

OFFICE OF THE PROVINCIAL AGRICULTURIST

DECEMBER

MONTH

2021

YEAR

Accomplishment Report

PROGRAM/PROJECT ACTIVITIES	BRIEF DESCRIPTION	ACCOMPLISHMENT
I. RICE DEVELOPMENT PROGRAM AND SERVICES		
a. Seed Assistance Program a.1 Seed Production	DA-PLGU Collaborative Project. Commitment of individual accredited seed growers to provide certified seeds for buffer seed and stocking	As of December 2021, for Wet Season (WS) a total of 256 Local Seed Growers (SG) planted an area of 1675.83 hectares. Out of the area planted there were 52,637 bags (40kg/bag) and 98,072 bags (20kg/bag) were submitted to BPI-NSQCS for Laboratory Analysis. A total of 81,211 bags (20kg/bag) and 43,134 bags (40kg/bag) passed the seed certification.
a.2 Seeds and Fertilizer Assistance Program	An intensified promotion of high-yielding technology through distribution of hybrid rice seeds and inorganic fertilizers.	Consolidated the Updated Data on Seed Distribution. The province had a total allocation of 112,415 Bags of Hybrid Seeds and 10,787 bags of Certified Seeds for DS 2021-2022 and all were distributed to 63,893 and 4864 farmer beneficiaries respectively. In Addition, 58,589 out of the 88,869 approved no. of Farmer Beneficiaries of the Fertilizer Assistance Under National Program of DA, about 58,589 Farmer Beneficiaries had already claimed their fertilizer assistance. As per DA, the Distribution of Fertilizer was extended up march 2022.
b.Technology Demonstration	PLGU Funded. Initiated project of PLGU in collaboration with MLGU Support to Rice Production with goal of "Masaganang Ani Mataas na Kita"	
b.1. Technology Demonstration on Direct Seeded Rice (DSR) in Irrigated Areas	Establishment of Technology Demonstration showcasing Different Type of Crop Establishment through	Established one (1) hectare Technology Demonstration on Mechanized Rice Production at Barangay Nueva Era, Cabatauan, Isabela.

mechanization and also serve as the learning field.

b.1.1. Season-Long Farmers' Field School PLGU Funded. Initiated project of PLGU in collaboration with MLGU a combination of lectures and handson training for farmer-participants to enhance their capacity and farming practices

Conducted Launching of the Season Long Training or Farmers Field School (FFS) and Demonstration of "Dapog technique" of seedling preparation for the mechanical transplanter at Barangay Nueva Era, Cabatauan, Isabela. It was attended by 27 participants composed 15 male and 12 female. The season long training was designed for seed to seed or 4 months training or 16 weeks at once a week (Half Day) from the seed sowing until Harvesting.

c . Weekly Monitoring of Palay Price

Data collection of prevailing price per kilo of palay from the different commercial centers

Dry: 18.14 (Ave.) Wet:14.10 (Ave.) d. Monitoring of
Rice Planting &
Harvesting

Data collection on the status of rice planting and harvesting Area Planted= 107,226.62 ha

Area Harvested= 2,695.92 ha

Production = 11,514.66 mt

Average Yield = 4.27 mt/ha

II. INTERVENING ACTIVITIES

a. Attendance and participation to Meetings/Symposium

To keep abreast of the programs/projects

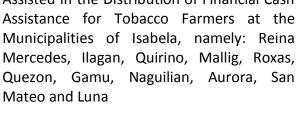

Attended the municipal/city agriculturists meeting at DA-CVRC on December 21, 2021. DA-RF02 discussed the following: RCEF - Rice farmer financial assistance update, seed reserve update, status of seed distribution DS 2021-2022, status of fertilizer discount voucher for WS 2021 and DS 2021-2022 submission. Dr. Marites E. Frogoso Provincial Agriculturist of Isabela also discussed the Farmer's Internship Program (FIP) of PGI with Korean government.

Attended in the Consultative Meeting at BPI NSQCS San Mateo, Isabela. It was attended by the BPI Center Chief, Regional Seed Coordinator of DA RFO2, Provincial Seed Coordinators of Region 2 and Representative from Philrice, Isabela. During the meeting, the Implementation of the DA Circular No.6 which aims to ensure the sufficiency of Registered Seeds (RS) as planting materials to be used for the production of Certified Seeds (CS) in order to cover up the seed requirements for the National Rice Program (NRP) of DA and other programs. Before this Circular, DA-Philrice is the only authorized to produce Registered Seeds, however on the previous year's shortage of planting materials had occurred. Through this DA Circular, the issuance of Special Accreditation to Seed Growers to plant Foundation Seeds to augment the shortage of planting materials for the farmers.

