In her address, Ms. Cecilia Claire N. Reyes, PESO Manager of Isabela, emphasized the critical role of local institutions in providing sustained support for employment. “Our commitment is to ensure that we create not just jobs but opportunities for growth and development,” she noted. Ms. Reyes also highlighted the importance of continuous collaboration between government agencies, educational institutions, and industries to enhance the employability of Isabela’s workforce.

She also mentioned the trainings and programs established through partnerships between PGI and TESDA, such as Competency Assessment for Technical Vocational Livelihood Students and Industry Workers, two scholarships with Persons deprived of Liberty in the Provincial Jail, Rattan Processing Center in Cabisera 10, an ongoing Community-Based Training across all LGUs of Isabela, etc. These endeavors stand as testament to Governor Rodito T. **A total of 2,488 I-RISE 3 beneficiaries received cash assistance from the PGI.**

The I-RISE 3 Rice Component is a result of the genuine support Governor Rodolfo T. Albano III would like to give to the farmers. The PGI has allocated funds to purchase rice from farmers at a premium price. With this, the dry palay is bought by PGI at P27.00/kg prompting the traders to buy at the same price or higher, resulting to the stability of the price of palay in the province.

From here, the palay brought is milled, packed, and distributed to the various marginalized sectors in Isabela.

Hence, in addition to the cash, **the I-RISE 3 beneficiaries also received a 5kg rice pack**, with the objective of assisting them in this current inflation crisis, given the elevated price of rice.
