## ***EXECUTIVE SUMMARY***

*Para sa Diyos. Para sa Bayan. Para sa Kabataan.*

For the Provincial Government of Isabela, especially for its leaders, Governor Rodolfo T. Albano III and Vice Governor Faustino G. Dy III, being of service to the youth and the community is parallel to serving the almighty, hence the mantra, '*Para sa Diyos. Para sa Bayan. Para sa Kabataan.*'

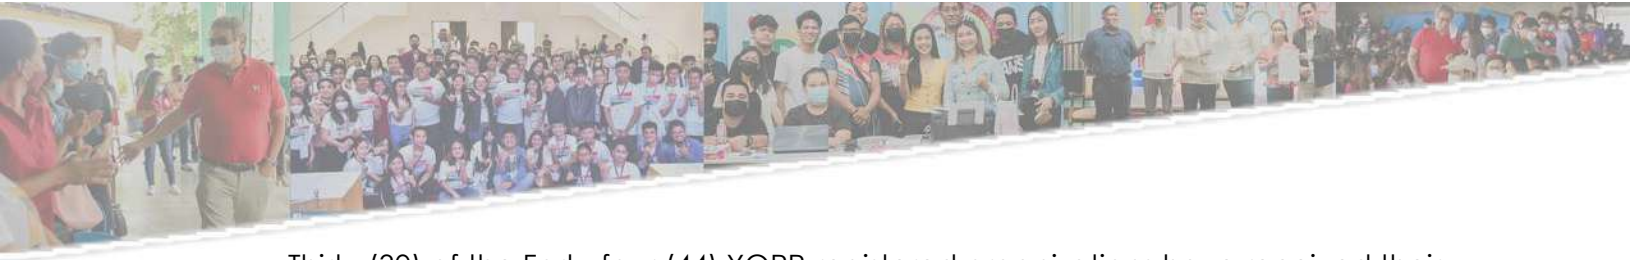

The year 2022, more than anything else, has been a transition year for almost all aspects of governance after over two years of being in a constant compliance to strict health protocols – a gradual shift back to how things were before the pandemic.

With a firm goal of reviving the strong sense of community among the Isabeleño Youth, the provincial government, through the Provincial Youth Development Office and the Office of the Sangguniang Kabataan Provincial Federation President, guaranteed that 2022 shall be marked as a year of meaningful comeback and breakthroughs for the *Kabataang Isabeleños*.

True to this, the PGI, through its scholarship program – the Bojie-Rodito Opportunities (BRO) for Education, has set a notable record of number of scholars when it opened the application for the 1<sup>st</sup> Semester of 2021-2022 with a total of 31,809 scholars amounting to Php 100,572,000.00 for one semester alone. From the immense distribution of BRO for Education allowances to various Cities/Municipalities for Academic Years 2020-2021 and 2021-2022, to the successful reorganization of a more active and equipped Lider ni BRO (LiBRO) Organization, it has been apparent how the Governor and the Vice Governor of the province give priority and regard to education as the most effective way to alleviate poverty in the least privileged Isabeleño families.

Committed to live up to the mandates of the law and to the youth development priorities of the provincial government, the PYDO is in constant effort to register Youth and Youth-Serving Organizations to the Youth Organization Registration Program. This year, it has recorded 44 registered Youth and Youth-Serving Organizations with more on process and are waiting for verification from the National Youth Commission.

Thirty (30) of the Forty-four (44) YORP-registered organizations have received their Development Incentives for Thriving Organizations of Youth in Isabela or DITOIY Isabela – a project grant from the provincial government aimed at helping youth organizations pursue their planned activities provided that the proposals be submitted on a prescribed date and time.

Truly a year of breakthroughs for the Kabataang Isabeleños, last July 2022, the province of Isabela, among the provinces in the Region, has been selected to host the 13<sup>th</sup> National Youth Parliament Regional Assembly for Region II – a strong manifestation of the national government's recognition of the provincial government genuine feat to champion youth development.

Missed by all Kabataang Isabeleños, two of the biggest, most awaited, and momentous gathering of the youth – which are also specified in the Provincial Youth Development Plan – came back this year with more advocacies and deeper value to youth participation. For the first time since the pandemic, the Buwan ng Kabataan and International Youth Day was celebrated with physical interactions among the youth through engaging and meaningful activities.

The Provincial Youth Summit, which the Isabeleño youth longed for the past two years, finally happened this year. Dubbed as *Provincial Youth Summit 5.0 Hiraya ng mga Bata at Kabataang Isabeleño* is one of the most celebrated youth development activities for 2022. Measured by the successful crafting of the new Provincial Youth Development Plan for the next three years (2023-2025), PYS 5.0 is considered a breakthrough for the Isabeleño Youth and the provincial government as it speaks volume of the trust and confidence the PGI puts to the Kabataang Isabeleños providing them a more than efficient opportunity to be part of local governance.

Beyond the major annual activities, the PYDO has also extended Technical Assistance to Sangguniang Kabataans, to Local Youth Development Officers, to Local Youth Development Councils and its members, and to YORP-Registered Youth and Youth-Serving Organizations.

Mandated to serve as the Secretariat to the Provincial Youth Development Council, the PYDO has successfully convened the PYDC in four regular quarterly meetings and has guided and supported the Council in achieving yet another breakthrough – the launching of the first-in-the-region Council NAGKAISA – Provincial Youth Development Council Handbook and Operations Manual.

Victory after another, PGI once again proved its prowess as a true champion of youth development as it has always had for the past years. Found in this book are few of the previous *hirayas* of the youth which the provincial government has fulfilled and will continue to uphold, *mula sa Kabataang Isabeleño, para sa Kabataang Isabeleño*.

## II. PROJECT RATIONALE

The Lider ni BRO or LIBRO Provincial Federation is a duly recognized and registered youth organization under the Youth Organization Registration Programs of both the Provincial Government of Isabela and the National Youth Commission. Composed of Bojie-Rodito Opportunities for Education or BRO-Ed provincial scholars, LIBRO Federation has long been an effective and operative partner of the provincial government in most of its successful programs and activities.

Since 2016, Lider ni BRO, as an organization, has not only served as an active conduit of the provincial government in conveying vital and reliable information, but has also been keenly united with the local government as it thrives to achieve its plans, goals, and aspirations for the Isabeleño people.

The major feat of the 1 Million Trees in One Day Tree Planting Activity in 2019, as well as the resounding success of the iRan for Taal in early 2020, were only but two of the many programs of the provincial government with the massive participation of LIBRO Organization, along with largely all BRO for Education Scholars – projects which turned to be a huge accomplishment not just of the provincial government, but of the Isabeleño Youth.

Fundamentally, the Lider ni BRO was formed as a fulfillment of the provincial government's resolute promise to champion youth empowerment in the province by recognizing that the youth are not just mere beneficiaries of local government programs, but are, in fact, vital actors in achieving genuine and effective governance.

Through a leadership program focused on capacitating LIBRO Officers to be more decisive and critical, the provincial government envisions a more informed, progressive, and articulate youth who can lead and mobilize more Kabataang Isabeleños to be active in community development and committed to further involve themselves in local governance.

## III. PROJECT GOALS AND OBJECTIVES

The Lider ni BRO Capacity-Building and Election of Federation Officers intends to provide an opportunity for the scholars to actually be a part of the provincial government's channels in achieving its goals, that is, by establishing among them their roles and inherent responsibilities as both leaders and cohorts of the local government.

Specifically, it aims to:

1. Organize and strengthen the Lider ni BRO Provincial Federation as a conduit organization of the provincial government.
2. Foster among the provincial scholars a sense of having civic responsibility by being rightfully informed and holistically literate.
3. Cultivate among the LIBRO Officers the characters and dispositions of a young leader able to influence and mobilize more youth into becoming more informed and responsible individuals.

## IV. PROJECT COMPONENTS

### A. Voters Education and Social Media Literacy

With the era of digital influence where information, data, news, and current events are primarily and largely disseminated through digital and virtual platforms, and where invalidated and illegitimate sources can easily and readily distribute unverified materials, the youth, more than ever, shall lead a more discerning and critical generation.

