observation of Family Planning Month Celebration 2024.</p>	<p>Provincial Coordinators of the Family Planning Program, Adolescent Health and Development Program, Mental Health Program, Oral Health Program, and Health Education and Promotion Unit, emerged for the conduct of this advocacy drive to empower people with the knowledge and resources to make informed decisions on family planning, thereby resulting in healthier families.</p> <p>To integrate Oral Health services, our Provincial Dentists demonstrated the proper tooth brushing techniques, provided dental check-up and fluoride application, and distributed dental health kits to our participants.</p>
<p>Orientation on Family Planning and Abortion among Congregation of the Immaculate Heart of Mary (CICM Missionaries)</p>	<p>This is intended to educate the Congregation of the Immaculate Heart of Mary- a Catholic clerical religious congregation of Pontifical Right for men.</p>	<p>After discussion, an open forum took place, in which all the participants actively participated. The participants raised the following concerns: unsafe abortion and its legal implications and the mechanism of actions of the different methods of family planning, which the program coordinator safely answered.</p>
<p>Conduct of 2 Batches Series of Training on Family Planning Competency-Based Training Level 1 (Face-to-face sessions).</p>	<p>As a result of the DOH-CVCHD conduct of Training of Trainers for all provinces to ensure that the training teams can immediately apply their knowledge and skills gained from the TOT, the certified trainers were required to conduct roll-out training in the province to comply with the needed number for</p>	<p>The Provincial Health Office conducted two batches of 2-day in-person training, and 39 Health Service Providers completed the training on FPCBT BLP. The participants came from the Cities/municipalities of San Mariano, San Pablo, City of Ilagan, San Manuel, Cauayan City, Luna, Naguilian, and Sta. Maria. San Isidro, Angadanan, City of Ilagan,</p>

	accreditation as a training provider	Quirino, Burgos, Aurora, Mallig and San Manuel held last November 18-19 and December 11-12, 2024.

Number of Family Planning Acceptors during the conduct of Family Planning Month Celebration 2024

Date Conducted	City/Municipality	Number of Women of Reproductive Age (WRA)	No. of PSI Insertion
August 2, 2024	City of Ilagan	150	35
August 9, 2024	San Mariano	62	27
August 12, 2024	Delfin Albano	63	25
August 13, 2024	Luna	150	110
August 14, 2024	Benito Soliven	62	10
August 15, 2024	Angadanan	62	30
August 19, 2024	Burgos	62	15
August 22, 2024	Roxas	63	25
August 23, 2024	Quezon	150	110
August 27, 2024	San Agustin	100	15
August 28, 2024	Mallig	62	12
August 29, 2024	Reina Mercedes	62	7
August 30, 2024	Aurora	62	10
Totals		1,110	431

Current Users of Family Planning Methods 2023 vs 2024

FAMILY PLANNING METHODS	2023	2024 (3 rd Quarter)
Oral Contraceptive Pills (OCP)	85,027	87,243
Depo-Medroxyprogesterone (DMPA)	22,401	22,639
Bilateral Tubal Ligation (BTL)	18,365	18,583
Lactation Amenorrhea Method (LAM)	6,690	6,025
Implant	7,321	7,848
Intrauterine Device (IUD)	4,324	4,392
Condom	1,712	1,703
Basal Body Temperature (BBT)	50	14

Standard Days Method (SDM)	215	237
Non- Scalpel Vasectomy (NSV)	17	10
Cervical Mucus Method (CMM)	6	4
Sympto-thermal Method (STM)	3	0

The table above reveals that Oral Contraceptive Pills are consistently the most commonly used Modern Family Planning Method

Family Planning Month Celebration 2024

Family Planning Month 2024 Launching and provision of Family Planning and other essential services catered by the IPHO and LGU counterparts.

Family Planning Competency-based Training Blended Learning

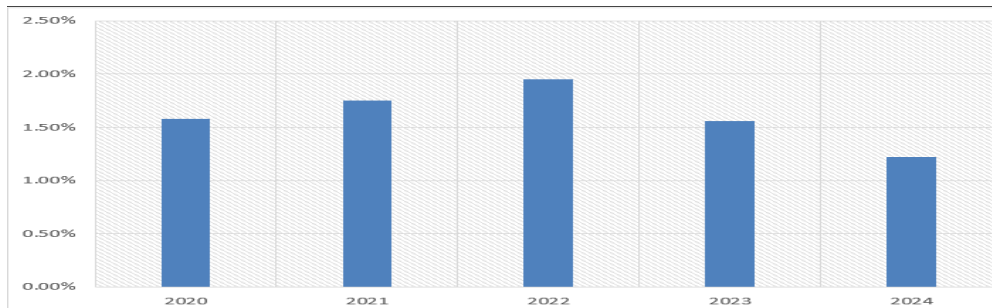

The Provincial Family Planning Training Team from the IPHO and PDOHO Isabela composed of Medical Doctors, DMO, Nurses, and Midwife who conducts the FP-CBT Provincial Roll-outs.

<p><u>Adolescent Health and Development Program</u></p> <p>Conducted the Teen Talk 2024</p>	<p>This activity aims to promote the active engagement of adolescents as community advocates related to reproductive health leading to positive and healthier decisions, choices, and outcomes.</p> <p>Teen Talk is a form of advocacy using an approach, Focus Group Discussion (FGD) which is a method for collecting qualitative data that involves gathering adolescent groups in particular to discuss a specific topic.</p>	<p>Implemented by the Integrated Provincial Health Office through the Adolescent Health and Development Program as well as the Population and Development Program in Partnership with Cagayan Valley Center for Health Development (CVCHD) and in collaboration with six (6) municipalities with high incidence of teenage pregnancy and organized out of school youth.</p> <ul style="list-style-type: none"> • Echague – 30 participants (18 males, 12 females) • Ramon – 25 participants (10 males, 15 females) • Roxas - 30 participants (18 males, 12 females) • Sta. Maria – 24 participants (3 males, 21 females)
---	---	--

5-year Comparative Data on the Incidence Rate of Teenage Pregnancy

	2020	2021	2022	2023	2024
Teenage Pregnancy Rate (the number of pregnancies per 1,000 females between the ages of 10-19 years old)	1.58%	1.75%	1.95%	1.56%	1.22% (as of 3 rd Quarter)

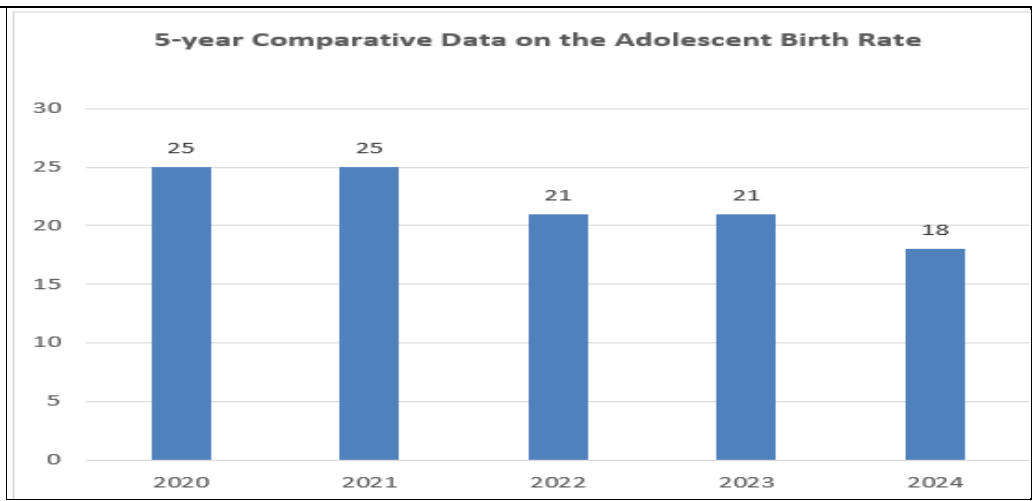

The figure above shows a decrease in teenage pregnancy trends for the year 2024.

5-year Comparative Data on the Adolescent Birth Rate

	2020	2021	2022	2023	2024
Adolescent Birth Rate (the annual number of births occurring to females aged 15-19 years old per 1,000 females within that age group)	25/1000 *LB	25/1000 *LB	21/1000 *LB	21/1000 *LB	18/1000 *LB
	*LB – Live Birth				

The figure above shows a decrease in adolescent birth rate trends for 2024.

The decline in teenage pregnancies is a testament to the power of education, healthcare access, and social change. As societies continue to prioritize the well-being and future of young women, this trend is expected to continue, paving the way for a generation that is healthier, more empowered, and better equipped to achieve their full potential. Changing societal norms have also played a pivotal role in shaping this trend. In many cultures, there has been a shift in attitudes toward early parenthood, with greater emphasis on career aspirations, personal growth, and financial stability before starting a family. The rise of social media and digital platforms has further exposed young people to stories and narratives that highlight the challenges of teenage pregnancy, discouraging early motherhood.

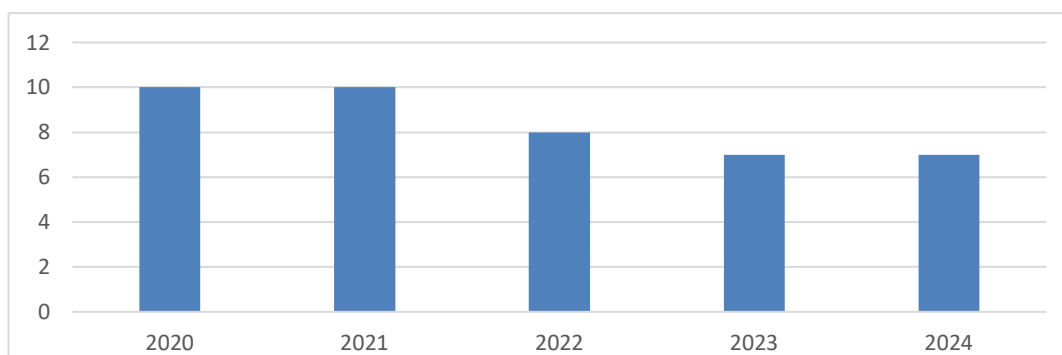

Teen Talk 2024

<p><u>National Safe Motherhood and Newborn Screening Program</u></p> <p>Attended the Maternal Death and Surveillance Response in 4 Health Facilities</p> <p>Attended the Commendation Ceremonies on Newborn Screening Program</p>	<p>An in-depth systematic review of maternal deaths to delineate their underlying health, social, and other contributory factors, and the lessons learned from such an audit are used in making recommendations to prevent similar future deaths.</p> <p>Organized by the Cagayan Valley Center for Health Development (CVCHD), the event brought together healthcare providers and stakeholders from across the region to celebrate their collective efforts in promoting early diagnosis and treatment of newborn disorders.</p>	<p>The MDSR Team of this office attended five (5) MDSRs conducted in the municipalities of Aurora RHU, Angadanan RHU, Echague RHU, and the City Health Office 1 of the City of Ilagan.</p> <p>The Integrated Provincial Health Office was recognized as the Most Innovative and Best Implementer Newborn Screening Program Partner by the CVCHD. The recognition was given last October 2, 2024 at Santiago City.</p>
---	--	---

Number of Maternal Mortality (CY 2020-2024)

Maternal Death	2020	2021	2022	2023	2024
	10	10	8	7	7 (4 indirect, 3 direct)
					*direct- pregnancy-related cause of death
					*indirect – other co-morbidity as cause of death

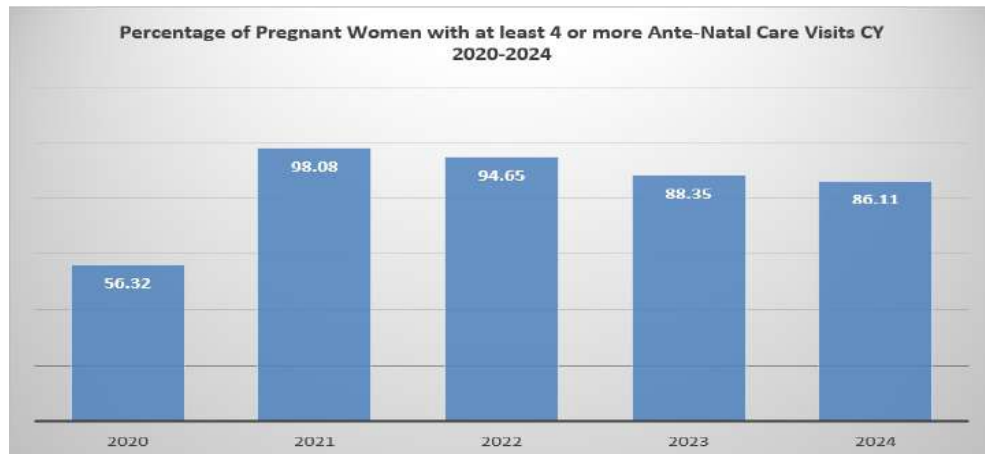

Maternal mortality has been a pressing issue, particularly in low and middle-income families. However, pregnancy carries inherent risks that can sometimes lead to maternal mortality. These risks arise from both direct and indirect causes, with varying impacts depending on healthcare access, socio-economic conditions, and medical intervention availability. Direct maternal deaths result from complications of pregnancy, labor, or postpartum conditions. These are typically preventable with

timely medical intervention. Indirect causes are deaths resulting from pre-existing conditions worsened by pregnancy or newly developed conditions that complicate gestation.