Assisted in the Distribution of Financial Cash

b. Program/Project Coordination and validation

For smooth implementation of program/ project

c. Conduct of Training Good Agricultural Practices

Conducted training of Good Agricultural Practices (GAP) on rice at Barangay Magsaysay, Cordon, Isabela with a total of 25 Farmer Participants with the support of Municipal Agriculturist and their staff. Aside from GAP, technical briefing on Rice Black Bug (RBB) was also done.

d. Conduct Technical Briefing Conducted Technical Briefing on Rice Black Bug (RBB) at the municipality of San Manuel, Aurora, Alicia and Cabatauan, Isabela

Facilitated in the briefing on Installation and Distribution of Fabricated Solar Light Trap at the 13 municipalities with Reported presence and infestation of Rice Black bug (RBB). Breakdown of delivered Light Traps was shown in the table below

Municipality	No. Light Traps (Pcs)	Remarks

C. Sustainable Corn
Production in Sloping
Areas (SCOPSA) cum
Farmers Field School
(FFS)

Technology Demonstration for the control of soil erosion in hilly/sloping areas cultivated to corn with farmers classes through conduct of FFS for the whole dry cropping season 2021 to improve farmers best crop management practices utilizing the SCoPSA Demo as the learning media.

Phase II SCOPSA cum FFS Implementation

Site 1: San Francisco Norte, San Guilllermo, Isabela

Cooperator: Alvin B. Fernandez

Area: 1 ha.
Corn Variety: NK-6410

Planting Crop Stages:
Corn : December 01, 2021 Vegetative
Banana: June 30, 2021 Growing Stage
Pineapple: August 12, 2021 Growing Stage

Site 2: San Pedro, San Mariano, Isabela

Cooperator: Evelyn C. Morallejo

Area: **1 ha.** Corn Variety: **NK-6410**

Planting Crop Stages:
Corn: November 23, 2021 Vegetative
Banana: June 30, 2021 Growing Stage
Pineapple: August 12, 2021 Growing Stage

Farmers Field School (FFS)-Season 2, Dry Cropping Season 2021-2022

Site 1 : Brgy. San Francisco, San Guillermo, Isabela

No. of Participants: 20 corn farmers

FFS Activity : Conducted 1^{st} and 2^{nd} weekly AESA

observation, processing, presentation and

critiquing.

Topics Discussed:

1. Agro-Eco System Analysis (AESA) understanding

2. Soil Sampling and Analysis

3. Seed Selection

4. Natural Enemies (NEs) of corn insect pest

Site 2 : Brgy. San Pedro, San Mariano, Isabela

No. of Participants : 19 corn farmers

FFS Activity : Conducted 1st, 2nd and 3rd weekly AESA

observation, processing, presentation and

critiquing.

Topics Discussed:

1. Agro-Eco System Analysis (AESA) understanding

- 2. Soil Sampling and Analysis
- 3. Seed Selection
- 4. Natural Enemies (NEs) of corn insect pest
- 5. Integrated Nutrient Management (INM)

D. Calamity
Rehabilitation on
Natural Fertilizer AMO
for Marginal Corn
Farmers for Dry Crop
Season 2021-2022

PLGU Funded, provision of Natural Fertilizer (AMO) to the marginalized corn farmers affected by typhoon Ulysses.

RETRIEVAL OF MASTERLIST OF AMO NATURAL FERTILIZERS BY MUNICIPALITY

PROGRAM/PROJECT/ACTIVITY	PROJECT DESCRIPTION	STATUS/REMARKS/ACCOMPLISHMENT
IV. FISHERIES DEVELOPMENT PROGRAM AND SERVICES		
A. Volume of Provincial Fish Production	Consolidation of fish production report from various fishery resources (freshwater and marine)	- Fishpond - 57.024 MT - Fishcage - 6.00 MT - CBWs - 68.712 MT - SWIP - 8.770 MT - Marine - 1.430 MT
Production Support Services 1.1. Fingerling production and dispersal	Operation and management of existing fishery facilities to support the province's requirements for fish stocks (San Pablo Freshwater Fish Farm, San Pablo, Isabela)	 Maintenance of 900 female breeders and 300 male breeders; Rearing of 3,000 juvenile for future breeders; Routinary farm activities such as pond preparation, conditioning and feeding of breeders
1.3. Monitoring of Technology Demonstration Project	To showcase existing and adaptable technologies in fisheries	Stocking of Hito fingerlings to aquaponics project at the Provincial Plant Nursery (activity includes feeding, water quality monitoring and aeration)
1.4. Render technical assistance to fisherfolk and provision of tilapia fingerlings to be stocked in backyard fishponds project	To serve as livelihood assistance to fisherfolk recipients	

