“PROGRAM REVIEW FOR BETTER HALTH SERVICE DELIVERY”

Date: February 22-23, 2018

Venue: IPHO

Informative and accessible monitoring of data plays a vital role in planning, implementation and evaluation of health programs. Through the years, one of the activities found to be effective is *Program Implementation Review*, a systematic, objective, impartial, evaluation and self-evaluation strategy to effectively assess a specific health program , as part of the on-going pursuit of higher levels of achievement and in the service of program improvement. Findings shall then be the bases to formulate strategies for future action.

Different health programs under the three (3) Clusters presented its accomplishments, best practices as well as challenges and recommendations wherein practical interventions were crafted to address the issues raised. As dynamic partners, the Provincial DOH Office shared valuable inputs and further extended their supports towards attainment of program standards.

With the dynamism, concerted effort and continued commitment of provincial program managers and the DOH-Region 02 partners, quality and accessible health care will surely be in the hands of every Isabeleno!

The IPHO and the PDOHO teams listen to all the health program presentations

Order of presentation for the 2-day activity by the Administrative Officer

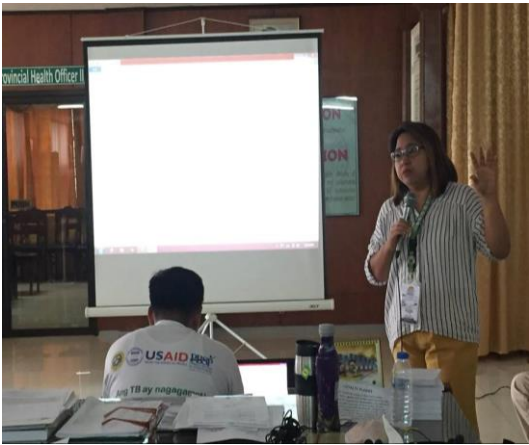

Plenary presentation of accomplishments by different program managers

Review by the Provincial DOH Officers

Presentation of duties, roles and responsibilities of every program manager for better implementation.

“HEART MONTH: MAHALIN ANG PUSONG NAGMAMAHAL”

Date: February 20, 2018

Venue: Capitol Amphitheater, Alibagu, City of Ilagan, Isabela

In Isabela, Hypertension is the number one (1) leading non-communicable disease for the years 2016 and 2017, followed by Diabetes Mellitus and Bronchial Asthma.

Non-communicable diseases (NCDs) mostly affect male and female aged 25 years old and above which results in premature death and disability resulting in high economic and social cost to the individual, his family and to the society in general. The burden of this illness is great, yet major risk factors like smoking, physical inactivity and unhealthy diet is preventable and modifiable.

To reduce the risk, the Provincial Health Office has come up with the **HATAW Dance Competition** in order to promote the *Go Sigla* strategy to reduce NCDs in celebration of Heart Month in close partnership with DOH Regional Office 02 last February 20, 2018. The HATAW Dance Competition's theme is dubbed: “MAHALIN ANG PUSONG NAGMAMAHAL: MAG HEALTHY LIFESTYLE NA!”

The activity aims to increase the awareness of people in the prevention and control of the four (4) major Non-Communicable Diseases or Lifestyle-related Diseases namely: cardiovascular diseases, diabetes mellitus, cancer of all forms, Chronic obstructive pulmonary diseases through physical activity. This was participated in by thirteen (13) contenders from the municipalities of: Luna, Delfin Albano, Benito Soliven, San Mariano, Jones, Cauayan City, City of Ilagan, Echague, Naguilian, San Isidro, Cabagan, Mallig and San Mateo where each showcased their prowess in performing the HATAW moves. The CHAMPION went to the City of Ilagan, 1st runner-up was Cauayan City and the 2nd runner-up was Jones.