Percentage of Pregnant Women with at least 4 or more Ante-Natal Care Visits CY 2020-2024

Indicator	2020	2021	2022	2023	2024
Pregnant Women with at least 4 or more antenatal visits	56.32%	98.08%	94.65%	88.35%	86.11%

Maternal Death Surveillance and Response and Bantay Buntis sa Bawat Barangay

An interactive discussion during the Maternal Death Surveillance and Response at RHU Aurora, RHU Echague, CHO City of Ilagan I, and RHU Alicia

Series of lectures and demonstrations on Maternal and Newborn care, breastfeeding and complimentary feeding, and routine immunization during the Bantay Buntis sa Bawat Barangay activity.

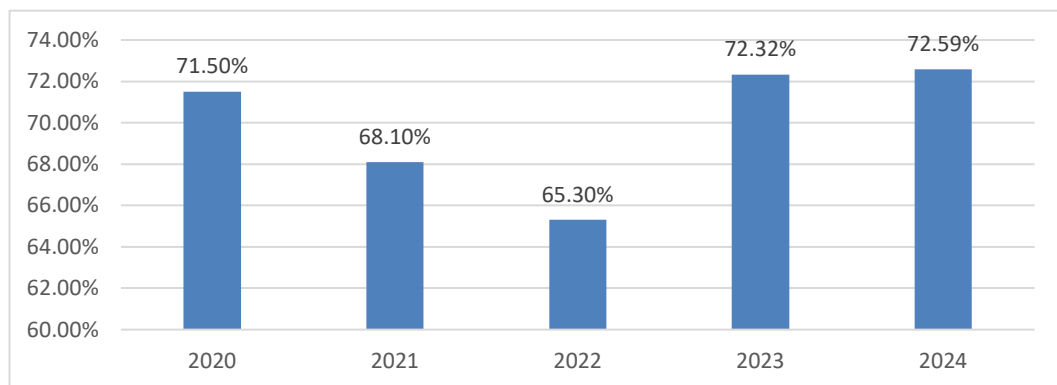

<p><u>National Immunization Program</u></p>		
<p>Conducted Basic Immunization, Cold Chain, Logistics, and Vaccine Management with Interpersonal Communications on Immunization and Reaching Every Purok Strategy Training</p>	<p>The training aims to enhance the knowledge and skills of health service providers using the updated NIP manual as a reference, thereby safeguarding the delivery of quality immunization services by addressing the challenge of ensuring that health workers remain equipped with the knowledge and standard procedures of the National Immunization Program.</p>	<p>IPHO Training Team and in partnership with CVCHD, through the support of partner stakeholders, Relief International was able to train 172 healthcare workers, including 40 Medical Doctors (Municipal/City Health Officers, Doctors-to-the-Barrios, and Rural Health Physicians), 7 DMOs, 20 Public Health Nurses, 101 Midwives, and 4 HEPOs hailing from the various Health Care Facilities of the province.</p>
<p>Conducted the Mid-level Management on Immunization Training of Trainers and Provincial Roll-out for National</p>	<p>The training aims to strengthen the managerial and supervisory capacity of our program managers as vital instruments in improving</p>	<p>The Training of Trainers for NIP Managers across the country was conducted by the DOH in partnership with UNICEF and WHO last March 4-8, 2024.</p>

<p>Immunization Coordinators</p>	<p>Program</p> <p>immunization coverage in line with the NIP Acceleration Plan CY 2024-2025 and Immunization Agenda 2023.</p>	<p>The provincial roll-out was conducted by the IPHO's National Immunization Program Coordinators and supported by the CVCHD and Relief International last November 18-22, 2024 at Tuguegarao City, Cagayan. Nineteen (19) health workers designated as NIP Coordinators completed the training that focuses on strengthening program management, data-driven decision-making, and strategic planning.</p>
<p>Conducted the Bakuna Eskwela Kick Off Activity</p>	<p>To commence the month-long school-based immunization of Grades 1 and 7 pupils and Grade 4 female pupils of all public schools</p>	<p>The program was held at the South Eastern Region High School amphitheater and was participated by Grade 1 and 4 pupils from Sinaoangan Sur Elementary School and Grade 7 students from South Eastern Region High School, teachers, parents, BHWs and BNS of the said barangay. The program as hosted by SSES which is also an identified by Dep Ed as a last-mile school to be a recipient of support for Healthy Learning Institution (HLI).</p>

5-Year Trend of Fully-Immunized Children in the Province

Indicator	2020	2021	2022	2023	2024
Fully Immunized Children (<i>Fully Immunized Children are those administered with 1 dose of BCG, 3 doses of PENTA, 3 doses of OPV, and 2 doses MCV at 12 months</i>)	71.5%	68.1%	65.3%	72.32%	72.59%

The figure shows an upward trend of fully-immunized children since 2022.

One of the key drivers of improved immunization coverage has been the continuous training of healthcare workers. Recognizing the critical role they play in delivering immunization services, multiple capacity-building programs have been implemented to enhance their knowledge, skills, and confidence. These trainings have focused on improving vaccine administration techniques, strengthening data management, addressing vaccine hesitancy, and ensuring adherence to cold chain protocols. Beyond healthcare worker training, the involvement of various partner stakeholders has played a crucial role in improving FIC coverage. Government agencies, non-government organizations, international health bodies, and local community leaders have all joined hands to support immunization programs through funding, logistics, advocacy, and outreach efforts.

<p><u>Oral Health Program</u></p> <p>Integration of Oral Health Services with other health programs and activities</p> <p>Provided Dental Services to the Agta Community</p>	<p>The integration of oral health with general healthcare services is a patient-centered approach that recognizes the strong connection between oral health and overall well-being.</p> <p>The Philippine Dental Association—Isabela-Quirino Dental Chapter—leads this effort to provide and ensure good oral health among the members of the Agta community in the City of Ilagan.</p>	<p>Provided oral health services and dental kits during the following activities:</p> <ul style="list-style-type: none"> • Family Planning Month – 431 clients served • National Children’s Month - 150 dental kits distributed to the 150 daycare pupils of Quezon, San Isidro, and Luna <p>Provincial Dentists from this office, PGI hospitals, and RHUs provided dental services to fifty-seven (57) individuals of the Agta community on October 17, 2024. In addition to the information and education session, dental kits and fluoride applications were also rendered.</p>
---	---	--

Proportion of Orally Fit Children (12-59 months old) and Basic Oral Health Care (BOHC) given to Infants 0-11 months old, Children (1-4 years old, 5-9 years old), Adolescents and Youth (10-14 y/o, 15-19 years old), pregnant women, Adult (20-59 years old) and older person 60 y/o and above.
CY 2024

Indicators	Eligible Population	Male	Female	Total	Coverage
Orally fit children 12-59 months old upon oral examination plus orally fit after rehabilitation	23, 232	3, 882	3, 856	7, 239	28.94
Infants 0-11 months old who received Basic Oral Health Care (BOHC)	8, 142	3, 853	3, 853	7, 706	93.44
Children 1-4 years old (12-59 mos) who received BOHC	34, 851	7, 875	8, 794	16, 669	45.47
Children 5-9 years old who received BOHC	45, 824	4, 629	5, 238	9, 867	21.53
Adolescents 10-14 years old who received BOHC	46, 993	3, 046	3, 535	6, 581	14.00
Adolescents 15-19 years old who received BOHC	44, 205	1, 767	2, 046	3, 813	8.62
Adults 20-59 years old who received BOHC	246, 802	6, 279	11, 812	18, 092	7.33
Older Person 60y/o and above provided with BOHC	43, 822	6, 096	7, 744	13, 840	31.58

Indicator	Eligible Population	10-14 y/o	15-19 y/o	20-49 y/o	Total	Coverage
Pregnant Women provided with BOHC	27, 134	145	1, 251	6, 262	7, 658	28.22

The integration of dental services into broader health programs has been an increasingly recognized strategy to improve access to care, address disparities, and promote comprehensive health as shown in the table above. Historically, oral health has been viewed as a separate entity from overall health, with dental services often being hoarded. However, mounting evidence vividly shows the connection of oral health and general well-being. Conditions under infectious diseases, non-communicable diseases, ageing, and pregnancy complications have been linked to poor oral health, leading to a growing emphasis on integrating dental services into other health programs.

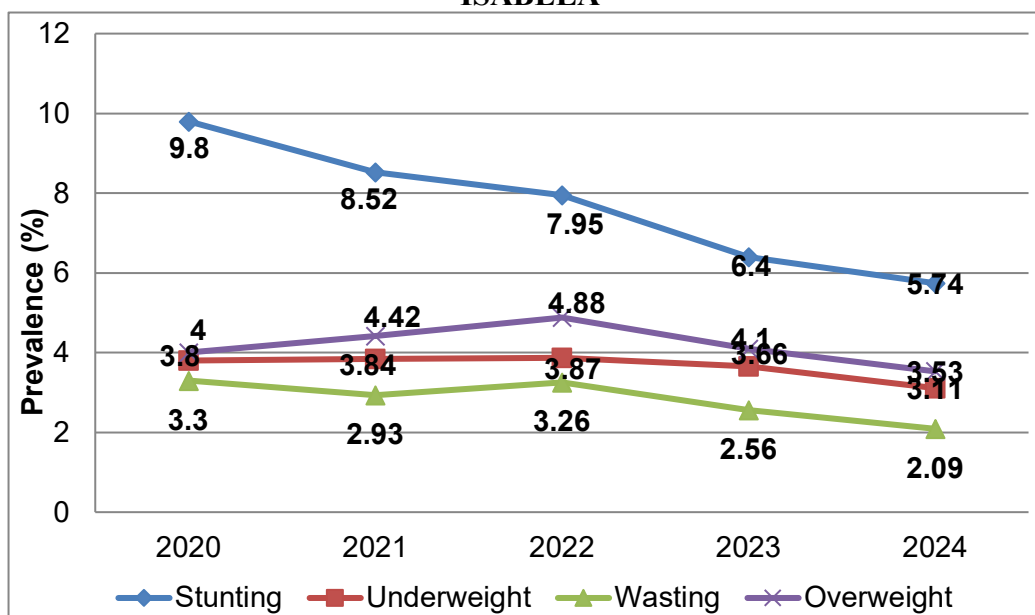

Provision of oral health services during the celebration of Family Planning Month and National Children's Month 2024