*Para sa Kabataang Isabeleño*

Beyond the fear of being uninformed, a more dangerous threat is now being posed to being misinformed and the likelihood of spreading such misinformation – which is what social media, and the irresponsible use of it, can extensively cause

Recognizing that social media and digital platforms are being exhausted at the height of campaign for the national elections, the provincial government deemed it necessary to initiate a social media literacy campaign, while educating the public, particularly the youth, on their rights and responsibilities as voters. The LIBRO Federation, having the potential to influence more youth and scholars within their communities, shall be the first group and organization targeted for the campaign.

Focusing on the responsible use of social media and a critical reception of all information spread and disseminated throughout digital platforms, lectures and a workshop on voters education and social media literacy shall be the highlight of the LIBRO Capacity-Building and Leadership Program.

#### **B. Election and Oath-taking of Federation Officers**

Another highlight of the program is the election of a new set of officers of the LIBRO Provincial Federation whose president shall have a seat at the Council NAGKAISA – Provincial Youth Development Council – the primary policy-making Council for the youth and by the youth of Isabela, as mandated under RA 10742 or the SK Reform Act of 2015.

#### **C. Beneficiaries of the Program**

All 288 City and Municipal LIBRO Officers shall convene for a Leadership and Capacity-Building and the election of its Federation Officers.

**ACTIVITY :** **ACCEPTED AND EVALUATED SCHOLARSHIP APPLICATIONS**  
**FOR 1<sup>ST</sup> SEMESTER OF ACADEMIC YEAR 2022-2023**

**DATE/S :** August 12, 2023 – September 17, 2023

**VENUE :** Provincial Youth Development Office

**OBJECTIVES :**

To accept and evaluate scholarship applications for the first semester of Academic Year 2022-2023.

**ACTUAL ACCOMPLISHMENT**

The Provincial Government of Isabela, through the Provincial Youth Development Office, has opened the scholarship application for the 1<sup>st</sup> Semester of Academic Year 2022-2023 last August 12, 2022 alongside the International Youth Day Celebration.

Application lasted until September 17, 2022 with five extension offices, aside from the PYDO, open to accept application. Extension Offices are located in the following City/Municipalities:

- 1. Jones Extension Office
- 2. Echague Extension Office
- 3. Cauayan Extension Office
- 4. San Pablo Extension Office
- 5. Cabagan Municipal Hall

From the previous ease of doing the application process due to the restrictions of the pandemic, the scholarship coordinators have gradually shifted back to the conventional way of how the application was done pre-pandemic, that is, without compromising the safety standards and health protocols set by the authorities.

Two years into the pandemic, BRO for Education had been exclusively conducting the scholarship application via online. This year, the provincial government brought back the personal/face-to-face orientation and interview during the submission of requirements which was not present for the past two years of online application with the premise that applicants have accomplished the online pre-application prior to the in-person submission of requirements and interview.

After the scheduled submission of applications, extension offices then started submitting forms to the PYDO for sorting and evaluation. Forms were further assessed and sorted per City/Municipality. The Office recorded a total of **38, 416 applications**.

## II. PROJECT RATIONALE

As provided for by Section 13 of Republic Act 8044, otherwise known as the "Youth in Nation Building Act of 1995," a **Parliament of Youth Leaders** -- "a biennial gathering of youth leaders and youth sector representatives from all over the country" -- shall convene "at the call of the National Youth Commission" to discuss and draft policy recommendations in the form of proceedings or resolutions addressing issues concerning and affecting the youth. These proposed policies or resolutions shall be presented and handed over to the National Youth Commission for proper lobbying.

RA 8044 further states that the delegates to the Youth Parliament shall be "chosen by the [National Youth] Commission taking into consideration equal and geographical representation among men and women" with parliamentary procedures and policy formulation skills.

Pursuant to this, the National Youth Commission, in the **13<sup>th</sup> Parliament of Youth Leaders**, will be implementing a **clustered regional and national assembly** where representatives to the National Youth Parliament shall be elected, and thus producing more localized, dynamic, and inclusive participation and policy recommendations.

As affirmed from the National Youth Commission project plan on the 13<sup>th</sup> NYP, the heart of the discussion and identification of youth issues shall be the Philippines Youth Development Plan Nine Centers of Meaningful Participation:

1. Health;
2. Education;
3. Environment;
4. Economic Empowerment;
5. Global Mobility;
6. Peace-building and Security;
7. Governance;
8. Active Citizenship; and,
9. Social Inclusion and equity.

Recognizing the dynamic support of the Provincial Government of Isabela to Youth Development, the National Youth Commission, through Commissioner-at-Large and Chairperson Laurence Anthony D. Diestro requests the Honorable Governor Rodolfo T. Albano III to implement and host the NYP Regional Assembly for Region II in the province of Isabela – to which the Hon. Rodolfo Albano III humbly and eagerly accepted and acknowledged.

Through the **13<sup>th</sup> National Youth Parliament Regional Assembly**, not only will more youth be able to participate and recommend localized policies, but more so, the provincial government shall be able to showcase the province's successful youth development agenda and other best practices.

## II. PROJECT RATIONALE

The Sangguniang Kabataan Reform Act of 2015, or RA 10742, enacted to strengthen the SK and its functions, provides the mandatory celebration of the Linggo ng Kabataan where the International Youth Day, August 12, lies.

In adherence to the provisions and mandates of the law, and as a genuine champion of youth empowerment and development, the Provincial Government of Isabela created the Provincial Youth Development Office and the Council NAGKAISA – Provincial Youth Development Council which spearheads the celebration of the Linggo ng Kabataan in close collaboration with the Office of the Sangguniang Kabataan Panlalawigan Pederasyon President.

In recognition of the endless potentials of the youth and in ensuring their welfare and utmost interest, instead of a week-long celebration, the provincial government has always observed and celebrated the vitality and vibrance of the Kabataang Isabeleños with an entire Buwan ng Kabataan alongside the celebration of the International Youth Day.

This year's Buwan ng Kabataan and International Youth Day is the first in more than two years of being in a pandemic that the Isabeleño Youth are going to gather and celebrate in a less restricted and restraint setting.

## II. PROJECT RATIONALE

One of the salient provisions under RA 10742, otherwise known as the SK Reform Act of 2015, is the formulation, implementation and monitoring of a Local Youth Development Plan (LYDP) in all Provincial, City, and Municipal Local Government Units. Correspondingly, RA 10742 states that the Youth Development Plan of every LGU shall be initially drafted and finalized by the Sangguniang Kabataan Pederasyon and the Local Youth Development Council (LYDC).

The Youth Development Council, created under RA 10742, is headed by the SK Pederasyon President and composed of representatives from Youth and Youth-Serving Organizations in the Provincial, City, and Municipal level. Generally mandated to "ensure wide and multi-sectoral youth participation in local governance," the IRR of RA 10742 also makes the Council responsible for the finalization of "the three (3) year LYDP... anchored in the [Philippine Youth Development Plan] and the development plans of the local government units."

Conversely, the Local Youth Development Office (LYDO), as the Secretariat of the Youth Development Council, is mandated under RA 10742 IRR to "provide technical assistance to the LYDC... in the formulation of the LYDP." The Provincial, City, and Municipal Local Youth Development Office also helps the Council in the monitoring and evaluation of the implementation of the LYDP.

The NYC Guidelines on Local Youth Development Planning, Comprehensive Barangay Youth Development Planning, and Annual Barangay Youth Development Programming reiterated important provisions of RA 10742 and its IRR in relation to the formulation of the LYDP and other prescribed plans from the Sangguniang Kabataan in the barangay. Specifically, the Guidelines reaffirmed that the "Plan shall give priority to programs, projects, and activities that will promote and ensure the following: 1) meaningful youth participation in nation-building; 2) sustainable youth development and empowerment; 3) equitable access to quality education; 4) environmental protection; 5) climate change adaptation; 6) disaster risk reduction and resiliency; 7) youth employment and livelihood; 8) health and anti-drug abuse; 9) gender sensitivity; 10) social protection; and, 11) capability-building and sports development."

In compliance to RA 10742 and the Guidelines set forth by the National Youth Commission and the DILG, the Provincial Government of Isabela prides itself as one of the few first LGUs to have a three-year Provincial Youth Development Plan approved by the Provincial Local Sanggunian and funded under the Office of the Local Chief Executive.