In the regional level Dance Competition organized by DOH RO 02 recently held last March 07, 2018, the three municipalities once again performed in high spirits full of grace and dynamism as they were the official entries of the province. With the delight of everyone, the City of Ilagan and Municipality of Jones reaped 1st and 3rd places respectively. Indeed, Isabelenos are truly creative and talented!

The Provincial Administrator, the SP on Health and the Provincial Health Officer II give their all-out support to the conduct of the HATAW activity

As a preliminary activity, a warm-up exercise set the mood during the entire day

The board of judges excitedly smile at the camera during the HATAW launching.

The Association of Municipal Health Officers (AMHOP) of Isabela pose as a show of support to the activity

The different contenders show off their dancing prowess during the actual HATAW competition

FAST RUN FOR FP PROGRAMS IN HOSPITAL

(FOCUSED AND ACCELERATED STRATEGIES TO REDUCE UNMET NEED FOR FP)

Date: February 21-22, 2018

Venue: Crimson Hotel, Filinvest Manila

Collaborating, Learning, Adapting Workshop or the FASTRUN for FP programs in hospital is a parameter that provides basis for determining relative change in FP Hospital Performance from July 2016 to December 2017, thus reflecting hospital's capacity to address FP unmet need.

The activity aims to enable participants reinforce the role and contribution of hospitals in reducing FP unmet need, adapt identified practices that contribute to improving FP service performance in hospitals and lastly to enhance existing plans towards strengthening FP programs in hospitals attended by participants from the provinces of Pangasinan, Isabela, Bulacan, Batangas, Cavite, Laguna, Quezon, Rizal and Oriental Mindoro.

The Isabela team is composed of 5 members: two (2) Doctors and 1 nurse from the Governor Faustino N. Dy Memorial Hospital, one (1) nurse from the IPHO-FHS and the FP Regional Manager. Heart-warming messages were delivered by key DOH players, Dr. Yolanda Oliveros-Development Assistance Specialist, and the Regional Director of DOH RO CALABARZON, Dr. Rio Magpantay.

The plenaries and workshops started with Data utilization for collaboration, learning and adapting, varied implementation of FP in hospital, program challenges, responses to EO 12: the role of hospitals in reducing unmet need for FP, addressing gaps and prioritizing tasks, review of existing plan based on learning and calibrate responses to EO 12 and lastly, presentation of outputs.

With this strategy in place, Family Planning Program will likely to soar high in different hospitals in Isabela!

The Isabela team joined by other delegates from other provinces after the workshop.

*“Ngipin ay Alagaan mula sa sinapupunan para sa Magandang Ngiti
Hanggang katandaan”*

Date: February 2018
Venue: Isabela

The Provincial Government of Isabela through the Provincial Health Office joins the nation in the celebration of the 14th year National Dental Health Month with the theme “Ngiping Inaruga Mula Pagkabata, Malusog na Ngiti Baon sa Pagtanda” spearheaded by its Provincial dentists, Dr. Elena Buduan and Dr. Arsen Benozza. With the evident active partnership with different LGUs, they were joined by Municipal Dentists of Isabela sharing with a common goal to increase the oral health awareness of caregivers among children with special health care needs, adolescents, mothers and as well as would-be mothers.

The program is full of exciting activities with fun-filled lectures promoting dental care and good oral hygiene for the kids and provision of fluoride application to all daycare pupils.

The table below shows the total beneficiaries of the month-long activity.

REACHING ISABELENO FAMILIES FOR ACCESSIBLE HEALTH CARE

Date: February 7, 21 and 28, 2018

Venue: Quirino, Gamu and San Isidro, Isabela

The Provincial Government of Isabela under the excellent leadership of Gov. Faustino “Bojie” G. Dy III and Vice-Governor Antonio “Tony Pet” T. Albano continues the conduct of “**FARMERS CONGRESS-RELOADED**” *cum Medical/Dental Mission* with its mission for the people of Isabela to provide quality care by reaching them in their communities. Along with other various programs, projects and innovations, the best quality of life will be experienced by Isabeleno families.