<p><u>Nutrition Program</u></p>		
<p>Attendance to the Mother-and-Baby Friendly Orientation</p>	<p>The MBFHFI is a global program that aims to facilitate and protect breastfeeding in private and public hospitals and help mothers and their newborns start with breastfeeding soon after birth, while the MBFW is an evidence-based initiative developed by the World Health Organization to protect and support maternal knowledge, beliefs, and confidence in infant and young child feeding practices in workplaces. The discussion was based on the DOH Department Memorandum 2022-0111 and the facility practices in implementing the Ten Steps to Successful Breastfeeding.</p>	<p>To further safeguard the breastfeeding practices in the province, the IPHO-FHS included the orientation on the guidelines of accreditation for the Mother-and-Baby Friendly Health Facility Initiative (MBFHFI, for primary care facilities) and certification for the Mother-and-Baby Friendly Workplace (MBFW, for workplaces) as one of the agenda during the Joint Provincial Meeting of the Provincial Nutrition Committee and City/Municipal Nutrition Focal Points last December 4, 2024.</p>
<p>Assisted during the BNS Basic Course Trainings</p>	<p>To capacitate and enhance the Barangay Nutrition Scholars in effectively delivering nutrition services and other related activities on community health.</p>	<p>Through collaboration with partner C/MHOs, the training team was able to assist in producing the following number of competent Barangay Nutrition Scholars:</p> <p>In total, there were 202 BNS trained in the past year from the following municipalities: Jones (41/42), Quezon (17/17), Cabatuan (30/30), Luna (18/19), Echague (62/64), San Mariano (34/37). Aside from the lectures on their role in barangay nutrition program management, they were also provided with actual demonstration on proper height and weight taking, use of the mid-upper arm circumference tapes, sample preparation of spot map, and barangay nutrition action plans.</p>

NUTRITIONAL STATUS OF UNDER-FIVE CHILDREN IN THE PROVINCE OF ISABELA

Trend of the different nutritional status indicators of under-five children in Isabela pre-pandemic from 2020-2024 based on the Operation Timbang (OPT) Plus

Indicator	Cut-off values for public health significance (WHO, 2008)		Prevalence in the Province (eOPT Plus 2024)	Assessment of levels of stunting, wasting and overweight in the province
	Cut-off value	Public health significance		
Stunting (height-for-age) <i>St + SSt</i>	<2.5% 2.5% to < 10% 10% to < 20% 20% to <30% ≥30%	Very Low Low Medium High Very High	5.74%	low
Wasting (weight-for-height) <i>W + SW</i>	<2.5% 2.5% to < 5% 5% to < 10% 10% to <15% ≥15%	Very Low Low Medium High Very High	2.09%	Very low
Overweight (weight-for-height) <i>OW + Ob</i>	<2.5% 2.5% to < 5% 5% to < 10% 10% to <15% ≥15%	Very Low Low Medium High Very High	3.53%	low

Assessment of levels of stunting, wasting, and overweight in Isabela based on the WHO cut-off values for public health significance

In the province of Isabela, the significance of stunting, wasting, and overweight among children presents a mixed scenario. Stunting, which is the result of chronic malnutrition affecting a child's growth, has a low significance in the region. On the other hand, wasting, shows very low significance in Isabela. When it comes to overweight, the situation in Isabela shows a low

significance as well. The rural and agricultural nature of the province might play a role in this, as traditional diets, which are more reliant on fresh, locally sourced foods, still dominate the province. Overall, while stunting, wasting, and overweight each have varying degrees of significance in Isabela, the province seems to be doing relatively well in terms of managing these nutrition-related issues. However, continuous monitoring and localized interventions are essential to ensure that these issues do not worsen, especially as urbanization and dietary habits evolve in the coming years.

Non-Communicable Disease Cluster

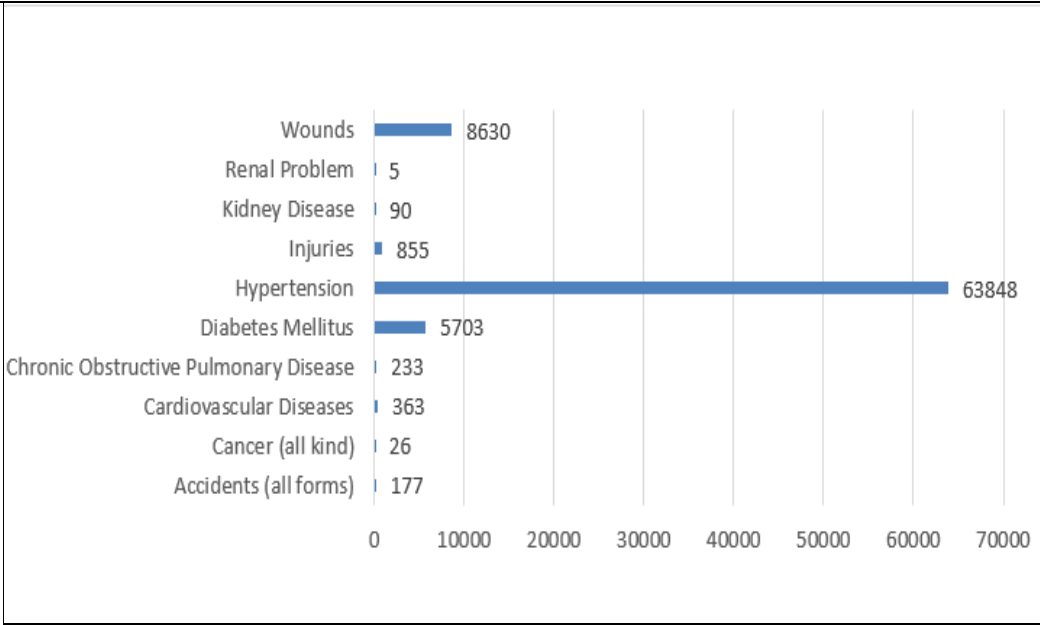

<p><u>Life-Style Related Diseases</u></p> <p>Conducted the Training on the Philippine Package of Essential Non-Communicable Disease (PhilPEN) Interventions Protocol</p>	<p>The objectives of this training are:</p> <ul style="list-style-type: none"> to guide health workers and providers at primary health care facilities in implementing the PhilPEN to the identified population groups and client needs; To learn the process of Risk Factor Assessment as a method of evaluating individuals for the presence or absence of common risk factors that expose them to increased likelihood of developing NCDs 	<p>The 2-day training was facilitated by Resource Speakers from the Provincial DOH and IPHO, and it included a refresher on the procedures of the World Health Organization (WHO) PhilPen Strategy, with a focus on Risk Assessment, Risk Factor Identification, and Risk Management from the perspective of the patient.</p> <p>Attended by the Non-communicable Disease Program Coordinators from the different Primary Care Facilities of the province last November 7-8, 2024.</p>
--	--	--

**Ten (10) Leading Non-Communicable Diseases
CY 2024**

Morbidity	No. of Cases
1. Hypertension	63,848
2. Wounds	8630
3. Diabetes Mellitus	5703
4. Injuries	855
5. Cardiovascular Disease	363
6. Chronic Obstructive Pulmonary Disease	233
7. Accidents (All forms)	177
8. Kidney Diseases	90
9. Cancer (All Kinds)	26
10. Renal Problem	5

The table shows the ten (10) leading non-communicable diseases where Hypertension is the top NCD for the CY 2024.

Over the years, non-communicable diseases have emerged as the leading cause of mortality worldwide, overshadowing other NCCDs. These chronic conditions, often influenced by lifestyle choices, genetics, and environmental factors, continue to burden healthcare systems. Among them, **hypertension** has persistently topped the list as a silent killer, silently escalating risks of other severe illnesses.

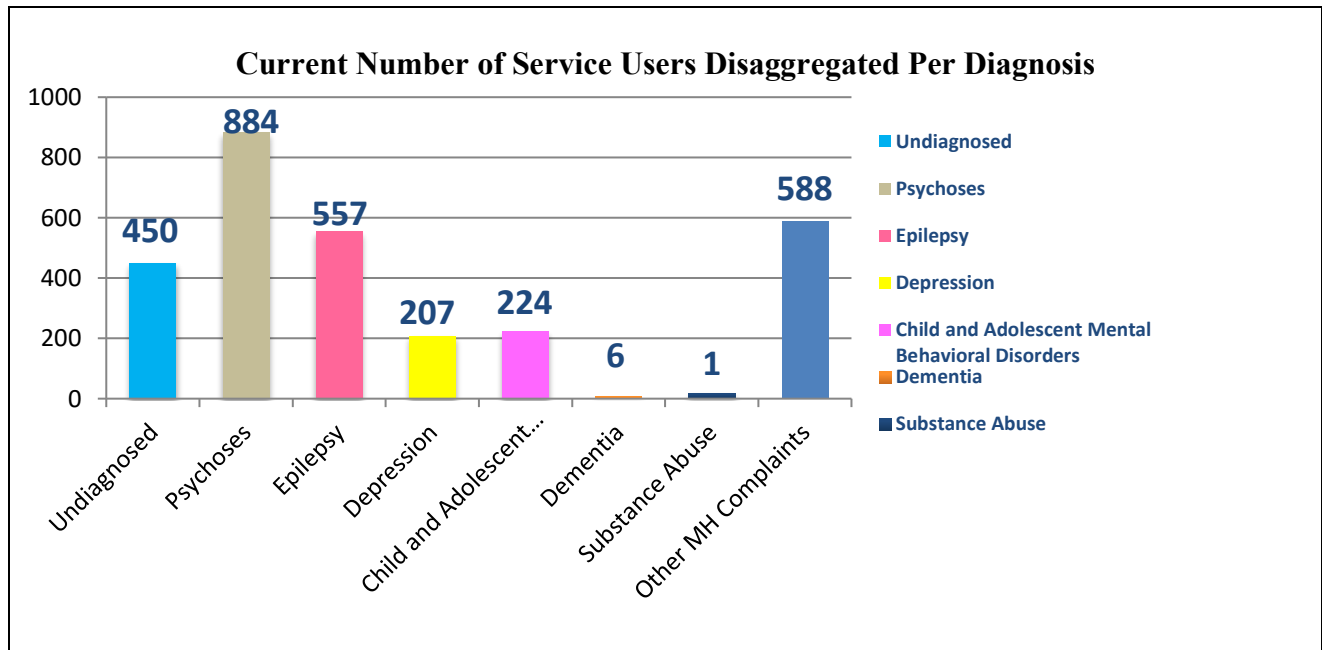

Mental Health Program

Usapang Pangkaisipan for Barangay Health Workers in Ten (10) LGUs

An advocacy drive was initiated by the Integrated Provincial Health Office through the Mental Health Program as the province’s health sector’s response to the 59 reported suicide cases as reflected in the 2022 provincial data. This activity is aimed to increase the awareness of Barangay Health Workers on mental health issues and the salient provisions of RA 10036 or the Mental Health Act.

Conducted in the municipalities of Sta. Maria, San Pablo, Delfin Albano, Sto. Tomas, San Isidro, Cauayan City 1, Cauayan City III, Mallig, Naguilian, and Quezon.

As a direct outcome, there has been a significant increase in the number of service users availing of mental health support. More people, including students, employees, and even community leaders, are now reaching out for counseling, therapy, and wellness programs. This rise in engagement reflects a growing awareness of the importance of mental well-being and the confidence instilled by the advocacy in seeking assistance without fear of judgement.

Ultimately, the *Usapang Pangkaisipan* has not only sparked meaningful conversations but has also

paved the way for a more proactive approach to mental health, ensuring that more individuals receive the care and support they need.

Infectious Disease Cluster

National Tuberculosis Program

TB CARAVAN PLUS:
Mobile Chest X-ray
Screening and on the spot
Sputum Collection for Gene
Xpert

One of the major activities under the TB Implementation Framework Agreement (TIFA) project is the conduct of an active case-finding activity dubbed “TB CARAVAN PLUS”. This strategy brings to communities mobile TB diagnostic and treatment services through mobile vans with digital chest X-ray machines. This helps address potential barriers to patients’ access to different health services. Through the application of symptom screening and the use of chest X-ray, the caravan aims to detect missed TB cases from the community in vulnerable/high-risk populations or groups.