The existing Provincial Youth Development Plan 2020-2022 is yearly prioritized through the Annual Youth Development Action Plan (AYDAP) which is incorporated in the Annual Investment Plan (AIP) of the provincial government. However, the three-year Youth Development Plan of the province is about to expire this year, which requires the SK Federation and Council NAGKAISA – Provincial Youth Development Council to again convene in plenary to plan, craft, and adopt the Isabela Provincial Youth Development Plan for the next three years.

This year's Provincial Youth Summit is themed "HIRAYA para sa BATA at KABATAANG ISABELEÑO." HIRAYA, an ancient Filipino word for "fruit of one's dreams, wishes, and aspirations," is incorporated in the Council NAGKAISA – PYDC Operations Manual and Handbook as an Annual Action Planning event.

## INTRODUCTION:

By the virtue of Executive Order No. 7 SERIES OF 2022 issued by Provincial Governor Hon. Rodolfo T. Albano III on June 25, 2022, the Lider ni BRO Cabagan Chapter as one of the active youth organizations of the province participated in the 9th Year of "TODAS DENGUE TODO NA'TO : IKA SIYAM NA KAGAT" on June 26, Saturday. The activity was in accordance with the National Disaster Consciousness Month and aims to flatten the curve of rising Dengue Cases here in Isabela with 4 Fatalities already recorded as of the moment.

The officers met at 7 a.m. at Casibarag Norte Cabagan Isabela, one of the barangays where instances of dengue have been reported. People are more susceptible to catching the disease in the barangay's canal and estero, thus this is the location they have chosen to clean. They removed the trash, particularly plastics that had accumulated in the canal and served as mosquito breeding grounds.

Additionally, the officers pruned nearby shrubs, pulled long grasses, trimmed plants, and cleaned the route where the majority of residents passed. Given the nature of shrubs and grasses, mosquitoes rest and linger in these areas throughout the day. Additionally, they removed branches and trees that obstructed the flow of water in the nearby canal. In addition, they collected trash from the surrounding area, piled it in a sack and dropped it in the barangay's compost pit.

They also volunteered to assist the teachers at Casibarag Elementary School in cleaning the classroom's surroundings, since the school has already began limited face-to-face classes and the students must be safeguarded from contracting dengue. Officers removed the leaves, seeds, and trash from the location. Additionally, they removed the water that had collected inside the tires and other plastic containers. They also assisted the instructors in cleaning their classrooms in preparation for the classes of primary children. The teachers are extremely grateful of the officers' assistance. The officers of Lider ni BRO CABAGAN are also grateful for their involvement in the aforementioned activities. One of the organization's objectives is to help the community and support the province's activities, and they are pleased to be a part of the 9th year of "TODAS DENGUE TODO NA'TO: IKA SIYAM NA KAGAT."

As we all know, Dengue fever is a mosquito-borne tropical disease caused by the dengue virus and it is expeditiously spreading viral vector-borne disease nationwide. In the absence of an effective vaccine that protects humans from dengue, it is too good to be true that, "Prevention is better than cure." Cleanliness helps us to remain refreshed and alive. Further, it reduces the chances of any viruses or bacteria harming us. When you stay clean and keep the environment clean, you're less likely to fall ill. You'll appreciate good health and lead a dynamic way of life.

With that being said, some individuals and members of BRO Scholars (Ilagan} headed by the Lider ni BRO officers (LIBRO) took part in the program imposed by our adored provincial governor and did a few moderating measures to flatten the rising stigma of dengue. We participated in this program in a way that we didn't go outside our place, we, the officers, thought that it is better to start it in our own respective homes, plus we also take into consideration that the threat of COVID is still present. We participated and fulfilled the goals of the said program without going outside our homes. The accomplished activities; cleaning our domestic backyards, expelling superfluous things, removing stagnant water which contributed the foremost to the generation of mosquitoes, the search, and annihilation of conceivable breeding sites of mosquitoes, and the cleaning of open and private spaces. Some officers and scholars opted to clean along the thruway which may well be one of the elude stations of the mosquitoes due to the plastics filled with water after an overwhelming rain.

We, as the Lider ni Bro (Ilagan), will always carry the enthusiasm to execute such obligations for the betterment of our community. We aim to come up with a clean environment, free of mosquitoes, and a facilitative environment for the community. The success of the said activities and program is all thanks to the BRO scholars, individuals, and especial y the LIBRO officers who volunteered to join and participate in the clean-up program.

The institution of the school is in charge of developing each learner into a responsible individual within the boundaries of the school, the community, and beyond. This is where one crafted into a highly desirable person, who will serve as effective agents and leaders for political, social, economic development, and the environmental preservation of the community and most especially our country. In line with this, educators believe that environment plays a vital role in students' learning process. So, if classrooms are not conducive to learning because of poor condition and have some defected facilities and infrastructures, quality education is hindered and will not be achieved. That is why Brigada Eskwela was created to cater the needs of the school as classes prior to start.

Consequently, the Department of Education annually runs a program called Brigada Eskwela to encourage people to get involved and donate their time, energy, and resources to help get schools ready for the next school year. So, in connection to Governor's Memorandum No. 20, s. 2022, NYC Advisory NO. 009-202, DILG Provincial Office Memorandum, and PYDO Advisory, we, the Lider ni BRO (LiBRO) Delfin Albano Chapter are immensely grateful to be part of the simultaneous conduct of Brigada Eskwela that took place this August 06, 2022 with the theme, "Brigada Eskwela: Tugon sa Hamon ng Ligtas na Balik Aral." It was participated by all SK's (Federation Presidents, Chairpersons and Officials), all PYDC and LYDC members and officers, all YORP member-organizations, stakeholders, teachers, parents, students, Men in uniforms, youth leaders, and of course all Lider ni BRO and BRO scholars.

For this year's Brigada Eskwela, the LiBRO Officers have participated and helped two public schools within the municipality. On our first day, early in the morning of August 04, teachers, students, parents, PNP Personnel, and of course we the LiBRO Officers arrived at the Ragan Sur National High School and

started the movement. Some were assigned to cut the branches of the trees that were obstacle to some classrooms and pathway. Some also assigned to swept off the grass and eliminate the unnecessary waste and put it in the compost pit. After we finished our first task, a certain teacher inducted as to clean the chairs by removing some spider webs and dust. After we cleaned it, we carried the chairs and put it into the assigned classrooms where students used it as they begin with their limited face-to-face class. It was a tiring day that time but it was fulfilling at the same time because we are able to help the school to the extent of our capabilities. We were also given free snacks by the school principal while taking our rest after we take our part in the school. This is the activity that we did in the first school. On August 06, 2022, this is our second day of engaging ourselves in the Brigada Eskwela. For this day, we helped the community of San Antonio National High School and it was participated by several BRO Scholars within Delfin Albano. Same through with what we did in the first school, we eliminate the tall grasses. We swept the floor to eliminate the fallen leaves in the ground. After which, we put all the grasses and leaves in the compost pit area. Again, it was a tiring day but being an officer, it is your job to serve your community to the best you can and we were happy because we were able to help our fellow Delfin Albanians with no hesitation. Through the overwhelming support of the volunteers, parents, and the PNP Personnel, the area of the schools are restructured and spruced up.

We, the LiBRO Officers of Delfin Albano Chapter were determined to support and participate this year's Brigada Eskwela because we believe that it saves sources on the part of the school, it builds and enhances unity and camaraderie to all stakeholders where their cooperation among them develops, and most especially it a formal training to be responsible citizen in our own work field in the future.

Studies revealed that there is a significant relationship between the school environment and the students' performance. Hence, a conducive learning environment helps students pay attention and concentrate better, facilitates meaningful learning experiences, boosts student achievement, and inspires them to study to the best of their abilities. In addition to these, a good learning environment promotes students' ability to control their emotions and behaviors, as well as their attention span and level of anxiety.

Anent to this, Republic Act No. 8525, which was passed during the administration of President Ramos, served as the foundation for Brigada Eskwela. This National Schools Maintenance Week, commonly known as Brigada Eskwela or School Brigade, is a voluntary statewide initiative that was first started in 2003. A Department of Education (DepEd) initiative that seeks to close the department's resource gaps by fortifying relationships with the neighborhood communities. Moreover, Brigada Eskwela as a school maintenance program that enlists the help of all education stakeholders, ensures that public schools are ready for use in time for the start of classes. Hence, thousands of parents, alumni, community groups, local businesses, non-governmental organizations, teachers, students, and other volunteers are mobilized and brought together by the program to clean, maintain, and repair classrooms at public elementary and secondary schools.