As a proof, the table below reflects the number of recipients from the health services unselfishly provided by the health team.

Municipality	Health Services Provided		
	Medical	Dental	BRO-LUSOG
QUIRINO	985	75	180
Gamu	803	62	93
San Isidro	700	65	144

SETTING-UP FAMILY PLANNING SERVICES IN THE HOSPITALS

Date: February 7, 2018

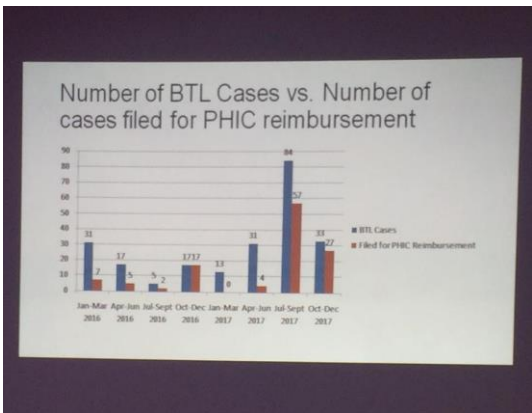

Venue: GFNDY Memorial Hospital, City of Ilagan, Isabela

As part of the government’s campaign on RPRH Law, a two-day Status Assessment on the implementation of Family Planning in GFNDy Memorial hospital was conducted in partnership with our development partner, the LuzonHealth Project and two (2) FP coordinators of the IPHO-Field Health Services..

Among those invited were the Chief of hospital, FP focal person, OB GYNE department chairperson, chief nurse, selected technical staff from OR/DR, OPD, Ward, Pharmacy, Administrative Section and Philhealth pointperson.

The meeting aims to assess the status of implementation of FP service provision in the hospital in terms of setting up FP Services, recording and reporting, identify gaps and remaining challenges in the continuing implementation of FP services, address the identified gaps and remaining challenges and review the Family Planning program in hospital particularly the technical assistance package of the LuzonHealth Project.

With the enhanced family planning services offered thru effective public-private partnership, the goals of RPRH Law will surely come into fruition.

The chief nurse presents the status of FP implementation in GFNDy Memorial Hospital

AREAS/ITEMS	ISSUES and GAPS	CAUSES FOR THE GAPS	ACTION/RECOMMENDATIONS
System and Policy	No Hospital FP Management team	Hospital FP Management Committee not included in the FP Clinic Policies	<ul style="list-style-type: none">Expand the existing FP Client Policies by presenting up with a comprehensive Hospital Orders to include the following:<ul style="list-style-type: none">a. Composition of the Hospital FP Management Team and the Technical Working Group and their functionsb. Process and schedule of FP services like IUD and PPIUDc. Formulation of Work and Financial Plan for Family Planning
PHC Reimbursement	PHC reimbursements for MNC/FP services not insured	Not all clients are PHC members or PHC members but not claimed	<ul style="list-style-type: none">Ensure that all FP clients who are PHC members are claimedClaim on second trimester for post-partum IUD and post-partum IUDIdentify reasons for not claiming cases where all patients are enrolled
Clients for FP services	No/low clients for FP services	Lack of referrals from PHNs	<ul style="list-style-type: none">Establish Interagency Service Delivery Network with referral system
Manpower	Low post-partum Family Planning compared to deliveries	Lack of transdisciplinary service providers to do counseling	<ul style="list-style-type: none">Communicate to the DOH/DO to include nurses and midwives in training courses like FPCEP Level 1 and FPCEP Level 2 (Interval IUD and PPIUD)Endorse to other relevant agencies for FP
	No nurse or midwife assigned to FP exclusively	Lack of manpower	<ul style="list-style-type: none">Train more personnel on FPCEP Level 1, Interval IUD and Post-partum IUD

The LuzonHealth Project partner wraps -up the activity with the presentation of the issues identified and recommendations