Conducted by the NTP Core Team of IPHO with support from the USAID through the TB Implementation Framework Agreement and in collaboration with the Cut/Municipal Health offices of the province.

INVESTING IN
CONTROL:
STAKEHOLDERS’s
FORUM

The primary objective of the activity is to foster a collaborative environment among diverse stakeholders to mobilize and increase funding for TB Program. By leveraging collective expertise, resources, and influence, the forum aims to support innovative initiatives, strengthen existing TB control and prevention efforts, and ultimately accelerate progress towards the eradication of TB.

A total of 100 participants (49 females and 51 males) including LCEs, Vice-Mayors, Sangguniang Bayan on Health, MHOs, actively participated in the activity. Six (6) municipalities including the three from coastal towns were not able to attend due to equally important activities in their locality.

The forum was structured around various presentations, a panel discussion, and networking opportunities, which facilitated knowledge-sharing and collaboration.

		<ul style="list-style-type: none"> ➤ Presentation of TB Program Status and Targets: Ms. Grace R. Crisologo provided a detailed presentation on the status of the TB Program in Isabela. Her presentation included key data on TB Incidence Rate, Case Notification Rate, as well as data on Mortality Rate and Treatment Success Rates. ➤ The Role of Investment in TB Control: Dr. Janet M. Ibay, Medical Officer IV from the Department of Health - Cagayan Valley Center for Health Development, focused on the critical role of investment in TB control. ➤ Innovative Financing Mechanisms for TB Control: Hon. Christopher Mamauag, Municipal Mayor of Cabagan, Isabela, discussed innovative financing mechanisms that could be used to support the TB control program. His presentation focused on the importance of resource mobilization and policy framework to ensure sustainability of TB financing. Mayor Mamauag shared good examples of how his municipality had secured additional resources for TB services, stressing the importance of local government initiatives in sustaining TB control efforts. ➤ Good Practices for Effective Local Governance in TB Control: Dr. Florentino Somera III, Municipal Health Officer of Mallig Integrated Rural Health Unit and Birthing Center, presented on good practices in local governance for TB control. His presentation highlighted the importance of strong leadership and local engagement in ensuring effective TB service delivery. He shared experiences from Mallig’s TB program, illustrating how local government-led initiatives can address specific challenges, such as
--	--	--

improving treatment adherence and enhancing health-seeking behavior among patients. Lastly, he underscored the importance of multi-sectoral collaboration in addressing TB effectively and sustainably.

Actual Accomplishment of the TB CARAVAN PLUS 2024

(Batch 1 – April 2024)

	SAN MANUEL	ROXAS	RAMON	JONES	CAUAYAN 2	GAMU

Facility	Children (0-14 years old)		Adult (15 y/o and above)		Total Accomplishment
	Male	Female	Male	Female	
RHU JONES	11	7	65	120	203
RHU QUIRINO	22	13	65	110	210
RHU ROXAS	16	12	72	100	200
RHU SAN ISIDRO	7	8	49	83	147
RHU MANUEL	10	9	61	127	207
RHU QUEZON	10	6	59	130	205
RHU GAMU	10	6	40	92	92
Grand Total	86	61	411	762	1,264

TB Notification Rate

Indicator	2020	2021	2022	2023	2024 (Partial)
TB Case Notification Rate	200/100,000	164/100,000	353/100,000	436/100,000	473/100,000
TB Treatment Success Rate	93%	94%	92%	94%	94% (as of November 2024)
TB Preventive Treatment Coverage	n/a	9%	50%	59%	30% (as of November 2024)

This increase in the case notification rate, though initially alarming, reflects significant progress in the healthcare system. Improved diagnostic tools, widespread screening programs, and better public awareness have enabled early detection of TB cases that might have previously gone unnoticed. While the rise in diagnoses highlights the continued burden of TB, the high success rate in treatment offers hope. With sustained efforts, the goal of eradicating TB may become a reality, turning this global health challenge into a story of triumph.

The fight against tuberculosis (TB) in Isabela has been significantly bolstered through the generous support of international partners especially the USAID through the TIFA Project. In collaboration with the DOH Central Office, CVCHD (Cagayan Valley Center for Health Development) and the Provincial Government of Isabela, through the IPHO and various Local Government Units, USAID has played a turnaround role in strengthening TB prevention, diagnosis, and treatment services.

Leprosy Prevention and Control Program

Eligible Pop	Male	Female	Total
No. of Leprosy cases on treatment	14	3	17
No. of newly detected Leprosy cases	0	0	0

The table shows the number of clients undergoing treatment for leprosy. For the CY 2024, there is no reported newly detected leprosy case.

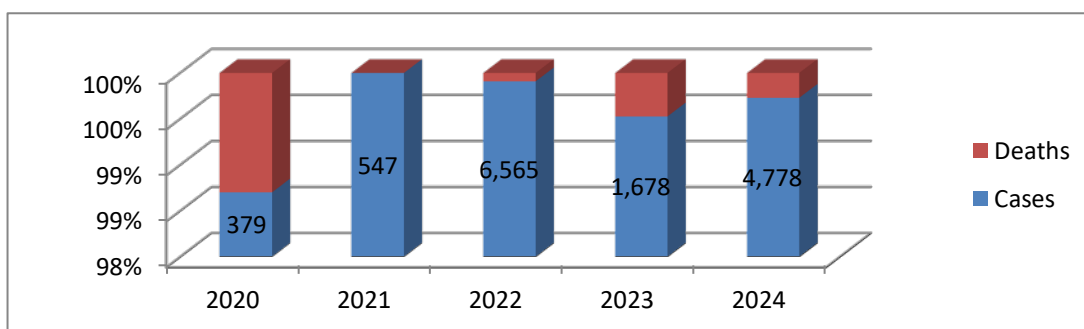

<p><u>Malaria Elimination and Control Program</u></p> <p>Conducted the Refresher Course on Malaria Microscopy</p>	<p>a 2-batch five-day training to equip the Medical Technologists with the knowledge and skills for a standardized methodology for malaria microscopy with principles on biosafety and good laboratory practice.</p>	<p>1st batch- November 4-8, 2024 which was attended by a total of 14 medical technologists from different City/Municipal Health Offices.</p> <p>2nd batch- November 18-22, 2024 also attended by a total of 14 participants, 8 from provincially maintained as well as municipal-owned hospitals and 6 from City/Municipal Health Offices.</p>
<p><u>Dengue Prevention and Control Program</u></p> <p>Dengue Awareness Campaign and Target Indoor/Outdoor Residual Spraying (TIRS/TORS) - JUNE 18-21, 2024</p>	<p>The main objective of the activity is to intensify and empower community people to take ownership of dengue prevention efforts by providing them with the knowledge and resources needed to implement preventive measures effectively.</p>	<p>The team convened community people of the barangay as well as the barangay officials to educate them on the proper application of insecticides during spraying as well as on how to conduct proper vector surveillance to eliminate the possible breeding sites of mosquitoes. As a result of the conducted vector surveillance, out of 100 households that were selected randomly by the team in every barangay of the four Cities and Municipalities, findings show that all 4 barangays were classified as high risk in terms of Breteau index because of the presence of larvae in artificial containers (tires and bottles). The high Breteau Index showed a direct relationship to high potential transmission of dengue outbreaks.</p> <p>The identified high-risk barangays are Brgy. Arusip, City of Ilagan, Brgy. San Juan, Delfin Albano, Brgy. Namnama, Cabatuan, and Brgy. Camarag, San Isidro.</p>

Conducted the Dengue Mortality Review - June 28, 2024	Under the functions, duties, and responsibilities of the Dengue Mortality Review Committee of the Province of Isabela, the review will contribute to surveillance efforts by providing data on factors contributing to the death and crucial for monitoring the impact of the disease and evaluating the effectiveness of control measures.	The committee conducted a Dengue Mortality Review on June 28, 2024, at Gov. Faustino N. Dy Sr. Memorial Hospital. Cases were presented by program coordinators of different Disease Reporting Units where cases reside. The Dengue Mortality Review Committee Co-Chairperson and members attended the activity. As an agreement, the next mortality review will be conducted at the facility where the case expires and be presented by staff who handled the case.
---	---	--

Five-Year Comparison of Dengue Cases and Deaths CY 2020-2024

	2020	2021	2022	2023	2024
Cases	379	547	6,565	1,678	4,778
Deaths	5	0	6	8	13

The sharp increase is attributed to several factors, including climate change, rapid urbanization, and poor waste management, which create ideal breeding grounds for *Aedes Aegypti* mosquitoes, the primary carriers of the virus. Without immediate intervention, the outbreak could escalate, leading to severe illness and even fatalities.

**Dengue Case
Fatality Rate and Incidence Rate
per / 100,000 population
CY 2020-2024**

Year	Cases	Number of Deaths	Case Fatality Rate	Incidence Rate
2020	379	5	1.32%	22 per 100,000 population
2021	547	0	0	32 per 100,000 population
2022	6,565	6	0.09%	382 per 100,000 population
2023	1,678	8	0.47%	96 per 100, 000 population
2024	4778	13	0.27%	307 per 100, 000 population

Dengue fever remains a significant public health concern in Isabela province, with notable fluctuations in case numbers and mortality rates over recent years. In response to the fluctuating dengue cases, the PGI and Integrated Provincial Health Office (IPHO) has implemented various measures:

- **Surveillance and Reporting:** Regular monitoring and reporting of dengue cases to identify trends and respond promptly.
- **Community Education:** Conducting information campaigns to educate the public on eliminating mosquito breeding sites and using protective measures.
- **Collaboration with Local Government Units (LGUs):** Working closely with LGUs to implement localized interventions, such as fogging operations and clean-up drives.

Despite these efforts, the province continues to face challenges in controlling dengue outbreaks, underscoring the need for sustained public health initiatives and community engagement and participation.

Dengue Awareness Campaign and Target Indoor/Outdoor Residual Spraying

Ensuring a mosquito-free environment with safe and effective indoor spraying

Provincial Dengue Program Coordinators conducting educational lectures and distributing insecticide to communities for dengue prevention.

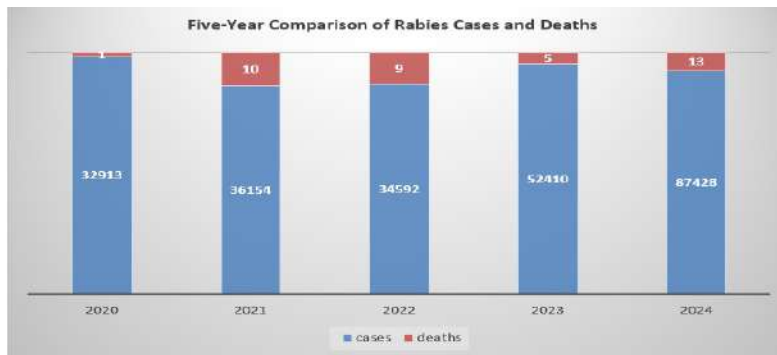

<p><u>Rabies Elimination and Control Program</u></p>		
<p>Conducted Training on Animal Bite Exposure Management - June 05-07, 2024</p>	<p>The training aims to provide all rabies program-involved personnel direction and guidance on the proper management and control of rabies; and disseminate the revised guidelines on the management of rabies exposure.</p>	<p>The training on rabies and animal bite management is a 3-day training course composed of six (6) modules subdivided into fifteen (15) lessons. There were nine (9) resource speakers invited from Department of Health Cagayan Valley, Center for Health Development, PVET, Philhealth, and 3 trainers from Isabela - two (2) doctors. There were 26 participants composed of doctors and nurses from priority municipalities of Aurora, Benito Soliven, Dinapigue, Divilacan, Jones, Maconacon, Mallig, Naguilian, Quezon, San Mariano, San Pablo, Sta. Maria and Echague District Hospital. Majority of the municipalities have no established Animal Bite Centers (ABC) within their jurisdictions and intended to put up their own ABC to cater the increasing numbers of animal bite patients in their area of assignment.</p>
<p>Conducted Rabies Fora 2024</p>	<p>The status of the National Rabies Prevention and Control Program in Region 2 highlights a concerning trend in human rabies cases. Despite control efforts, Isabela and Cagayan remain hotspots with significant fatalities. The alarming rise in rabies deaths from January 2023 with six (6) to June 2024 with nine (9), signals the urgent need for intensified and strategic interventions to prevent further loss of life. Conducting rabies fora is essential to address these challenges and prevent more rabies-related deaths. These fora are vital platforms for raising awareness, educating the public, and promoting</p>	<p>This collaboration among Local Government Units, the Department of Agriculture, DOH CV-CHD, IPHO, PDOH, the Regional Veterinary Office, Barangay officials, and other concerned parties can significantly enhance the rabies control and prevention strategy. Based on the recorded rabies deaths, the priority areas in Isabela for the conduct of rabies fora are: the <i>City of Ilagan, Sto. Tomas, Jones, Mallig, San Mariano, Quirino and Cabagan</i>. By focusing on these high-risk areas, we can improve community engagement, and response mechanisms and ultimately reduce rabies deaths in Region II.</p>

preventive measures. This also provides an opportunity to review and amend existing rabies ordinances of each LGU for stricter implementation.