Although for the past 2 years, schools were closed caused by COVID-19 pandemic and have impacted more than thousand students in our country. Since the virus continuously intensified, a shift from face-to-face classes to virtual classes has occurred. However, good thing that earlier this year, the number of COVID-19 cases in the country— Philippines continuously declining, thus more and more schools are announcing the resumption of limited face-to-face classes after more than two

And with regards to this news, the DepEd is planning to switch from online classes to traditional face-to-face classes coupled with strict health protocol observations this upcoming school year 2022-2023 for the safety and welfare of the students and teachers.

Subsequently, as a call of duty and responsibilities as concern Filipinos as well as Bodjie-Rodito Opportunities (BRO) for Education scholars, the Lider ni BRO Officers along with the cooperative BRO scholars collectively and collaboratively participate in the Brigada Eskwela 2022 with the theme— “Tugon sa Hamon ng Ligas na Balik-Aral,” at Buenaventura G. Masigan National High School on August 6, 2022.

With this simple volunteerism in pulling-off of the tall grasses on the school field, cleaning as well as sweeping the school pathway and ‘Gulayan sa Paaralan’, the BRO officers and scholars hope that the students and teaching and non-teaching staffs of the said school will have a safe, clean and conducive learning environment for this upcoming academic year towards the full potential of the students as nation builders of the Philippines.

Indeed, this Brigada Eskwela is a striking illustration of the Filipino idea of unity and volunteerism. It paints a picture of how important volunteerism is to the majority of Filipinos, particularly to those who want to advance and enhance the country's public school system.

(Narrative Report)**

Cleanliness is one of the essential factor to make the opening of school year possible. It will make school presentable and adoptable to learning.

Connectively, the Provincial School Board in partnership with the Provincial Government of Isabela, FP, the Philippine Army PNP, Liga ng mga Barangay, Sangguniang Kabataan, parents, teachers, the community and other stakeholders conducted a multi-sectoral, traditional Brigada Eskwela .

As a dignified member of BRO Scholars, we, the BRO scholars of the Municipality of Tumaui under the leadership of the Lider ni BRO officers (LIBRO) participated the said program. Under this program, we are obliged to participate in clean up drive to school.

This program was participated by parents, teachers, students, and we the scholars that were gathered and worked together to ensure the cleanliness of school. Each scholar, particularly the leaders was given an area to clean. With the help of the faculty and staff of Tumaui National High School and Tumaui Stand-Alone Senior High School who selflessly devoted their time, this program would no be possible without their support. Moreover, the commendable actions of the BRO Scholars with the parents and teachers added primarily to the success of the activity. And everyone who supported this worthwhile activity made sure that Tumaui will continue its effort to maintain cleanliness and make the environment free from any disease.

Lastly, this volunteer opportunity allowed us to broaden our responsibility as a BRO Scholars in injecting ourselves to the different aspects of life. This change increased our flexibility and intentions to do something that set to be beneficial not just for ourselves, but to the community especially. That through this program, our experiences help us to build our character and leadership skills, transforming us into more responsible and dedicated scholars of the present generation. Overall, the opportunity granted us a chance to broaden our horizons.

**I. INTRODUCTION**

The school is an institution which is responsible in molding the learners into a responsible individual in the society. This is where one is crafted into a better person, who will be an emblem of the kind of learning center where one was raised. However, the COVID-19 pandemic has dramatically changed the students' learning environment in which within the two academic years, the students engage in distance learning – a method of studying in which classes are conducted by correspondence over the internet, without the student's needing to attend a school.

The Department of Education announced the limited face to face classes starting on August 22, 2022 and the possible full blown classes starting on early November of this year.

Thus, in preparation for the incoming School Year 2022- 2023, the Department of Education launched this year's national "Brigada Eskwela" last August 01, 2022.

In connection, the National Youth Commission (NYC) strongly supports the Department of Education in the implementation of the 2022 **Brigada Eskwela** with the theme "**Brigada Eskwela: Tugon sa Hamon ng Ligtas na Balik Aral**" happening this August 1- 26, 2022.

In correspondence with the National Youth Commission advisory No. 009 of 2022. The Provincial Government of Isabela led by the Provincial Youth Development (PYDO) enjoins the **Lider ni BRO officers, BRO Scholars and SK Leaders** to participate in Brigada Eskwela in their respective municipalities.

United Nations says that Through active participation, young people are empowered to play a vital role in their own development as well as in that of their communities, helping them to learn vital life skills, develop knowledge on human rights and citizenship, and to promote positive civic action.

It is widely known in the Philippines that volunteerism or an act of volunteering is one of the positive traits of every Filipino. Honorable Mayor Timoteo Galanza, 510 and teachers of their respective schools, our Sangguniang kabataan contributes a lot in the success of the Brigada Eskwela.

At last, the success of this youth participation became key to finally welcome again teachers and students in their respective schools with security in terms of "banta ng dengue", a major problem of the province of Isabela and an organized and clean place for them. We, the youth should maintain our active participation in our community and always keep our burning desire for volunteerism because we are not just leaders but we are a contributor to make this country a better place for everyone.

## "BRIGADA ESKWELA: Tugon sa Hamon ng Ligtas na Balik Aral" (Narrative Report)

The COVID-19 pandemic posed numerous challenges that made it difficult for students to return to their actual school. The sudden announcement of face-to-face learning has caused discomfort and concern among students, parents, and teachers. Fortunately, the Department of Education has launched Brigada Eskwela as part of its commitment to ensure that education should continue despite the challenges brought about by the coronavirus disease (COVID-19). The stated activity aims to promote the need for strategic and healthy partnerships among education stakeholders and partners for the safe return of schoolchildren to in-person classes on August 22, 2022.

On August 06, 2022, at exactly 7 am, the BRO scholars of the Municipality of Palanan and BRO officers, together with the teaching and non-teaching staff of Palanan School of Agriculture and Trades (PSAT), volunteers and parents, participated in the Department of Education's Brigada 'Eskwela 2022 with this year's theme "Brigada Eskwela: Tugon sa Hamon ng Ligtas na Balik-Aral" held at Palanan School of Agriculture and Trades, Dicabisagan West, Palanan, Isabela.

In order to get the school ready for the start of classes, the environment was cleaned; the buildings were inspected and painted; chairs and tables were fixed; leaky roofs were replaced; and the gardens and surrounding areas were spruced up. Parents are pleased, excited, and eager to offer all the assistance they can to make sure the school is prepared and conducive to learning.

Brigada Eskwela would create a safe learning environment for the learners, teaching and non-teaching personnel, and community for the achievement of quality basic education. The activity ended at exactly 12 pm. All thanks to all the volunteers, teachers, parents, and BRO-scholars who ensured that the school is ready for the resumption of face-to-face classes. We would like to extend our heartfelt appreciation to

the faculty and staff of Palanan School of Agriculture and Trades (PSAT) for welcoming and joining us in the annual Brigada Eskwela. We hope that by doing our simple part, we will inspire others to take part in this activity and future activities. We developed good rapport with parents and teachers through our coordination with them. We also developed our leadership. We, the Libro officers want to learn how to be effective leaders in every chance we can, we want to help the school and the community in every possible way, in our simple way.

Together, let us look forward to another school year with a sense of hope and a positive mindset for a better class experience. Indeed, the COVID-19 can't stop the students from learning.

The Department of Education (DepEd) officially launches the Brigada Eskwela 2022 with a theme, "Tugon sa Hamon ng Ligtas na Balik-Aral," last August 2, 2022. The said program will run until August 26. Brigada Eskwela is a full-blown program that focuses on delivering access to education, hence, being conducted weeks before the class resumes by cleaning and repairing.

With that, in participation in the nationwide program, and by the Provincial Youth Development Office of Isabela ordering youth organizations to coordinate, the Lider ni BRO Angadanan Chapter cooperated for the preparation of the re-opening of classes for the school year 2022-2023. This participation in the Brigada Eskwela 2022 assures safety among the students, faculty, and community while aiming for the best quality of education for the students.