B.	Support to other Agri- Fishery Programs and Projects		
	Assist in the distribution of financial assistance for tobacco farmers	To promote economically viable alternatives that are responsive to their needs	No. of Fishery Staff attended - 2
	2. Attendance to Meetings		
	2.1.Attendance to Integrated Fisheries and Aquatic Resources Management Council (IFARMC) Regular Meeting		
			No. of Fishery Staff attended - 3
	2.2. Municipal/City Agriculturists' Meetings	To update issues and concerns in the implementation of Agriculture and Fisheries	No. of Fishery Staff attended – 1
	2.3. Attendance to Virtual Training on the Competencies in Speaking Effectively	- To enhance basic and intermediate competencies in speaking effectively	Introduction of the Subject Matter Expert

CSC DOS ITG - Jay B's s

SERVICES		
Grain Drying Center (IGDC) in Cabagan, San Mariano, and Echague, and Cauayan City, in	Grain Drying facilities operated by the Provincial Government of Isabela to help the farmers to increase the quality and add value for the produced.	✓ On-going installation of Mechanical dryer in IGDC-Cauayan City.
		Conducted status monitoring of mechanical dryers in Cabagan, San Mariano and Echague, Isabela.

PROJECT DESCRIPTION

STATUS/REMARKS/ACCOMPLISHMENT

PROGRAM/PROJECT/ACTIVITY

2. Solar Pump Irrigation Project Nursery 1 & 2 Operation of Solar Powered Irrigation System for HVCC.

Ms Rony Manuel of Solarius said that the warranty of their installed lithium battery is 10 years and the cause of malfunction of the system is system overload.

3. Benchmarking of hydroponics technology in Cauayan City.

The benchmarking aims to determine existing hydroponics technology in the province that can be duplicated by the PGI-OPA.

Cauayan City established an automated solar-powered hydroponics system under greenhouse condition. Different variety of lettuces are currently grown in the system.

RAIN'S BIRD

4. Attended virtual launching of BSWM's ATLAS of Soil-Based Agricultural Guide for Corn and Soil Health Assessment-National Soil Sampling and Testing (SHA-NSST) Google page.

The launching aims to showcase the result of national soil testing spearheaded by BSWM in cooperation with DA-RFOs, PLGUs and LGUs.

The Soil Health Assessment-National Soil Sampling and Testing (SHA-NSST) can be access thru this Google page https://sites.google.com/view/sha-nsst-project-official/home

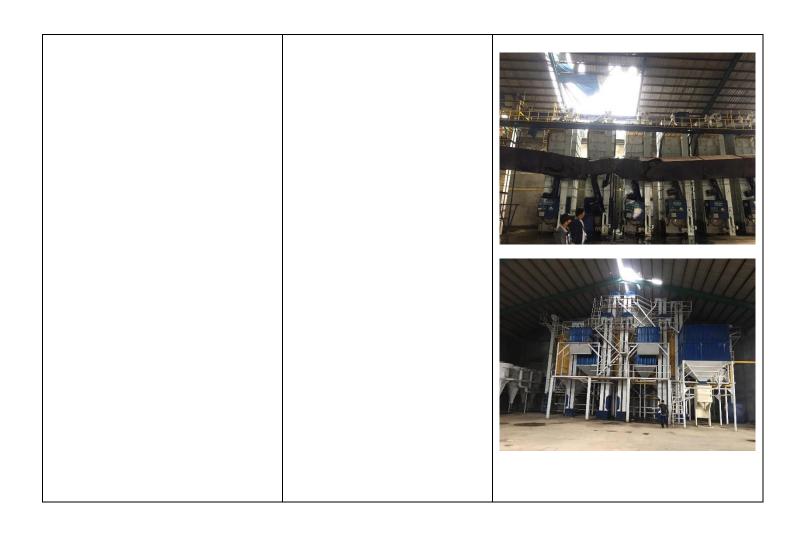

5. Validate and inspect a Land Bank possessed rice processing complex (RPC) in Brgy Ipil, Echague, Isabela together with PhilMech technical engineers. The inspection aims to determine the currently installed facilities of the PRC and to assess its functionality.

The RPC has a complete set of multi-pass rice mill, 4 silos, 16 units 12-tonner recirculating dryer and 3- 15 tonner recirculating dryer. Major rehabilitation is needed for the system to operate again from buildings, wirings and equipment parts.