Five-Year Comparison of Rabies Cases and Deaths

Indicator	2020	2021	2022	2023	2024
Animal Bite Cases	32,913	36,154	34,592	52,410	87,428
Rabies Deaths	1	10	9	5	13

The significant increase in rabies cases and deaths due to rabies is not only a risk to animals but also poses a significant threat to humans, with the disease almost always leading to death if not treated promptly after exposure. Tragically, a lack of awareness and education on this deadly disease has resulted in preventable fatalities. By being vigilant and proactive, pet owners can play a crucial role in preventing the spread of rabies, and safeguarding the health of their pets, their families, and the community at large.

Celebrating World Rabies Day with our dedicated healthcare workers and partner stakeholders—working together for a rabies-free community!

National HIV-AIDS and STI Prevention and Control Program

Workshop on Optimizing HIV Response: Collaborative Strategies Under Protects V2.0 Upscale in Cagayan Valley

The Global Fund, through the Cagayan Valley Center for Health Development, facilitated a four-day workshop that aims to intensify the National HIV-AIDS and STI response toward ending AIDS by 2030.

This was attended by the following agencies:

- Provincial STI/HIV Program Coordinators (Isabela and Cagayan)
- City STI/HIV Program Coordinators (Cauayan, Ilagan, Santiago and Tuguegarao)
- HIV Treatment Facilities
- Community Based Organizations
- City SK Federations
- PROTECTS Scale Staff
- CV-CHD Central Office

Assisted during the Free Voluntary HIV Counselling and Screening for TB Patients and Pregnant Women at Reina Mercedes, Isabela

The Human Immunodeficiency Virus community screening aims to increase awareness, encourage early detection, and provide information on prevention and treatment. This initiative focused on reducing the stigma surrounding HIV while empowering individuals with knowledge about their health. Furthermore, this is in response to the Rural Health Unit (RHU) of Reina Mercedes' request for

The IPHO and RHU Reina Mercedes facilitated HIV testing and counseling to pregnant women and TB patients, a total of 54 individuals were screened for HIV, 52 females and 4 males. Each patient received pre-and post-test counseling to ensure they understood the process and results. Health Education Promotion Campaigns were also conducted on HIV prevention and transmission, especially to pregnant women to their children.

assistance from this office in conducting HIV counseling and screening due to a lack of trained personnel to carry out the activity.

5-Year Comparison of Sexually Transmitted Infections (STI) Cases

2020	2021	2022	2023	2024
137	196	984	1,227	1,328

In recent years, public health officials have observed a noticeable rise in reported cases of sexually transmitted infections (STIs). At first glance, this trend appears alarming, suggesting worsening public health crisis. However, a deeper analysis reveals a more encouraging reality: the increase in STI diagnoses stems from a surge in voluntary screening, driven by widespread awareness campaigns.

School-based Information, Education, and Campaign on STI-HIV/AIDS

Empower. Educate. Protect. Start the conversation about HIV awareness today for a healthier tomorrow!

Ensuring safety and health—blood sample collection for voluntary HIV screening. Early detection saves lives

Soil-Transmitted Helminth Program

Deworming Services for Infants, Children, and Adolescents (CY 2024)

RESPONSIBLE PARENTHOOD AND REPRODUCTIVE HEALTH REPORT OF ACCOMPLISHMENT FOR 2nd Semester 2024

The implementation of the RPRH Law in Isabela is an ongoing effort. There is still much work to be done in addressing cultural, economic, and logistical barriers to full access to reproductive health services. However, the province has made strides in improving awareness and accessibility, and with continued government support and community involvement, the benefits of the law are becoming more apparent.

Moving forward, it will be important for local government units in Isabela to continue prioritizing reproductive health in their development programs, ensuring that every individual—regardless of location or socioeconomic status—has access to the services and education they need to make informed decisions about their reproductive health.

Accomplishments of Key Result Areas under the RPRH Act include the following:

KRA 1: Maternal, Newborn, and Child Health and Nutrition (MNCHN)

- Birth & Maternal Health:
 - Percentage of births attended by skilled health personnel: 98.68%
 - Percentage of births delivered in health facilities: 98.17%
 - Percentage of mothers receiving at least 4 antenatal care visits: 62.00%
 - Percentage of mothers & newborns receiving at least 2 postpartum checkups: 68.30%
- Child Nutrition & Immunization:
 - Prevalence among 0-59 months (Nutrition Team):
 - Underweight: 3.11%
 - Stunting: 5.74%
 - Wasting: 2.09%
 - Overweight/Obese: 3.53%
 - Percentage of fully immunized children: 68.70%
 - Prevalence of exclusive breastfeeding until 6 months: 37.50%
- Health Facility & Supply Monitoring:
 - Number of provinces/cities conducting maternal death review: 2
 - Number of facilities with EPI vaccine stockouts: 0
 - Number of facilities with nutrition commodity stockouts: 26

KRA 2: Family Planning (FP)

- Demand Satisfied with Modern FP: 77.39% of the total demand for family planning (FP) is met.
- Unmet Need for FP: Not available.
- Postpartum FP Services: 859 women of reproductive age (WRAs) received FP services in hospitals.
- Individuals Reached with FP Information:
 - FP Month Celebration: 650 individuals
 - BBB Initiative: 132 individuals
- Health Facilities with Trained Providers (FPCBT 2 Training):
 - PSI (Progestin Subdermal Implant): 335 providers
 - IUD (Intrauterine Device): 10 providers

- BTL (Bilateral Tubal Ligation): 12 providers
- NFP (Natural Family Planning): 1 provider
- Stock-out of Contraceptives in the Last Six Months (RHU & Hospitals)
 - Pills: No stock-outs
 - IUD: No stock-outs
 - DMPA (Depo-Provera): No stock-outs
 - Condoms: No stock-outs
 - PSI: No stock-outs

San Manuel	23	7	16
San Mateo	26	19	7
Santa Maria	36	-	36
Sto. Tomas	9	3	6
Tumauini	20	4	16
Total	741	427	314

The table reflects that more than half of the collected water samples have passed the safe drinking water testing.

**Percentage of Households with Access to Basic Safe Water and Safely Managed Drinking Water
CY 2020-2024**

Indicators	2020	2021	2022	2023	2024
Percentage of Households with Access to Basic Safe Water	99%	79.28%	95.20%	96.34%	99.96% (Target: 92.49%)
Percentage of Households with Safely Managed Drinking Water	36.4%	47.48%	30.5%	42.72%	57.42% (Target: 73.62%)

The increasing percentage of households with access to basic safe water and safely managed drinking water has had a profound impact on public health and well-being. Access to clean, safe water reduces the prevalence of waterborne diseases, which historically have been major causes of illness and death, particularly in developing regions. When households have reliable access to clean water, it improves hygiene, reduces the burden of water collection, and promotes better sanitation practices.

**Percentage of Households with Access to and Safely Managed Sanitary Toilets
CY 2020-2024**

Indicators	2020	2021	2022	2023	2024
Percentage of Households with Access to Sanitary Toilets	76%	71.64%	92.52%	93.81%	93.13% (Target: 89.09%)
Percentage of Households with Safely Managed Sanitary Services	33.6%	68.84%	84.87%	87.66%	88.73% (Target: 74.58%)
Proportion of Municipality/City Declared Zero Open Defecation (ZOD)					24.32% (Target: 89.09%)

Households with sustained access to sanitary toilets and safely managed sanitation services have a profound impact on public health and well-being. Over time, consistent access to sanitary toilets, such as improved pit latrines or flush toilets, reduces the risk of waterborne diseases like cholera, diarrhea, and dysentery, which are often spread through poor sanitation. As these households maintain reliable sanitation facilities, their communities experience fewer outbreaks and a reduction in healthcare costs.

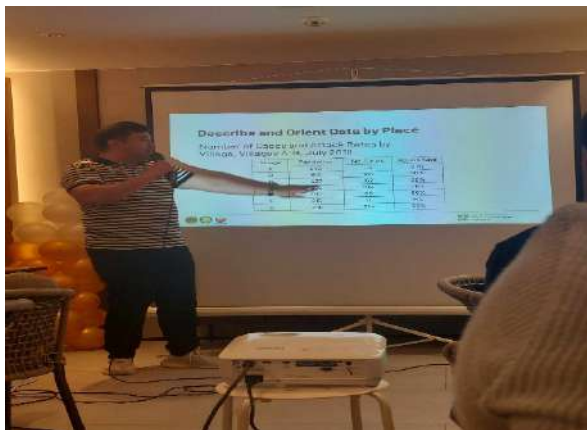

Epidemiology and Surveillance

Conducted the Basic Epidemiology Training for the members of Disease Reporting and Epidemiology Surveillance Units

A five-day training which can help surveillance officers and epidemiology assistants in enhancing knowledge and skills in detecting outbreaks, tracking disease trends, and assessing the impact of intervention. The training also aims to link all DRUs and ESUs, as well as laboratory networks to a single integrated application that will streamline surveillance processes and simplify data transmission and management operations.

Conducted by the IPHO-FHS in coordination with the CV-CHD RESU and attended by thirty (30) participants from the different DRUs of the province last October 14-18, 2024.

Engaged in hands-on learning during Basic Epidemiology Training, where participants dive into key concepts and methods for understanding public health data and disease patterns.

<p><u>Disaster Risk Reduction and Management in Health Program</u></p>		
<p>Participated during the DRRM H Summit 2024</p>	<p>This year's theme: <i>"BUILDING TOMORROW TODAY: RESILIENCE IN THE FACE OF DISASTER"</i>.</p>	<p>The highlights of the summit which focuses on the <i>"TAGISAN NG TALINO AT GALING"</i> on proper, timely, effective, and well-coordinated efforts of different stakeholders in responding to emergencies and disasters.</p>
<p>Participated during the National Public Health Emergency Management in the Philippines (NPHEMP) Training</p>	<p>This training is aimed at building and enhancing DRRM-H competencies of the human resources for health in various Centers of Health and Development.</p>	<p>Besting other provinces, the Province of Isabela won as Over-all 3rd Place and bagged the <i>"Sagip Buhay Award"</i> during the <i>"Tagisan ng Talino at Galing"</i> and simulation exercise which emphasized the proper and well-coordinated responses of the team.</p>
<p>Co-facilitated the Sub-Public Health Emergency Management in the Philippines Training Roll-out in the municipalities of Luna, and Jones, Isabela</p>	<p>The Sub-Public Health Emergency Management in the Philippines Training serves as an avenue for institutional strengthening such as team building, strategic planning, post-incident evaluation, and program implementation and review. Such training will equip individuals to handle the challenges of managing emergency health risks.</p>	<p>The Provincial Health Office of Isabela in collaboration with the Provincial Department of Health Office, Provincial Health Office of Cagayan, and Quirino conducted the Sub-National Public Health Emergency and Management in the Philippines training which participated by all DRRM-H Managers and members of Health Emergency Response Team from different City Health Offices and Rural Health Units of Isabela.</p>

Co-facilitated the Health Emergency Response Operation Training	The training program itself serves as an avenue for strengthening institutional capacity such as team building, strategic planning, post incident evaluation, and program implementation and review.	The Cagayan Valley Center for Health Development Health Emergency Management Unit in collaboration with other partner stakeholders from Provincial Health Office of Isabela, Quirino and La Union, and Southern Isabela Medical Center conducted the cascading of the training which participated and attended by DOH HEMB, R2TMC, CVMC, PHO's, Provincially Maintained Hospitals and City Health Office of Santiago last September 16-20, 2024.