In an online meeting thru Facebook Messenger, LIBRO officers of the Angadanan chapter decided to partake in the activity by attending the clean-up drive in their respective barangays last Saturday, August 6 with the coordination of the school faculty, Sanggunian ng Kabataan Officers, and barangay officials. Aside from cleaning the yards and gardening, redecorating the classroom into a conducive yet safe learning area for students is also conducted. This was done by providing posters of safety, precautionary measures, and guidelines, improving hand washing areas and disinfecting rooms and offices. In this way, the preparedness of the school in re-opening class this year can cope with the challenges of the pandemic while ensuring the delivery of quality education.

In addition to this and the continuation of the Anti-Dengue clean-up drive held last June 2022, LIBRO Officers are planning for the donation drive of essentials for face-to-face classes to be organized before the start of the school year. In this way, maintaining cleanliness among the individuals in school could be a great help as a response to resiliency in re-opening classes.

The era in which the start of the school year coincided with the beginning of classroom cleaning, decorating, and preparation is over. The situation is different now. The Department of Education (DepEd) guarantees that the initial teaching-learning process will be conducted on the first day of classes. Since Brigada Eskwela's birth more than ten years ago, this has been conceivable.

In order to prepare public school facilities for the start of the school year, Brigada Eskwela, the National Schools Maintenance Week, aims to bring together all teachers and school officials, students and their parents, alumni, community leaders, members of non-government organizations (NGOs), members of the private sector, other government agencies, and all other stakeholders.

As excitingly celebrated, the municipality of Cordon started the kick-off activity of Linggo ng Kabataan 2022 with a Clean-up Drive. In this regard, the Sangguniang Kabataan ng Cordon Officials are being joined by the enthusiast kabataang Cordonians, as well as the LIBRO Officers of Cordon, and the BROEd Scholars in the said activity.

Connectively, on June 6, 2022, the Department of Education Schools Division of Isabela spearheaded the BRIGADA ESKWELA in the whole province. In support of this activity, Hon. Governor Rodito T. Albano directed the active participation of stakeholders including all Isabeleño Youth and SK Officials in all levels to assist the DepEd in their very important undertaking.

As trusted officers of Lider ni BRO Cordon Chapter and dignified member of BROEd Scholars, we, the BROEd scholars of Cordon, under the leadership of the Lider ni BRO Officers (LIBRO), participated in the said program. Under this program, as our way of showing our full support to Isabeleño learners, we have given our active participation to this activity by cleaning up classrooms of Turod Sur Elementary School and the surroundings in their jurisdiction.

**Province of Isabela**  
Municipality of Cordon

This program was participated by some parents, teachers, students, and we, the officers with our scholars, that were gathered and worked together to ensure the cleanliness within our community and the school we have chosen to be our partner. We are given our respective areas to clean. With the help of our SK Federation President and our honorable officials, together with the kabataang Cordonians, and BROEd scholars who selflessly devoted their time, the community successfully implemented the drive to help the school in preparing for the new and fresh academic year. Moreover, the commendable actions of the everyone who supported this worthwhile activity made sure that Cordon will continue its effort to maintain cleanliness and make the environment free from any harm and disease, especially to the place where knowledge grows.

Another part of this kick-off activity was the conduct of Symposium for Anti-Illegal Drugs and Environmental Symposium participated by the youths and some municipal officials. These symposiums gave relevant and reliable information for the youth to be aware of real-world scenarios that need solutions.

Wrapping it up, we can truly say that this kick-off activity for our Linggo ng Kabataan 2022 celebration cum Brigada Eskwela was successful and fulfilling. Being part of this activity is a great opportunity for the community, especially to the youths, for us to be more directed and be aware of the importance of peace, order, and cleanliness. Big thanks to the Provincial Government Unit for the continuous support, to PYDO and LYDO/LYDC for the advisory and initiative to take action in this event, to our LGU which also supported this activity and program, and most especially to our SK Federation President of Cordon for her hard work and ingenuity in promoting the wellness of kabataang Cordonians through this week-long celebration.

LiBRO Officers of jones chapter together with the BRO-Ed scholars in the different barangays in the municipality participated

in simultaneous and Province-wide conduct of **BRIGADA ESKWELA 2022** held on August 06, 2022, as a support to the memorandum No. 20 series of 2022 issued by the Office to the Provincial Government of the Province of Isabela

The conduct of Brigada Eskwela with the theme “*BRIGADA ESKWELA: Tugon sa Hamon ng Ligtas na Balik Aral*” is a simple thing but has a great impact on every student to have a clean and safe environment for them to study. A simple way to prevent environmental diseases.

During the activity, Cleaning of the environment of the school was done and facilities were assessed to ensure that the school will be ready to start and welcome the student when classes officially started. Also, other places in Jones particularly the Public Market and Jones Bridge was also cleaned.

The main goal of this program is to protect and care for our environment and well-being, to avoid diseases that can be caused by the polluted, and dirty environment. It will also serve as our preparation for a disaster. Plastics, cans, balloons, and dry leaves can be the cause of the breeding of mosquitoes, most especially when they are not disposed of properly. It can be the cause of the floods and blockage of drains. That's why BRO-Ed scholars and LiBRO officers put an effort to clean the environments.

The program aimed at cleaning the environment, especially since it is the rainy season and many illnesses and diseases are caused by mosquitoes, as they say, “*prevention is better than cure*”, so the Youth of Jonesians put the action to prevent the upcoming

disaster causes those thing. The cleaner the safer and the better.

The Activity was done in collaboration with the SK officials together with the teachers, parents, and barangay officials of the selected schools in the municipality.

We are grateful for the active participation of the LiBRO officers and BRO-scholars. Their active and heartedly participation is a great impact to the student who will go to school this incoming school year.

The simplest thing we can do for our environment is a great help to us in the future, especially now that the classes have nearly started.

"BRIGADA ESKWELA 2022"  
(Narrative Report)

CHESTER MARK M. NANTES

Brigada Eskwela is an activity of extensive cleaning in schools for preparation of the upcoming school year.

Now, as we celebrate the month-long Buwan ng Kabataan and International Youth Day 2022 with the theme "Intergenerational Solidarity: Creating A World for All Ages". The provincial government of Isabela headed by Gov. Rodito T. Albano III and Vice Governor Faustino G. Dy III together with the following organizations and offices:

- Sannguniang Kabataan Panlalawigang Pederasyon Presidents (SKPP),
- Council ng NAGKAKAISA-Provincial Youth Development Council (PYDC) and
- Provincial Youth Development Office (PYDO)

launched a series of activities for the Kabataang Isabeleños to participate.

In connection, we, the BRO scholars of San Agustin together with the Lider ni BRO officers of the municipality partakes in Brigada Eskwela 2022 last August 6, same year in accordance to the mandate of Gov. Rodito T. Albano III to unite and help in the Brigada Eskwela for the preparation of the opening of this school year 2022-2023.

The officers visited Dabubu High School, one of the institutions in the municipality. Also, Parents, teachers, students, and we, the scholars, came together for this activity and collaborated to keep the area around the school clean. Every student, but especially the leaders, was given a space to help clean up. We completed the cleaning task effectively with the assistance of the parents and, of course, the selflessly dedicated barangay officials of the Dabubu Pequeo. Additionally, the BRO Scholars' amazing interaction with the parents and barangay

authorities was a major factor in the activity's success. And everyone who contributed to this excellent initiative ensured that Dabubu High School will provide the pupils with protection from dengue and the Covid-19 disease. Finally, we wanted to thank our provincial governor for his ongoing support, as his commitment and encouragement have made this activity possible. So, among all of our other community service obligations, this program had a good influence on our character and made us feel proud to be agents of change and a part of the movement. Furthermore, this volunteer activity gave us the chance to enhance our role as BRO Scholars by involving us in other facets of life. With this development, we were more adaptable and determined to take action that would benefit not just the community as a whole but also ourselves. That by participating in this program, we are able to develop our character and leadership abilities and become this generation's more accountable and devoted students. Overall, the opportunity gave us a chance to widen our perspectives.

Following the directive, Quezon BRO scholars, led by the Lider ni BRO Officers - Quezon Chapter, gladly assisted in the Brigada Eskwela event held at Quezon National High School, one of the secondary schools in the municipality. The student scholars were in charge of clearing areas that posed threats and inconveniences, such as uprooting grasses along the perimeter of the school, picking up waste along the school alleys, cultivating and beautifying plant boxes on campus, and arranging seats within classrooms.

