Family Health Cluster

<p><u>Nutrition Program</u></p> <p>Philippine Plan of Action for Nutrition (PPAN) Program Implementation Review (PIR) cum Regional Associations Meeting at Taj Hotel, Tuguegarao City, Cagayan (January 30, 2024)</p>	<p>The NNC Region 02 held a Philippine Plan of Action for Nutrition (PPAN) PIR to reinforce and assess the regional and sub-regional stakeholders to become effective and efficient in nutrition program management (NPM). Member agencies and organizations of the Regional Nutrition Committee (RNC), as well as local government units at the city and provincial levels, were the attendees of the activity.</p>	<p>The province of Isabela was represented by the Nutrition Officers from the Nutrition Office of the Provincial Health Office - Field Health Services headed by Ms. Henedina S. Cabrera, Nutrition Officer IV / Provincial Nutrition Action Officer.</p> <p>Presentation of the Operation Timbang Plus CY 2023 results where the Province of Isabela had the highest prevalence in terms of stunting, wasting, and underweight.</p> <p>Agreements:</p> <ul style="list-style-type: none"> • Submission of eOTP results of municipalities to the provincial nutrition office for consolidation will be from <i>May 5-15, 2024</i>, while submission to the NNN Regional Office will be from <i>June 5-15, 2024</i>. • 2024 Monitoring and Evaluation of Local Level Plan Implementation (MELLPI) is tentatively scheduled on <i>May 6-10, 2024</i>.
<p>Training on Basic Course for Barangay Nutrition Scholars (BNSs) of Jones, Isabela (January 31 to February 1, 2024)</p>	<p>Spearheaded by the Municipal Nutrition Action Office of Jones in coordination with Provincial Nutrition Office of IPHO-FHS to capacitate and enhance the BNSs in effectively delivering nutrition services and other related activities on</p>	<p>Nutrition Officers from the IPHO-FHS as Resource Speakers to the 42 participants (41 BNS, 1 Midwife) who facilitated the workshops, series of lectures, and plenary discussions during the training.</p>

	community health.	
<p><u>National Safe Motherhood Program</u></p> <p>Bantay Buntis sa Bawat Barangay (BBBB): Follow up Session at San Mariano , Isabela (<i>January 5, 2024</i>)</p>	<p>A session attended by the same participants from the recent Bantay Buntis sa Bawat Barangay held last October 2023. This activity is aimed to track the wellness of both the mother and the baby whether the series of lectures and demonstrations conducted were applied.</p>	<p>Facilitated by the program coordinators from the IPHO and RHU San Mariano whose attendees were the same set of participants from the conduct of the regular BBBB.</p> <p>A one-on-one counselling on Family Planning Methods and Breastfeeding were performed. Furthermore, couples who are interested to resume on their studies thru Alternative Learning System (ALTS) were endorsed to the Department of Education. Also, the participants were once again encouraged to enrol to the livelihood trainings provided by TESDA.</p>
<p><u>National Immunization Program</u></p> <p>NIP Supportive Supervision, Monitoring, and Mentoring</p>	<p>To oversee and manage immunization implementation to safeguard public health through the protection of children against the most common vaccine preventable diseases.</p>	<p>The series of monitoring visits was conducted by the NIP Coordinators of IPHO with the guidance and support from the CVCHC and Relief International to the Ten (10) priority LGUs. This collaborative approach helps maintain the program's efficiency and compliance with the national guidelines as well as the implementation of the proposed plans to improve immunization coverage.</p> <p>Findings and Recommendations are as</p>

		<p>follows:</p> <p>San Mateo RHU</p> <ul style="list-style-type: none"> • No local policy yet. <ul style="list-style-type: none"> ➤ To adopt/draft local policy in support of NIP, sample ordinance provided. • Microplan for updating , REP table analysis is Jan-Oct 2023 only <ul style="list-style-type: none"> ➤ <i>Update data analysis to annual accomplishment 2023</i> • Good practices observed: Increased FIC coverage from 57% to 76%; complete TCL data, monthly DQC done by Coor. Decrease in zero-dose children from 440 to 91 in 2023. Cold chain management within guidelines. • No advocacy or outreach activities specific for immunization. <p>Cabatuan RHU</p> <ul style="list-style-type: none"> • Poor cold chain management, ref in use is not recommended; <ul style="list-style-type: none"> ➤ <i>1 TCW 3000 is best used for routine vaccines, transfer all vaccines immediately.</i> • VVM at discard point: 99vls MR, 33 MMR and 3 BCG <ul style="list-style-type: none"> ➤ <i>Observe (First Expiry First Out) FEFO policy, regularly check VVM and reorient midwives on vaccine and cold</i>
--	--	---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

		<p><i>chain management</i></p> <ul style="list-style-type: none"> ➤ <i>To submit Incident Report for wastage vaccines.</i> • Data review does not coincide with submitted data. Incomplete TCL data and not properly filled out, no nutritional assessment; <ul style="list-style-type: none"> ➤ <i>Regular DQC should be done before submission of reports.</i> • Incorrect plotting on immunization monitoring chart <ul style="list-style-type: none"> ➤ <i>For refresher on data recording, reporting and analysis.</i> <p>Aurora RHU</p> <ul style="list-style-type: none"> • Good points observed: weekly Brgy. Day, local policy for Bakuna Champions (2022); detailed contingency plan posted, well accomplished immunization monitoring chart posted, compiled accomplishment reports, policies and guidelines; 100% utilization HPV vaccines. • TCL review, incomplete data: Nutrition and other age groups <ul style="list-style-type: none"> ➤ <i>To accomplish nutritional assessment in TCL, indicate remarks if trans out so as not to be counted as defaulter or missed</i>