Empowering communities for resilience and preparedness: Participants at the HERO Training, DRRM H Summit, and National Public Health Emergency Management in the Philippines, united in their mission to strengthen disaster response and public health systems

One of the key features of the HERO Training is its adaptability to the specific needs of the Philippines, considering the country's vulnerability to various health threats and natural disasters. As the series progresses, participants are also trained on the latest technologies and strategies in public health management, strengthening their capacity to respond to both conventional and emerging health threats. The program typically includes a combination of classroom instruction, field exercises, and simulations that cover a wide range of topics, such as emergency response coordination, disease surveillance, risk communication, and resource management. Emphasis is placed on the importance

of collaboration between various sectors, from local government units to national health agencies, ensuring a unified and efficient response to emergencies.

The National Public Health Emergency Management in the Philippines emphasize the importance of interagency collaboration, as effective public health emergency management requires coordinated efforts across various sectors, including health, local government units, military, and non-governmental organizations. The program also ensures that participants are well-versed in international best practices and guidelines, such as those outlined by the World Health Organization (WHO) and the Centers for Disease Control and Prevention (CDC).

<p><u>Health Promotion Programs and Campaigns</u></p> <p>School-based Information Education and Communication for Health on HIV/AIDS, Teenage Pregnancy, Mental Health, and Tobacco /Vape / E-Cigarette Use</p>	<p>To provide age-appropriate knowledge to our Junior and Senior High School Students and to protect them on issues with significant health risks that can have life-long consequences for individuals and communities.</p>	<p>Program Coordinators and Health Education and Promotion Officers from the IPHO-FHS were among the Key Resource Speakers who tackled topics on HIV/AIDS, Teenage Pregnancy, Mental Health, Harmful effects of Tobacco and E-Cigarette/Vape products.</p> <p>In constant partnership with the Department of Education through the Schools Division Office of Isabela, 914 participative junior and senior high school students from the following schools were the beneficiaries of this advocacy campaign:</p> <ul style="list-style-type: none"> • Cagasat High School, Cordon, Isabela – 133 participants (59 male, 74 female) • Mallig National High School, Mallig, Isabela – 301 participants (138 male, 163 female) • Bimonton Integrated School, Mallig, Isabela – 159 participants (76 male, 83 female) • Luna General Comprehensive High School, Luna, Isabela - 201 participants (104 male, 97 female)

Photo Documentation on Health Promotion Programs and Campaigns

Mr. and Ms. Bikers Champ 2024 - San Manuel, Isabela

IPHO's Health Education and Promotion Unit collaborated with RHU San Manuel and supported by the Health Promotion Unit of the Cagayan Valley Center for Health Development to address the efficacy of the target audience in their compliance to road traffic safety and to promote mental and physical exercise through cycling. In addition, it touches also on other Priority Areas in the Community Playbook which are Priority Area 1- Active Transport, Priority Area 2- Environmental Health, Priority Area 4- Substance Use, and Priority Area 5- Mental Health. With its versatility, cycling becomes an essential tool in fostering a healthier, more sustainable lifestyle for individuals of every age.

Search for the BAKUNAnay Idol and Fully Immunized Chikiting – Cabagan, Isabela

IPHO's Health Education and Promotion Unit collaborated with RHU Cabagan and supported by the Health Promotion Unit of the Cagayan Valley Center for Health Development in celebration of the 50th World Immunization Week 2024. This advocacy drive highlights the promotion of essential vaccines and their significant effect on vaccine preventable diseases to protect the community, particularly the children.

Participated by five (5) BakuNanays together with their Fully Immunized Children vying for the awards. As part of the celebration, provision of vaccination services was also given to eligible group such as the Senior Citizens, pregnant women, and children 0-59 months old.

Mental Health Month Celebration 2024 – ISU City of Ilagan

Mental Health in the Workplace “Kamusta, Katrabaho? Tara, Usap Tayo”

This health promotion activity aims to increase the level of awareness on mental health issues among employees and to promote healthy habits in the workplaces as one of the holistic interventions of the Health Promotion Framework Strategy, mandated in the implementation of the Republic Act No. 11223 or the Universal Health Care (UHC) Act. 127 teaching and non-teaching school personnel (50 male / 77 female) actively participated in the activity.

Pinggang Pinoy, Panalo! Search for Best Gulayan – Burgos, Isabela

It is a contested activity that aims to motivate the community in improving their health through proper dietary habits and increased physical activity - both by means of gardening. In relation to the theme “*Sa PPAN sama-sama sa nutrisyong sapat para sa lahat!*”, the activity also encourages community involvement by establishing and sustaining food gardens for all.

Participated by eight (8) LGUs namely: Burgos, Quirino, Jones, Cauayan City, Tumauni, San Manuel, Naguilian, and San Mariano. The TWG members from the office of Provincial Agriculture, Provincial Veterinary, PDOHO, PNAO, and IPHO conducted the evaluation visits in the participating city/municipalities. All of them received cash prizes from DOH CVCHD, vegetable seeds and seedlings from OPA, and certificates and tokens from IPHO.

Psychological First Aid Training

In collaboration with the Health and Nutrition Unit of SDO Isabela and Health Promotion Unit of the IPHO supported by the Health Promotion Unit of the CVCHD. This training is aimed to train the school heads and teachers coming from the 30 Last-mile Elementary Schools of the Healthy Learning Institution Provincial Implementation.

Bantay Buntis sa Bawat Barangay (BBB)
 (Reina Mercedes, San Agustin, and Sto. Tomas, Isabela)

The Bantay Buntis sa Bawat Barangay (BBB) is an annual health education initiative led by the Provincial Health Office of Isabela through the Safe Motherhood Program (SMP). For 2024, the advocacy theme "LAB U 'NAY! – Libre At Dekalidad na Buntis Serbisyo sa UHC Nakaagapay At Yaman ang Buhay!"

Project M.O.M. (Milestones of Mother), and Breastmilk ay G.I.N.T.O. (Gatas ay Ibahagi ni Nanay Tungo sa Okay na Paglaki ni Baby)

A Human Milk Donation activity was conducted on August 20, 2024 in celebration of National Breastfeeding Awareness Month. The activity was collaborated with the Municipal Health Office - Cabagan (MHO Cabagan) and Cagayan Valley Medical Center (CVMC), and was simultaneously conducted with the former's Project MOM activity.

Mid-level Management Training on Immunization

The Mid-Level Management (MLM) Training on Immunization was conducted to enhance the competencies of National Immunization Program (NIP) coordinators across the country. This training aimed to strengthen the skills and knowledge of immunization program managers in planning, implementation, monitoring, and evaluation of vaccination activities. The event gathered NIP coordinators from various regions, including representatives from Region 2, to exchange experiences, best practices, and strategies in improving immunization coverage and program efficiency.

Empowering Leadership: The delegation from Region 2 actively participated in discussions, workshops, and simulation exercises. Their engagement demonstrated their commitment to strengthening the immunization program in their respective provinces.

Launching of Social and Behavior Change Communication Materials for Teenage Pregnancy Prevention

In a significant step toward addressing the growing concern of teenage pregnancy, IPHO, in collaboration with Provincial Youth and Development Office, Secondary Schools, LGUs, officially launched its Social and Behavior Change Communication (SBCC) materials. The event marked a milestone in empowering adolescents, parents, educators, and communities with the right information and tools to prevent early pregnancies and support responsible decision-making.

The photo above was taken during the District Launching of SBCC Materials in selected Secondary Schools identified by the respective LGUs.

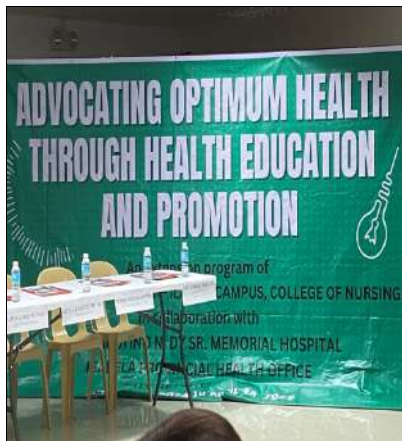

Grand Launching of SBCC Materials in constant collaboration with the PYDO during the Provincial Youth Caravan at Isabela State University-Cauayan City Campus.

Launching the SBCC materials represents more than just releasing information—it is a call to action. By equipping communities with the right knowledge and tools, IPHO and its partners take a vital step toward reducing teenage pregnancy and ensuring a brighter future for the youth.

MOA Signing on Advocating Optimum Health Through Health Education and Promotion

The collaboration between the academe and the Integrated Provincial Health Office (IPHO) plays a vital role in enhancing health promotion efforts within communities. This partnership leverages the expertise, resources, and networks of both institutions to foster a comprehensive approach to health education, research, and service delivery.

The fusion of health educators from IPHO, GFNDSMH, and ISU-Iligan unites as partners in Health Promotion, fostering a healthier and informed community.

Buwan ng Kabataan Celebration

As the vibrant celebration of *Buwan ng Kabataan* unfolded, program coordinators took center stage in fostering meaningful discussions on the challenges faced by today's youth such as smoking and vaping, teenage pregnancy, mental health issues, and substance abuse. Tasked with organizing lectures and forums, they collaborated with educators, community leaders, and youth advocates to shed light on pressing concerns such as mental health, employment opportunities, substance abuse, and social media influence.

National Children's Month Celebration 2024 – Quezon, Luna, and San Isidro

Children actively engage in a fun and educational health activity during the National Children's Month celebration, interactively promoting wellness and learning!

Barangay Health Workers Training Roll-out on Manual on Health Services and Policies

Barangay Health Workers (BHWs) are vital assets to the Philippine healthcare system, serving as the primary link between the community and the healthcare services provided by local government units. In recognition of their critical role, training BHWs to become effective health education and promotion officers is essential for empowering communities to take charge of their health and well-being. The training equips them to implement the 7 Priority Areas of the Health Promotion Playbook, focusing on strategies to improve health outcomes at the barangay level.

Upon completion of the training, Barangay Health Workers are fully equipped to take on the role of health education and promotion officers within their communities. Their hands-on knowledge of the 7 Priority Areas of the Health Promotion Playbook enables them to effectively advocate for better health practices, educate the public on key health issues, and implement community-driven health interventions. By empowering BHWs with the tools and knowledge to address the most pressing health concerns, the health of the entire barangay can be transformed, leading to healthier and more resilient communities.

HEALTH SERVICE PERFORMANCE		
Conducted the Program Implementation and Performance Review 2024	An annual activity conducted by the IPHO to assess the status and impact of health program implementation at the C/MLGU levels and address identified health threats/gaps encountered in RHUs/CHOs and PGI hospitals	Facilitated by IPHO and attended by MHOs/CHOs, and Chiefs of Hospitals. Program Coordinators and Chiefs of Hospitals presented the accomplishments and gaps identified under their respective programs and hospital services. The status of the Local Health System Maturity Level of the province was also presented.
Annual Operational Plan 2025 Presentation	The AOP serves as a steering roadmap for achieving the goals and objectives set out in the provincewide health system strategic plan.	Conducted by this office in collaboration with the PGI hospitals and the Provincial Department of Health Office of Isabela last September 2-4, 2024. IPHO's AOP for 2025 was presented to the Hon. Emmanuel Joselito B. Añes, SP on Health and Sanitation, members of the province's finance Team, Cluster Heads from the CVCHD, and PhilHealth. Also, this planning strategy is participated by the City/Municipal Health Officers, AOP/LIPH Coordinators, and Public Health Nurses from the 39 strong Primary Care Facilities of the Province.
Conducted the 2 nd Healthy Isabela Awards 2024	An annual ceremony conducted to acknowledge and recognize the valuable contribution of the Local Government Units in the implementation of primary health care services and health promotion initiatives as mandated by the Department of Health	Initiated by the Health Education and Promotion Unit of the IPHO last December 3, 2024. The 2 nd Healthy Isabela Awards 2024 concluded with high spirits as our award recipients were boosted with high morale as their hard work, perseverance, and unwavering commitment were honored and acknowledged. In times of challenges and triumphs alike, our healthcare heroes have been the pillars of resilience, innovation, and compassion that our healthcare system depends on.