The endeavor has developed a sense of community among the volunteer scholars, as well as dedication to a safe and environment-friendly surrounding as the new school year begins. They were ecstatic and glad when it was finished because they had contributed to the betterment of the school, especially for the eager students who were looking forward to the return of their face-to-face classes.

### **LIDER NI BRO SAN MANUEL CHAPTER JOINS BRIGADA 2022 NARRATIVE**

Issues from the perspective and active participation in all community-based activities and events are critical because they can demonstrate their active support for their respective community and practice volunteerism.

This program has always been a part of every public school as a sign of a new school year. Everyone pitched in to help with the restoration of our school beloved elementary Alma matter, which is now has 6 classroom buildings compared to 3 classroom buildings during our time. Furthermore, the municipal government still strictly implement the COVID-19 health protocols for the safety of all San Manuelenos. Despite our non-neglected fear and anxiety about the virus spreading, LIBRO officer, volunteers and teachers remained calm and resilient. We formally start our Brigada Eskwela Program for 2022.

The Brigada started with a parade around the sitio as a signal of BRIGADA 2022 kickoff. Parents, school alumni and other people from the community were encouraged to join. Following the caravan, an opening ceremony was held at our own school. Which is attended by parents, teachers, and the school principal to ensure the success of the Brigada Eskwela. Cleaning, gardening and repainting of classrooms are being materialized. We believe that environment plays a very important role in a student's learning. And so, if classrooms are not conducive to learning because of poor condition and some defective school facilities, education is hindered.

All of the exhausting days of Brigada Eskwela were well worth the sweaty efforts. Teachers were also recognized with certificates for their active participation. Finally, the program concluded with an intermission number available to all Brigada Eskwela 2022 participants. It was a resounding success, and it was all worthwhile. The school is now ready to begin classes. Indeed, it is literally true that we succeed best and fastest when we help others succeed.

### **BRIGADA ESKWELA: Tugon sa Hamon ng Ligtas na Balik-Aral (A Narrative Report on Clean-Up Drive)**

The TUGON sa HAMON ng LIGTAS na BALIK-ARAL mandated in the memorandum 20 series of 2022, the Provincial School Board in partnership with the Provincial Government of Isabela, BFP, the Philippine Army, PNP, Liga ng mga Barangay, Sangguniang Kabataan, parents, teachers, the community and other stakeholder is set to conduct a multi- sectoral, traditional province-wide Bridaga Eskwela.

The institution that is in charge of transforming the students into responsible members of society is the school. Here, one is molded into a better person who will serve as a symbol of the type of educational facility where they were raised. As per educators, the environment has a significant impact on students' learning. In order to make sure that the school facilities are ready in time for the school opening, the LIBRO Officers of AURORA and the BroEd scholar members each volunteered their time, effort, and resources. Brigada Eskwela participants included parents and other members of the neighborhood. There has been a thorough cleaning among all public schools to provide comfortable and secure facilities. Aurora Senior High School held Brigada Eskwela last August 6, 2022 with the help of Aurora LIBRO Officers, BroEd scholars, community and school work together in promoting a clean and safe environment and to prepare the facilities and school/s for the face-to-face school year. Due to the lack of a national budget, the Brigada Eskwela LiBRO Officers ask the kind-hearted Aurora Barangay Officials for financial support to pay for the volunteers' snacks and other safety essentials.

The primary objective of school administrators, LiBRO officers, and students is to create a welcoming environment for the approaching face-to-face school year. Nothing is

### **"BRIGADA ESKWELA: TUGON SA HAMON NG LIGTAS NA BALIK-ARAL"** (Narrative Report)

The Department of Education is set to gradually reintroduce the shift from a blended learning setup to 5 days of face-to-face classes on the subsequent school year starting on August 22, 2022. In line with this order, the activities and initiatives of this year's Brigada Eskwela (BE) needs to be revamped more than ever to ensure the safe opening of classes. Furthermore, this will also warrant a more secure, engaging, and conducive learning environment for our young learners, teaching and non-teaching staff, and the community despite the hindrances posed by the ongoing COVID-19 pandemic, the emerging dengue outbreak, and the like.

On the strength of Memorandum No. 20, Series of 2022 issued by our Provincial Governor Hon. Rodolfo T. Albano III on August 01, 2022, accompanied by the advisory of the Provincial Youth Development Office on August 3, 2022 and with related issuances; the Provincial School Board, its partners, and all Lider ni BRO (LiBRO) Officers and Scholars were called to partake in this year's BE with the theme *Tugon sa Hamon ng Ligtas na Balik-Aral*.

The involvement of the LiBRO Officers and Scholars of Luna in this year's BE last August 9, 2022, at 7:00 am exhibits a novel representation of their service and support towards the goals and advocacies of the Provincial Government of Isabela on nation building. With the Luna National High School as the chosen venue, we, together with teaching and non-teaching staff, parents, fellow students, the Barangay officials of Centro 1, and other stakeholders were able to successfully accomplish the following clean-up activities:

- General cleaning of the school premises
- Cleaning of classrooms and offices
- Trimming, cutting, and pruning of trees and grass
- Declogging of waterways and canals
- Performing proper waste disposal
- Removing obstacles from roads and sidewalks

Moreover, Brigada Eskwela 2022 is a full-fledged program which will be dedicated to providing both quality and access to education. Brigada Eskwela sa Paghahanda, which is a few weeks of school maintenance and modest to medium repair for the resumption of face-to-face classes makes up the physical component of 2022 BE. quality and raise student performance, Brigada Eskwela Plus, a component of BE, aims to boost learner involvement, lower dropout rates, and raise standards of instruction in academic schools.

The activity as well as the honor to serve as a LIBRO officer would not be made possible without the supervision and approval of the provincial governor along with the whole planning committee of the office. With this, the deepest gratitude is offered to them for honing the future leaders of Isabela as individuals of words and in full commitment to serving the youths thus also serving the whole town of Luna. The main goal to lead the future generation does not only benefit the town itself but instills a great steppingstone for self-improvement and discipline to the young LIBRO leaders. With this, the future to always choose to love and serve the province will be assured through incorporating continuous learning thus ensuring an effective ascending step of knowledge and skills.

Among all our other community service responsibilities, this program had a positive impact on our character and made us feel pleased to be part of the activity. With this, we were more willing and more determined to take action that would benefit not only the community but also ourselves

(Narrative Report)

The school is an institution that is responsible for developing pupils into productive members of society. This is where one is molded into a better person, someone that will represent the type of learning institution where he would have been developed. The diverse concerns of education necessitate collaboration with others to complete assigned activities and objectives. These would necessitate committed school professionals, cooperative parents, a responsible community, and imaginative students. Educators feel that the environment has a significant impact on kids' learning. As a result, education is hampered if classrooms are not suitable for learning due to poor conditions and certain defective school amenities.

Educators and those involved feel that the environment plays a significant and influential part in each learner's learning process. As a result, if classrooms are not conducive to learning due to, among other things, poor physical conditions and faulty school infrastructure, education is hampered and cannot be utilized to its full potential. With this goal in mind, DepEd Memorandum No. 12, s. 2006 otherwise known as National Schools Maintenance Week, more commonly known as Brigada Eskwela, is done annually to prepare the school days before the official opening of classes. With the theme "Brigada Eskwela: Tugon

sa Hamon ng Ligtas na Balik Aral”, the said activity was disseminated on the first week of August. All youth leaders and scholars were encouraged to participate the said activity as a way of showing support to Isabeleño learners. This is in pursuant of Republic Act 11480 and is in line with the Department’s commitment to ensure that education continues amid the challenges of the absence of face-to-face classes brought about by the CoVid-19 pandemic.

