**MONTHLY REPORT**

For the month of March 2021, the Lingap Center continuously assisted the twenty two (22) children under their custody. These children are protected guided and provided with the different programs and services of the center on Homelife Services, Educational Assistance, Spiritual Enhancement and Values Inculcation, Psychological Assistance, Medical and Dental Services, Recreational and Socio Cultural Activities and Case Management geared towards the children's total development.

During this time of pandemic that the children are learning through modular basis, the center staffs assist the children in their reading their modules, answering the questions in their modules and in accomplishing their summative test. It is an added task as not all children can read and write. The center staff also guide the children in taking their daily vitamins as one way of combating the virus and boosting their immune system.

Every Friday, the Houseparent on duty conduct Homelife meeting to the children as way of discussing issues on their task as well as the children's attitude toward staff and co-children.