<p>Orientation on the 2026-2028 Local Investment Plan for Health Processes and Tools</p>	<p>A 2-day face-to-face activity which is aimed to orient the participants on the improved processes and tools for the development of the 2026-2028 Local Investment Plan for Health.</p>	<p>Conducted by IPHO in collaboration with the Provincial DOH Isabela last October 28-29, 2024, and attended by C/MHOs and their AOP/LIPH focal persons.</p>
<p>Conducted the 2024 semi-annual and annual program implementation review</p>	<p>Program Implementation Review (PIR) is one of the fundamental components of health governance strategies established by the Department of Health and the Province of Isabela to determine outcomes of health program implementation and identify related issues encountered towards achievement of intended deliverables/results.</p>	<p>Cluster Heads were tasked to present the accomplishment of each program under them. Following the presentations, an open forum was facilitated, during which participants raised clarifications and concerns. These were promptly addressed by the relevant program coordinators, ensuring an engaging and productive discussion. The table below summarizes the key agreements and resolutions for each concern raised.</p>
<p>Participated during the LAB for All (LFA) Caravan for Isabela (March 19, 2024)</p>	<p>A sequel of the <i>Bagong Pilipinas Serbisyo Fair</i> which is a revitalized intervention of the Administration in providing services nearer to every Filipino. The <i>LAB for All Caravan</i>, as one of the integral parts of the whole-of-nation-approach which mainly aims to provide free health services, medical consultations, and medicines through the initiative of The Office of First Lady Louise Araneta-Marcos, in collaboration with the Provincial Government of Isabela (PGI) and the City Local Government Unit (CLGU) of Ilagan.</p>	<p>The Integrated Provincial Health Office of Isabela in coordination with the CVCHD, Apex Hospitals in the Region, partner NGAs, and through the support of the Provincial Government of Isabela, successfully conducted the LAB for All Caravan catering to medical, dental, diagnostic, and other health and social-related services to thousands of Isabeleños.</p> <p>A pre-event of the LFA was one of the strategies to maximize the number of beneficiaries in the province. The Local Government Units of Cauayan City, Echague, Mallig, and Cabagan were the identified catchment zones that catered to the almost 17,000 Isabeleño clients who could hardly make themselves available at the main event at the City of Ilagan Community Center.</p>

<p>Participated during the <i>Handog ng Pangulo: Serbisyong Sapat Para sa Lahat!</i> Serbisyo Fair.</p>	<p>This is a sequel to the administration’s revitalized strategy of delivering essential services to the community through the conduct of a serbisyo fair during the 67th birthday celebration of Philippine President His Excellency Ferdinand “Bongbong” R. Marcos, Jr.</p>	<p>The Provincial Government of Isabela successfully participated in this year’s caravan through the collaboration of various departments of the PGI.</p> <p>876 patients were served by the medical and dental teams composed of compassionate healthcare workers from the IPHO-FHS, PGI hospitals, and PDOHO.</p> <p>Details of services provided are reflected in the tables below.</p> <table border="1" data-bbox="1011 755 1463 1228"> <thead> <tr> <th colspan="2">Handog ng Pangulo: Serbisyong Sapat Para sa Lahat!</th> </tr> <tr> <th>Services</th> <th>No. of patients served</th> </tr> </thead> <tbody> <tr> <td>General Consultation</td> <td>675</td> </tr> <tr> <td>Dental Services</td> <td>34</td> </tr> <tr> <td>Laboratory Services</td> <td>48</td> </tr> <tr> <td>Anti-rabies Vaccination</td> <td>59</td> </tr> <tr> <td>1st dose</td> <td>21</td> </tr> <tr> <td>2nd dose</td> <td>11</td> </tr> <tr> <td>3rd dose</td> <td>6</td> </tr> <tr> <td>4th dose</td> <td>22</td> </tr> <tr> <td>Total</td> <td>876</td> </tr> </tbody> </table> <table border="1" data-bbox="1011 1265 1463 1839"> <thead> <tr> <th colspan="2">Summary of Expenditures</th> </tr> <tr> <th>Services</th> <th>Amount Augmented</th> </tr> </thead> <tbody> <tr> <td>Medicines</td> <td></td> </tr> <tr> <td>DOH</td> <td>53, 452.00</td> </tr> <tr> <td>IPHO</td> <td>138, 519.31</td> </tr> <tr> <td>GFNDSMH</td> <td>151, 061.32</td> </tr> <tr> <td>CDH</td> <td>9, 931.68</td> </tr> <tr> <td>MADH</td> <td>3, 861.88</td> </tr> <tr> <td>MARDH</td> <td>33, 971.32</td> </tr> <tr> <td>Sub-total</td> <td>390, 797.51</td> </tr> <tr> <td>Hygiene Kits (DOH)</td> <td>300, 000.00</td> </tr> <tr> <td>Dental Services</td> <td>8, 455.00</td> </tr> <tr> <td>Laboratory Services</td> <td>203, 860.00</td> </tr> <tr> <td>Grand Total</td> <td>903, 112.51</td> </tr> </tbody> </table>	Handog ng Pangulo: Serbisyong Sapat Para sa Lahat! 2nd Healthy Isabela Awards 2024

In the heart of Isabela, where compassion meets dedication, the **Healthy Isabela Awards** stand as a beacon of gratitude for the selfless efforts of our healthcare workers. These men and women, who tirelessly serve in hospitals, clinics, and communities, embody the spirit of care and resilience that keeps our province thriving.

Semi-Annual and Annual Program Implementation and Performance Review 2024 (August 7-9, 2024 and December 23, 2024)

Annual Operational Plan 2025 Presentation

IPHO FHS and Hospital Services Family together with the PGI Finance Team .

LAB for ALL and Handog ng Pangulo Serbisyo Fair

Our Provincial Health Officers, Chiefs of Hospitals, partners from PhilHealth Ilagan Service Office with DOH Undersecretary Dr. Glenn Mathew G. Baggao (center) during the coordination meeting for the conduct of the LAB for All Serbisyo Fair 2024.

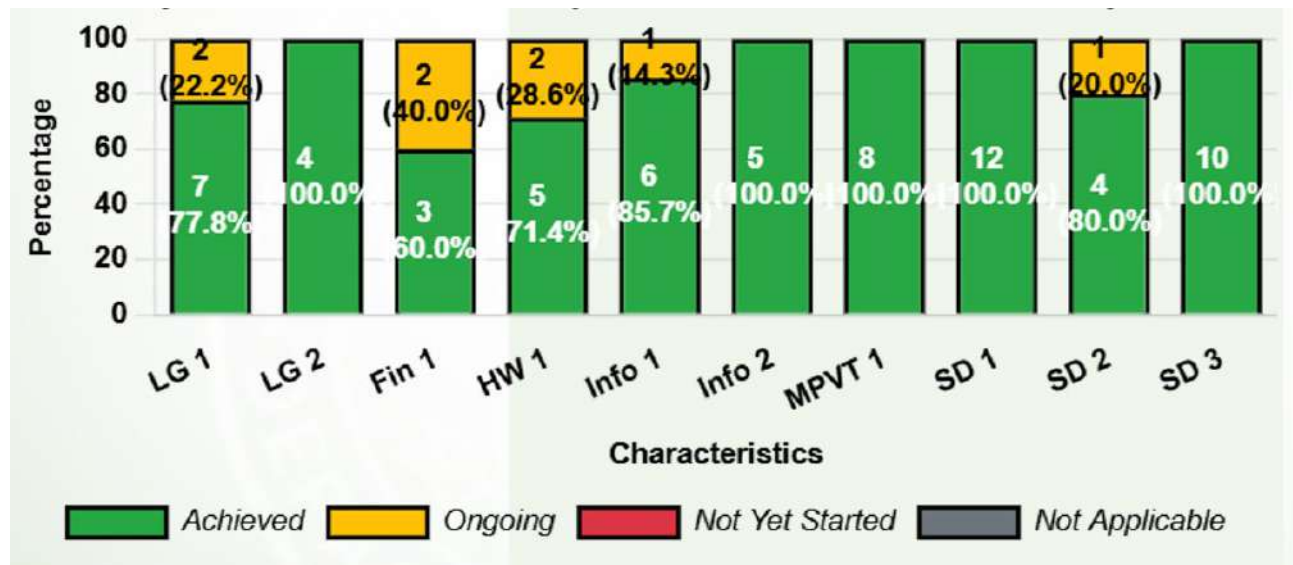

Our Provincial Health Teams from the Field Health and Hospital Services (PGI hospital and Private Hospitals) in action headed by Dr. Nelson O. Paguirigan, PHO II during the LAB for ALL and Handong ng Pangulo Serbisyo Fair 2024. All for the health of every Isabeleños!

Universal Health Care Updates

The Province of Isabela has made significant strides in strengthening its local health system and integration of the Universal Health Care; however, certain aspects remain in progress as it continues to evolve toward full maturity. The ongoing status of these key characteristics highlights both achievements and areas that require further development. The ongoing nature of these characteristics emphasizes the need for continuous efforts and strategic interventions to achieve a fully mature and sustainable healthcare system. Through strengthened governance, enhanced resource allocation, improved service delivery, workforce development, and advanced health information systems, the province aims to provide comprehensive and equitable health services for all its residents through the Universal Health Care.

Source: Generated from the Local Health Systems Maturity Level Information System (LHS-ML)

The graph shows the summary results of achieved Key Result Areas for the province of Isabela per Characteristic of the Local Health Systems Maturity Level as of December 2024.

ISO Accomplishments

The Integrated Provincial Health Office (IPHO) has consistently demonstrated its commitment to excellence by achieving ISO quality objectives across its four key processes: Warehouse and Stock Management, Water Analysis, Implementation of Health Programs, and the Execution of Approved Trainings and Health Promotion Campaigns. These accomplishments highlight the office's dedication to efficiency, quality service delivery, and continuous improvement in public health management.

Warehouse and Stock Management

- Efficient warehouse and stock management are crucial for ensuring the availability of essential medical supplies and equipment. The IPHO has successfully implemented an inventory system that adheres to ISO standards, ensuring the timely procurement, proper storage, and systematic distribution of health commodities.

Water Analysis

- Access to safe and clean water is a fundamental public health concern. The IPHO has strengthened its water quality monitoring system, ensuring that water sources undergo rigorous testing and analysis in compliance with ISO standards.

I. Total Number of Water Processed

January 2024 to	Passed	Failed	Total
December 2024	518	70	588

II. Total Number of Clients per Classification

Classification	Public	Private	Total
Water Refilling Station	0	21	21
Residential	1	0	1
Primary Care Facility/Hospital	74	1	75
Public Place	0	0	0
Industrial/Establishment	5	9	14

Implementation of Health Programs

- The IPHO has successfully rolled out various health programs that cater to the needs of the population, ensuring that services reach even the most remote and underserved communities. With ISO-aligned strategies, the office has streamlined planning, execution, and monitoring mechanisms to enhance program effectiveness.