San Miguel Elementary School and Cullalabo Elementary School faculty and staff staged a short program in the early morning of August 6, 2022. The presence of several groups of volunteers was appreciated. The school administrator provided a brief orientation to the Brigada Eskwela. The Brigada Eskwela's official opening date was finally revealed. The eager, prepared, and competent brigade includes the LiBro Officers of Burgos, impassioned instructors, enthusiastic parents, ecstatic pupils, and other concerned community members. Some kind sponsors gave professional assistance such as carpenters, welders, and painters to aid with the reconstruction of some of the classrooms. Minor activities include renovating the classroom walls, ceilings, doors, and windows, as well as repairing desks, armchairs, and cupboards. Some moms were tasked with cleaning up the school grounds and rehabilitating the school garden, and they thoroughly enjoyed their work. The brigade members all worked diligently. They accomplished all of this and more with an admirable sense of camaraderie

bayanihan (communal togetherness) or coordinated solidarity. With education being a social institution that delivers critical information, fundamental facts, work skills, and cultural norms and values to its members, school provides a disciplined instruction while also promoting a child's mental and psychological development. Other key life qualities that a child will acquire include creative cooperation, decent manners, altruistic unity, equitable sharing, and personal responsibility.

The LiBRO officers and scholars are very much indebted to the teachers and other individuals who extended their hand in making the following become possible:

- Maintaining the school's premises
- Tree trimming around the school
- Garbage disposal repair
- Office and classroom redecorating
- Upkeep and restoration of bulletin boards and other equipment

With the cooperation and invaluable support of the barangay officers as well as the teachers, the classrooms have been reorganized and spruced up, all of the school's facilities are presently in good condition, and tall grasses have been removed from the school grounds. In order to facilitate the number of BRO scholars from the 26 barangays of Cabagan, one of the strategies pulled off by the officers is tasking each of the officers with their specific barangays to facilitate. Each officer was given the job of monitoring the attendance of his or her assigned barangay and/or coordinating with the SK official of the said barangay to get the attendance.

The planting began about 6:00 a.m. at the designated location. In consideration of this, the LiBRO Officers convened at 5:30 a.m. along the Cagayan River at Casibarag Sur Cabagan Isabela to assist the municipality in arranging the bamboo promulgates to be used for planting as well as to assemble the BRO Scholars before the planting started.

Furthermore, the officers directed the scholars to bring tree guards to serve as protection for the bamboo promulgates in order for it to thrive and grow, which the scholars accomplished.

With an estimated 2,000 BRO scholars participating in the activity, the LiBRO Officers felt a greater sense of accomplishment and gratitude for contributing to the success of our beloved province's 1 million bamboo trees in 1 day program.

## "One in a million Bamboos in One Day Planting Activity"

(Accomplishment Report) By:  
LIBRO ILAGAN

**REFORESTATION TARGET ACTION (RTA) ONE MILLION BAMBOOS IN ONE DAY A Riparian Rehabilitation Action Project, conducted by the Provincial Government of Isabela.**

As we all know Bamboo is highly versatile. It is capable of growing in a variety of soils derived from different parent rocks, within its climatic habitats. It is always important to plant a bamboo after all the disasters that affect us but in the help of this activity, we unite as one to restore areas prone to natural disasters.

With that being said, some individuals and members of BRO Scholars (Ilagan) headed by the Lider ni BRO officers (LIBRO) took part in the program imposed by our adored provincial governor. We participated in this program in a way that some of our members did the activity at river banks of Pinacanauan River Alinguigan 2nd City of Ilagan the officers, though that it is better to start it in our own respective homes.

We participated and fulfilled the goals of the said program. The accomplished activities; one million bamboos in a day, expelling superfluous things, some officers and scholars opted to plant along their backyard which is good even they can't attend to the said activity but still, they take actions to join in the said activity.

We, as the Lider ni Bro (Ilagan), will always carry the enthusiasm to execute such obligations for the betterment of our community. We aim to come up with a good environment, and a facilitative environment for the community. The success of the said activities and program is all thanks to the BRO scholars, individuals, and especially the LIBRO officers who volunteered to join and participate in One million bamboo three planting program.

To end, we wanted to express our appreciation and sincerest gratitude to Governor Albano for the ceaseless support, since this activity is made conceivable through his commitment and support. Hence, among our numerous commitments to community service, this program positively impacted our character and allowed us to feel proud to be part of the movement and catalysts of change.

Trees are one of nature's greatest wonders, one of the precious gifts humans and other living beings have received from the Almighty, on which they depend greatly. Besides physiological needs such as food, air, and shelter, they also provide humans with important ones such as medicine and protection from natural disasters. The benefits it offers continue to flow, but so do the demands that cater to modern lifestyles. It causes natural disasters such as flooding and soil erosion, which affect human life above all. For these reasons, it is imperative to plant trees that are beneficial to both humans and other creatures who deserve to live in a cool and safe environment. With the worsening of climate change, planting trees and changing the trees that were being cut would be helpful in saving the humanity. In practically any application, bamboo may take the place of wood. Thousands of bamboo products are now available that totally replace wood, including flooring, musical instruments, furniture, construction materials, and a variety of other items. Furthermore, bamboo fibers outperform wood fibers in terms of strength and resistance to deformation brought on by variations in atmospheric conditions.

With the help of Isabeleños, the Provincial Government of Isabela will restart its historical effort to plant one million trees. In a single day, the effort hopes to plant a million trees. This time, "One Million Bamboos in One Day" is being used to green and restore the riparian areas along the Cagayan River from Alinguigan 2nd, City of Ilagan to Sitio Catengtengan, Ballacayu, San Pablo, Isabela and dredged river tributaries.

In line with this, the LiBRO Officers and BRO-Ed scholars of Delfin Albano with the collaboration of Sangguniang Kabataan, KKDAT members, Barangay Officials, teachers, and volunteers of Delfin Albano participated in the recently concluded "One Million Bamboos in One Day 2023," in the province of Isabela. The said activity will help the environment restore and conserve the nature for the future. This

planting activity was created to prevent the continuous erosion of the riverbank along the Cagayan River.

The area of planting is in the side of the Cagayan River, others were planted in their backyard and in the place that are lack of trees.

It is indeed that all the Isabelios citizens had shown their untiring support and passionate participation in every activity of the province of Isabela that whatever activities physical, youth programs, academics, financial, educational, and environmental they are always there to actively participate and be involved. This shows that youth is the hope of the nation and the future.

Studies revealed that bamboos can help hold the ground in place by being planted in potentially loose soil because of their extensive and dense root systems. In the study of Fajanil, Yraula, and Arevalo, they used two kinds of bamboos: Bayog (*Bambusa blumeana* var. *luzonensis*) and Botong (*Gigantochloa levis*) in combination with vetiver in order to determine how successfully they might restore important riverbanks,

Undeniably, bamboo's spreading root structure secures the soil, avoiding landslides or reducing erosion that can result in fatalities and property damage, thus acting as a barrier against soil erosion. Additionally, bamboo provides environmental functions like protecting water supplies through watershed restoration.

Moreso, there are numerous applications for bamboo. It provides a means of subsistence since it can be used to make low-cost homes that can endure natural disasters, assemble furniture, scaffolding, and posts for use in agriculture and aquaculture, weave mats, create plywood and panels, and make flooring, among other things. If not, it is possible to harvest its shoots for food.

In light of this, the Provincial Government of Isabela, as sincere to fulfilling its dream of a resilient province, through Executive Order Nos. 15 and 16 s. 2019, asked the full cooperation and help of the entire Isabela community to plant and donate bamboo propagules on December 20,

2022 along the Cagayan riverbank for the e protection and rehabilitation— the REFORESTATION TARGET: One Million Bamboos in One Day: A Riparian Rehabilitation Project. In support to the provincial government of Isabela endeavor in the Riparian Rehabilitation Project Planting Activity that will serve as a legacy project, the Local Government Unit of Santa Maria conducted a meeting last December 12, 2022 at the dining hall area in Santa Maria gymnasium spearheaded by

## "1 MILLION BAMBOOS IN 1 DAY"

### (Narrative Report)

The act of transplanting tree seedlings is known as "treeplanting," and it is typically done for forestry, land reclamation, or landscaping purposes. It is distinct from arboriculture's transplantation of larger trees and from the less expensive, slower, and less dependable dispersal of tree seeds.

The Provincial Government of Isabela will once again embark on another milestone of bringing together the Isabeleños through the One Million Bamboos in One Day Project to rehabilitate and restore the Cagayan River Riparian Zones.