Implementation of Approved Trainings and Health Promotion Campaigns

- Building the capacity of healthcare workers and raising public awareness about health-related issues are essential to a well-functioning health system. The IPHO has successfully conducted numerous ISO-compliant training sessions and health promotion campaigns, ensuring that healthcare personnel are well-equipped with the latest knowledge and skills. Additionally,

health promotion campaigns addressing pressing health concerns have reached a broader audience through strategic communication efforts, maximizing their impact

Summary Report on Approved Trainings

Health Cluster / Health Program	Title of Training / Orientation / Meetings / Workshop	Place Conducted	Inclusive Dates	Conducting Agency (CO, CHD, PLGU, C/)	No. of IPHO		Remarks
					Facilitator	Participant / Attendee

The Integrated Provincial Health Office’s success in achieving ISO quality objectives across these four key processes reflects its unwavering commitment to operational excellence and public health service delivery. Through continuous improvement, innovation, and adherence to international quality standards, the IPHO has significantly enhanced efficiency, effectiveness, and accessibility in healthcare management. These accomplishments not only elevate the quality of services provided but also contribute to the overall well-being of the communities it serves.

With all these accomplishments the IPHO is continually giving their heartfelt dedication and continues to be the heartbeat of a healthier, stronger Isabela, inspiring hope and healing in every life they touch.

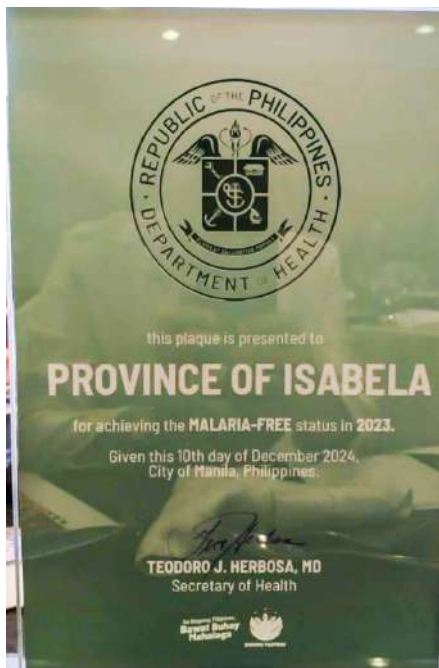

Awards and Recognitions Received

Province of Isabela Conferred as Malaria-Free Province

The Province of Isabela was officially conferred the status of a malaria-free province during a ceremony at the Century Park Hotel in Manila on December 10, 2024. This declaration highlights the collaboration among government agencies, private sector partners, non-profit organizations, and local communities in achieving this significant milestone.

The recognition was conferred by Dr. Teodoro J. Herbosa, Secretary of the Department of Health, in partnership with the World Health Organization-Philippines and Pilipinas Shell Foundation, Inc., acknowledging over a decade of efforts by local health workers to combat malaria in the province. Dr. Nelson Paguirigan, Provincial Health Officer II of the Integrated Provincial Health Office (IPHO), and Mr. Marvin R. Valiente, Provincial Malaria Program Coordinator, received the award on behalf of the people of Isabela. Dr. Glenn Mathew G. Baggao, Undersecretary and Cluster Head of the Public Health Services Cluster, delivered the keynote address at the ceremony.

Dr. Paguirigan emphasized the commitment in sustaining malaria control efforts, stating, "With the support of the Provincial Government of Isabela, the Integrated Provincial Health Office will focus on expanding community awareness about malaria prevention and ensuring immediate access to diagnosis and treatment for all Isabeleños, particularly in high-risk areas."

Dr. Nelson O. Paguirigan, PHO II (*5th from the left*) and Mr. Marvin R. Valiente (*6th from the left*) as they receive the plaque of declaration for the province of Isabela alongside DOH Undersecretary Dr. Glenn Mathew G. Baggao (*4th from the left*).

The Province of Isabela Bagged Major Awards during the Gawad Kalusugan Awards 2024

Gawad Kalusugan 2024 is a prestigious health and wellness initiative aimed at recognizing outstanding efforts in promoting public health and well-being in communities across the region. The program, organized by the Cagayan Valley Center for Health Development (CVCHD) in collaboration with Provincial/Local Government Units (P/LGUs) and non-governmental organizations (NGOs), seeks to honor individuals, groups, and institutions that have made significant contributions to healthcare services, disease prevention, and health education.

Among other UHC Integration Sites in the Region, the province of Isabela graciously received the following awards in the provincial category:

- **Responsible Parenthood and Reproductive Health Purple Banner Award (Gold);**
- **LGU Health Scorecard Implementer Award (Gold);**
- **Non-communicable Disease Innovator Award (Gold); and**
- **Provincial Health Office Immunization Excellence Recognition Award.**

The PGI also received the prestigious **Universal Healthcare Milestone Achievement Award** for their outstanding contributions to integrating local health systems, addressing gaps in healthcare services for underprivileged sectors, and enhancing resource efficiency in alignment with Universal Health Care's goals. The awards were conferred by Department of Health (DOH) Undersecretary Glenn Mathew G. Baggao and Cagayan Valley Center for Health Development (CVCHD) Director Amelita M. Pangilinan. The provincial government received a total cash incentive of P800,000, which it will use to further enhance its health initiatives.

A celebration of excellence in health, innovation, and service. The Gawad Kalusugan Awards 2024 shines a spotlight on those who elevate the standard of healthcare in the region. Dr. Nelson O. Paguirigan, PHO II and IPHO personnel as they receive the Major and Distinction Awards conferred by DOH Undersecretary Glenn Mathew G. Baggao, and CVCHD Regional Director Dr. Amelita M. Pangilinan.

Province of Isabela Commended for its Newborn Screening Program

The Province of Isabela has demonstrated outstanding dedication and excellence in newborn healthcare, earning recognition as the **innovative and active program partner in the region** by the CVCHD. This commendation is a testament to the province's unwavering commitment to ensuring that every newborn receives early and life-saving screening services.

Through its proactive initiatives, the province has successfully implemented a comprehensive and efficient newborn screening program, reaching even the most remote communities. The provincial government, in partnership with healthcare institutions and local health units, has prioritized early detection and intervention for genetic, metabolic, and other congenital disorders, significantly improving infant health outcomes. The province received 152 filter cards valued at P266,000 and a project proposal to be funded by the CVCHD.

Celebrating the success of our dedicated healthcare professionals in ensuring a healthier future for our newborns through the power of early detection. Together, we pave the way for a brighter tomorrow. Ms. Anna Kharen T. Guillermo, National Safe Motherhood and Newborn Screening Program Coordinator as she received the Plaque of Appreciation conferred for the Integrated Provincial Health Office.

Isabela’s Provincial Nutrition Action Officer (PNAO) Hailed as Regional Outstanding PNAO

Isabela proudly celebrates a momentous achievement as **Ms. Henedina S. Cabrera** is hailed as the **Regional Most Outstanding Provincial Nutrition Action Officer**, a testament to her unwavering dedication and exceptional contributions to public health and nutrition.

As the Provincial Nutrition Action Officer, Ms. Cabrera has spearheaded transformative programs aimed at combating malnutrition, promoting food security, and enhancing community-based nutrition initiatives. Under her leadership, Isabela has witnessed significant improvements in child and maternal nutrition, strengthened partnerships with local government units, and successfully implemented sustainable feeding programs.

Her visionary approach and commitment to evidence-based strategies have led to the province's recognition for its outstanding nutrition governance, setting a benchmark for other localities. Through her tireless efforts, Isabela has become a model of resilience and innovation in advancing health and nutrition, positively impacting the lives of countless families.

The prestigious recognition as **Regional Most Outstanding Provincial Nutrition Action Officer** is a well-deserved honor, reflecting Ms. Cabrera’s passion, leadership, and relentless pursuit of a healthier future for the people of Isabela.

With this milestone, Isabela continues to shine as a champion of nutrition, proving that dedicated leadership and community-driven action can create lasting change.

Recognizing Excellence in Nutrition Leadership: Ms. Henedina S. Cabrera, the Regional Outstanding Provincial Nutrition Officer, for her unwavering dedication and commitment to improving community health and well-being. The whole province of Isabela is proud of you, maam Hennie!

Isabela’s Population Program Officer Recognized as 2nd Most Outstanding Provincial Population Officer in 2024 RMSKPA

In a momentous recognition of excellence and dedication to public service, **Ms. Rhodora D. Santos, Population Program Officer IV of the Provincial Government of Isabela**, was proclaimed as the **2nd Most Outstanding Provincial Population Officer** during the prestigious **2024 Rafael M. Salas Kaunlarang Pantao Awards (RMSKPA)**.

The awarding ceremonies, held to honor the exemplary efforts of population and development advocates across the country, recognized Ms. Santos for her unwavering commitment, leadership, and contributions to the province’s population and development programs. Her initiatives have significantly enhanced the implementation of sustainable population management, responsible parenthood, adolescent health, and family planning programs in Isabela, positively impacting communities and improving the quality of life of Isabeleños.

The **Rafael M. Salas Kaunlarang Pantao Awards**, named after the first Executive Director of the United Nations Population Fund (UNFPA), is a prestigious national recognition given to outstanding individuals and local government units that have demonstrated excellence in population and development initiatives. Ms. Santos’ achievement highlights Isabela’s commitment to upholding the principles of sustainable development and human welfare through responsive population programs.

Her recognition as the **2nd Outstanding Provincial Population Officer** is not just a personal triumph but also a testament to the Provincial Government of Isabela’s dedication to advancing population and development initiatives for a progressive and inclusive future.

Congratulations, Ms. Rhodora D. Santos, for this well-deserved honor! Your dedication continues to inspire and uplift communities towards a more empowered and sustainable Isabela.

Ms. Rhodora D. Santos, honored as the 2nd Regional Most Outstanding Provincial Population Officer for her exceptional service and dedication to advancing population and development initiatives, alongside CPD Region II Director Ms. Theresa C. Soriano with other recipients of the Rafael M. Salas Kaunlarang Pantao Awards.

Isabela Recognized as Key Health Partner in the 1st Local Health Systems Summit

A significant milestone for public health advancement, the province of Isabela was recognized as a vital health partner by the Cagayan Valley Center for Health Development (CVCHD) during the **1st Local Health Systems Summit**, held under the theme: "**Nagkakaisang Isabela Tungo sa Mas Maunlad na Kalusugan.**"

The summit brought together key stakeholders from the health sector, including local government units, medical professionals, and community health advocates, joining their hands together work collaboratively to strengthen efforts in healthcare systems in the province. The recognition bestowed upon Isabela is a testament to its unwavering commitment to advancing public health programs, enhancing medical services, and ensuring accessible and quality healthcare for every Isabeleño.

Hon. Emmanuel Joselito B. Añes, represented Governor Hon. Rodolfo T. Albano III alongside our Provincial Health Officer II Dr. Nelson O. Paguirigan, in receiving the recognition, reaffirmed the province's dedication to strengthening partnerships with national health agencies and local health units to build a more resilient and inclusive healthcare system.

With the continuous endearing support of the Provincial Government of Isabela, "This recognition is not just an honor but a challenge for us to push forward with greater dedication. Our collective efforts will continue to focus on providing comprehensive and sustainable healthcare solutions for the people of Isabela," Dr. Paguirigan stated.

The 1st Local Health Systems Summit served as a platform for capability building, best practices, policy discussions, and teamwork aimed at enhancing healthcare delivery. With the province's proactive approach and strengthened partnership with CVCHD, Isabela is poised and braced to lead the way in fostering a healthier, more progressive community.

Through continued collaboration and innovative health initiatives, the province remains steadfast in its mission to achieve a "**Nagkakaisang Isabela Tungo sa Mas Maunlad na Kalusugan.**"

Provincial health leaders proudly receiving the plaque of recognition from the CVCHD, celebrating collaboration and dedication to improving community health alongside DOH Undersecretary Dr. Glenn Mathew G. Baggao alongside CVCHD Director Dr. Amelita M. Pangilinan, SP Hon. Joselito Emmanuel B. Añes, Dr. Elsie Pintucan (PDOHO Isabela), DILG Provincial Director Engr. Corazon Toribio, and Mr. Samuel Morillo, LHIO-Santiago City. Mabuhay IPHO! Mabuhay PGI!