It is widely known in the Philippines that volunteerism or an act of volunteering is one of the positive traits of every Filipino. ### REPORT OF

#### LIDER NI BRO – RAMON CHAPTER

Global Warming is a serious environmental problem caused by the rapid rise in the Earth's temperature. The unfortunate thing is that wildlife and their habitats are being harmed. Because of the advent of human activities such as cutting trees, soil degradation, etc. we are being affected by the sudden rise of the heat of the planet. Thus, with that the Isabela Provincial Government initiated revitalization of its legacy tree planting project, One Million Trees in One Day, with the goal of restoring destroyed forests caused by wildfires and massive flooding caused by Typhoon Ulysses, by promoting bamboo planting in the province. The Lider ni Bro Officers – Ramon Chapter together with BRO scholars took part on this movement at Bugallon Proper, Ramon, Isabela on Tuesday, December 20, 2022.

This aims to protect our environment and maintain the rich biodiversity we have in our province. We need to learn more about these environmental issues for us to be aware on the things that we do that may affect our home. If we lack the discipline of protecting our environment, at the end of the day we suffer and as leaders we should start making a movement for the betterment of our beloved Earth.

## "1 MILLION BAMBOOS IN ONE DAY" (Narrative Report)

Trees are among the precious assets that the Creator sent to man and other living things, on which they significantly rely. They are one of nature's greatest miracles. In addition to meeting our physiological needs for food, shelter, and air, nature also provides us with necessities like medication and safety from natural disasters. While it is true that the benefits it offers continue to flow, its demands to support the modern lifestyle also increase.

In fact, as a result of widespread human activity related to tree destruction, the ecosystem's natural order was disturbed, leading to global warming and other natural disasters that endanger human life, such as flooding and soil erosion.

To benefit both humans and other living things who deserve to dwell in a cool and secure environment, it is imperative to grow trees for these precise reasons.

Bamboos are one of the best disaster proofs due to its flexibility, strength and roots. That is why the provincial government decided to conduct a biggest tree planting using Bamboo trees to help lessen or prevent soil erosion and flooding.

Last December 20, 2022 the provincial government of Isabela conducted a massive tree-planting to the whole province of Isabela entitled 1 Million Bamboos in one Day: A Riparian Rehabilitation Project of the Provincial Government.

All BRO scholars are mandated to join the said event in collaboration to the SK official, LYDO, Barangay officials and employees as well as LGUs.

Therefore, the Lider ni BRO San Mateo didn't hesitate to join the biggest event of the province. LIBRO San Mateo coordinated to SK Federation President, Miss Alenis Jaya Astrero together with LYDO head, Sir Brando Palaganas to plan the activity even in a short notice. As it ends the event was successfully executed.

The Provincial Government of Isabela brought together the Isabeleños through the One Million Bamboos in One Day Project to the realization of the above-mentioned purpose.

As per to the Cordonian community, another milestone has been embarked as the LGU Officials and Employees, Barangay Officials, Sangguniang Kabataan Officials, Department of Education, Private Sectors, Local Youth Development Officers, LiBRO Officers, and BRO Scholars joined the riparian rehabilitation project in the province.

The participants gather at the Rizal Park on the municipal ground and waited for the service trucks. When the trucks were ready and there were enough participants, eventually, batch by batch went to Sitio Estampa in Barangay Capirpirwan, Cordon, Isabela. There were many batches who came in the planting area. Some were early and some were late. Upon arrival, in the entrance, we had to get our own bamboo tree/propagules and carry them with us as we walked and climb the mountain. From the foot of the mountain up to its highest peak, there were holes for us to plant the bamboos. People started to plant trees. Even if they looked so tired, you can see the smiles and genuine

Bilang pakikiisa ng ating bayan sa *One Million Bamboos in One Day Planting Activity* ng PGI inorganisa ng LGU sa pangunguna ng Gayyem ti Umili ang Tree Planting Activity sa Dibuluan Eco-Tourism Park noong Desyembre 20, 2022

This activity aims to raise our awareness of the value of and need to protect nature because we also benefit from it. We will be better protected from natural calamities like landslides and floods if we value nature more. Planting trees benefits the environment and lays the groundwork for future disasters. Tree roots stabilize the soil, preventing the erosion that leads to landslides. Additionally, it aids in replenishing the groundwater supply, stops the flow of pollutants into streams, and reduces flooding.

Because of this, the Bro-ed scholars took part in this action to ensure that Jones' frequently flooded areas are prepared for the upcoming disaster and that our environment and our safety from future disasters would all be protected.

To my fellow BRO-scholars and BRO-Heads from the different barangays and other sectors we appreciate your efforts and eagerness to joined to this so called activity.

Participants in the aforementioned exercise included all members of YORP-Registered Youth and Youth-Serving Organizations, such as Student Councils and Student Body Organizations, as well as Local Youth Development Officers, LIBRO Officers, and the 15,000 BRO For Education Scholars.

The Aurora Chapter of LIBRO Officers has therefore made preparations for the event. From the executive officers' continued involvement in Google Meet meetings, which started on December 6, 2022, to acquire crucial instructions on how the event should be handled, through the distribution of meeting minutes informing the scholars of our municipality to participate in the abovementioned event. Furthermore, it was declared prior to the event that each student's attendance was required to serve as the basis for the distribution of scholarship allowances as indicated on the revised Constitution and By Laws of Lider ni Bro, and as a result, every student participated in the actual event. Out of the 356 Aurora BRO Scholars, \_\_\_ participated, and \_\_ were excused because of academic commitments to their respective schools. The night before the event, we, LIBRO officers, reminded the students of the time, location, and supplies they should bring. The event is scheduled for 6:00 a.m. on the riverbank near the Smart Telco cell site in Camarunggan, Aurora, Isabela and was also attended by barangay officials led by Brgy. Captain Rolly A. Fajardo and SK Chairman Jefferson A. Agustin, as well as several volunteers. The event concluded at 9:00 a.m.

This chance to engage in many parts of life allowed us to broaden our sense of responsibility as researchers. As a result of this growth, we were more eager and motivated to pursue initiatives that would be advantageous to both the community as a whole and to ourselves. As a result of the character-building opportunities provided by this curriculum, we are able to become more

Another milestone of uniting its citizenry, by joining the youth, barangay residents, and all sectors from both public and private entities. Sustaining the initiative and great camaraderie of all Isabeliños to keep on planting million trees in one day. This One Million Bamboos in One Day Planting Activity - aims to rehabilitate and restore the Cagayan River Riparian Zones. As we connect with nature, discovering how we can share our little ways of improving our environment, uplifting the quality of living environment through active planting, we, Lider ni BRO, will continue to encourage all Isabeliños to keep on planting million trees in one day.

According to an adage, bamboo is one of the most resilient perennials to ever grow. The bamboo's strength, flexibility and toughness can be compared to that of the Filipino spirit. Furthermore, the bamboo's contribution to humanity is not limited to livelihood but also in protecting the nature. It is known that the bamboo's root system is responsible for holding together eroding parts of lands and riverbanks, as well as providing shelter to local animal species.

In line with this, the Lider ni BRO (LiBRO) Officers of the Municipality of Burgos heeded the call of the Provincial Government of Isabela in partnership with its stakeholders of planting 1 million bamboo seedlings in one day under the flagship slogan, "One Million Bamboos in One Day" held at Brgy. San Miguel, Burgos, Isabela on December 20, 2022. This daring project was initiated by Isabela Governor Rodito Albano in an attempt to mitigate flooding on low-lying areas of the province

Periodic storms and continuous floods have caused devastating damage to the people in our community. Typhoons may not be prevented from entering our lands, but its effect can be and we have it in our hands. Trees are a valuable tool to reduce catastrophic damage brought by incessant rain. Thus, this tree planting program “One Million Bamboo in One day” is designed to provide an opportunity towards the goal of environmental protection and disaster-risk resilience. As well as, bearing new fruit of aspiration for a better tomorrow to us Isabeliños.

Sir:

Good day!

One of the responsibilities of the YORP-registered organizations is to submit an annual accomplishment report to be used as a basis for the renewal/accreditation and grant of DIT Oy Assistance every renewal.

In this regard, I am submitting the Writers' Guild organization's accomplishment report for the year 2022. Due to limited potential activities and half-year distance learning, the aforementioned organization has only two accomplishments this year, which aim to maximize language learners' vocabulary repertoires to support their verbal and written communication as well as mold their abilities in teaching learners how to read.

We are looking forward to more accomplishments in the next few years.

I hope that these accomplishments will merit your approval.

Thank you and more power!

Very respectfully yours,
